adapter; housing assembly; plate; mounting components (kit; conversion ring; frame); wall mounts; surface mount boxes; surveillance cabinets; ceiling support kits; duct smoke detector components (housing; head); detectors (smoke; motion; passive infrared (PIR)/microwave (MW); wireless motion; glass break); end-of-line bases; flush detector heads; smoke detector bases with wiring; indoor sirens; necklace pendants for access control cards; manual stations for fire alarm activation; panels (fire; intrusion system; light emitting diode (LED) command control; control; IP control; controller); contact monitors; keypads (including two-line alpha numeric; LED; basic; alpha/numeric; touch screen; liquid crystal display (LCD) text); wall horns/strobes; sample tubes for duct smoke alarms; labels (blank; recycle battery); interface modules for an intrusion system panel; e-net interfaces; request to exit sensors; battery shelves; trim rings; drop-ceiling flush; detector housings; power supply brackets; dummy covers; power supply module interfaces; wireless surface mounts; wireless loop inputs; trim plates for keypads; external annunciators; switches (tamper proof for intrusion systems; dual phone line; dual tamper); end of line resistors; phone jacks; panel rails; window/door contacts; touch screens; cable clamps; electrical knockout plugs; audio/light mixers; cables; phone cords; dual battery harnesses; cable sets; cables under 80V; and, security camera lenses (duty rate ranges from duty-free to 8.5%). The request indicates that certain materials/components are subject to duties under Section 301 of the Trade Act of 1974 (Section 301), depending on the country of origin. The applicable Section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board’s Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is April 6, 2021. A copy of the notification will be available for public inspection in the “Reading Room” section of the Board’s website, which is accessible via www.trade.gov/ftz.

For further information, contact Juanita Chen at juanita.chen@trade.gov or 202–482–1378.

Andrew McGillvray, Executive Secretary.

Ultra-High Molecular Weight Polyethylene From the Republic of Korea: Final Determination of Sales at Less Than Fair Value

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) determines that ultra-high molecular weight polyethylene (ultra-high polyethylene) from Republic of Korea (Korea) is being, or is likely to be, sold in the United States at less than fair value (LTFV). The period of investigation (POI) is January 1, 2019, through December 31, 2019. The final dumping margins of sales at LTFV are listed in the “Final Determination” section of this notice.

FOR FURTHER INFORMATION CONTACT: Ian Hamilton or Peter Skarlatos, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–4798 or (202) 482–0324, respectively.

SUPPLEMENTARY INFORMATION:
Background

On October 6, 2020, Commerce published the Preliminary Determination, in which we also postponed the final determination to February 18, 2021.1 A summary of the events that occurred since Commerce published the Preliminary Determination, as well as a full discussion of the issues raised by parties for this final determination, may be found in the Issues and Decision Memorandum, which is hereby adopted by this notice.2

Scope of the Investigation

The product covered by this investigation is ultra-high polyethylene from Korea. For a complete description of the scope of the investigation, see Appendix I.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties in this investigation are addressed in the Issues and Decision Memorandum. A list of the issues raised is attached to this notice as Appendix II. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at https://access.trade.gov. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at http://enforcement.trade.gov/frn/index.html. The signed and electronic versions of the Issues and Decision Memorandum are identical in content.

Verification

Commerce was unable to conduct on-site verification of the information relied upon in making its final determination in this investigation. However, we took additional steps in lieu of an on-site verification to verify the information relied upon in making this final determination, in accordance with section 782(i) of the Tariff Act of 1930, as amended (the Act).3

Changes Since the Preliminary Determination

Based on our analysis of both the comments received and the information received in lieu of on-site verification, we made certain changes to the margin calculations for KPIC. For a discussion of these changes, see the “Margin Calculation” section of the Issues and Decision Memorandum.

All-Others Rate

Section 735(c)(5)(A) of the Act provides that the estimated all-others rate shall be an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero or de minimis margins, and margins determined entirely under section 776 of the Act. Section 735(c)(5)(B) of the Act provides that if the estimated weighted-average dumping margins for all individually investigated exporters and producers are zero or de minimis or determined

1 See Ultra-High Molecular Weight Polyethylene from the Republic of Korea; Preliminary Affirmative Determination of Sales at Less Than Fair Value, 85 FR 63995 (October 6, 2020) (Preliminary Determination).

2 See Enforcement and Compliance, Issues and Decision Memorandum for the Final Affirmative Determination in the Less-Than-Fair-Value Investigation of Ultra-High Molecular Weight Polyethylene from the Republic of Korea, dated concurrently with this notice (Issues and Decision Memorandum).

entirely under section 776 of the Act, then Commerce may use any reasonable method to establish the estimated all-others rate, including averaging the estimated weighted-average dumping margins determined for the individually investigated exporters and producers.

