#### **POLICIES AND PRACTICES FOR STORAGE OF RECORDS:**

The information pertaining to the Lifeline Program includes electronic records, files, data, paper documents, records, and may include audio recordings of calls. Records are maintained in secure, limited access areas. Physical entry by unauthorized persons is restricted through use of locks, passwords, and other security measures. Both USAC and its contractors will jointly manage the electronic data housed at USAC and at the contractors' locations. Paper documents and other physical records (*i.e.*, tapes, compact discs, etc.) will be kept in locked, controlled access areas. Paper documents submitted by applicants to the Lifeline Program will be digitized, and paper copies will be immediately destroyed.

#### **POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:**

Information in the Lifeline Program system of records may be retrieved by various identifiers, including, but not limited to the individual's name, last four digits of the Social Security Number (SSN), Tribal identification number, date of birth, phone number, residential address, and Lifeline subscriber identification number.

The information in this system is maintained and disposed of in accordance with the National Archives and Records Administration (NARA) General Records Schedule DAA-0173-2017-0001-0002. Records maintained in connection with the Lifeline Program will be destroyed 10 years after the year it was created or when no longer needed for business or audit purposes, whichever comes later. The FCC and USAC dispose of paper documents by shredding. Electronic records, files, and data are destroyed either by physical destruction of the electronic storage media or by erasure of the data.

#### **ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:**

The electronic records, data, and files are maintained in the FCC and the USAC computer network databases, which are protected by the FCC's privacy safeguards, a comprehensive and dynamic set of safety and security protocols and features that are designed to meet all Federal privacy standards, including those required by the Office of Management and Budget (OMB), National Institute of Standard and Technology (NIST) and the Federal Information Security Management System (FISMA). In addition, access to the electronic files is restricted to authorized USAC and contractors' supervisors and staff and to the FCC's IT supervisors and staff and to the IT contractors who maintain these computer databases. Other FCC employees and contractors may be granted access only on a "need-to-know" basis. In addition, data in the network servers for both USAC and its contractors will be routinely backed-up. The servers will be stored in secured environments to protect the data.

The paper documents and files are maintained in file cabinets in USAC and the contractors' office suites. The file cabinets are locked when not in use and at the end of the business day. Access to these files is restricted to authorized USAC and its contractors' staffs.