Commerce calculated an individual estimated weighted-average dumping margin for KPIC, the only individually examined exporter/producer in this investigation. Because the only individually calculated dumping margin is not zero, de minimis, or based entirely on facts otherwise available, the estimated weighted-average dumping margin calculated for KPIC is the margin assigned to all other producers and exporters, pursuant to section 735(c)(5)(A) of the Act.

Final Determination

The final estimated weighted-average dumping margins are as follows:

<table>
<thead>
<tr>
<th>Exporter/manufacturer</th>
<th>Weighted-average margin (percent)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Korea Petrochemical Ind. Co., Ltd./KPIC Corporation</td>
<td>7.84</td>
</tr>
<tr>
<td>All Others</td>
<td>7.84</td>
</tr>
</tbody>
</table>

Disclosure

We intend to disclose the calculations performed within five days of the date of publication of this notice to parties in this proceeding, in accordance with 19 CFR 351.224(b).

Continuation of Suspension of Liquidation

For this final determination, for entries made by KPIC and the companies covered by the all-others rate, in accordance with section 735(c)(4)(A) of the Act, we will direct U.S. Customs and Border Protection (CBP) to continue to suspend liquidation of all entries of subject merchandise, as described in Appendix I of this notice, which were entered, or withdrawn from warehouse, for consumption on or after June 19, 2010, and which are classifiable under the HTSUS subheadings and CAS registry numbers of 9002–88–4.

This determination and this notice are issued and published pursuant to sections 735(d) and 777(i)(1) of the Act.

Christian Marsh,
Acting Assistant Secretary for Enforcement and Compliance.

Appendix I—Scope of the Investigation

The merchandise covered by the scope is ultra-high molecular weight polyethylene.

Ultra-high molecular weight polyethylene is a linear polyethylene, in granular or powder form. As defined by Margolies’ Equation, of greater than 1.0 × 106 g/mol.

The scope includes all ultra-high molecular weight polyethylene in granular or powder forms meeting the above specifications regardless of additives introduced in the manufacturing process.

Medical-grade ultra-high molecular weight polyethylene blended with other products is included in the scope of the investigation where ultra-high molecular weight polyethylene accounts for more than 50 percent, by actual weight, of the blend and the resulting blend maintains a molecular weight defined by Margolies’ Equation, of greater than 1.0 × 106 g/mol and/or a melt mass-flow rate of less than 0.1 g/10 min.

Excluded from the scope of the investigation is medical-grade ultra-high molecular weight polyethylene. Medical-grade ultra-high molecular weight polyethylene has a minimum viscosity of 2.000 ml/g at a concentration of 0.02% at 135 °C (275 °F) in decahydropaphthalene and an elongational stress of 0.2 MPa or greater.

Medical-grade ultra-high molecular weight polyethylene is further defined by its ash and trace element content, which shall not exceed the following maximum quantities as set forth in ISO-5834–1: Ash (125 mg/kg), titanium (40 mg/kg), calcium (5 mg/kg), chlorine (30 mg/kg), and aluminum (20 mg/kg).

ISO 5834–1 further defines medical grade ultra-high molecular weight polyethylene by its particulate matter content, which requires that there shall be no more than three particles of contaminant per 300 ± 20 g tested. Each of the above criteria is calculated based on the standards and methods used in ISO 5834–1.

Ultra-high molecular weight polyethylene is classifiable under the HTSUS subheadings 3901.10.00 and 3901.20.1000. Although the HTSUS subheadings and CAS registry number are provided for convenience and customs purposes, the written description of the scope is dispositive.

Appendix II—List of Topics Discussed in the Issues and Decision Memorandum

I. Summary
II. Background
III. Changes Since the Preliminary Determination
IV. Discussion of the Issues
Comment 1: Whether Commerce’s Final Determination Should be Provisional and Whether Commerce Provided Adequate Time for KPIC’s Response to the in-Lieu of On-Site Verification Questionnaire
Comment 2: KPIC’s Home Market Freight Expense Adjustment
Comment 3: KPIC’s Reported Product Codes and Product Characteristics
Comment 4: Ministerial Errors in the Preliminary Determination
Comment 5: Whether the Record Demonstrates That KPIC Accurately Reported its Actual Cost of Production (COP)
Comment 6: Whether Commerce Reasonably Adjusted KPIC’s Ethylene COP
V. Recommendation

Certain Aluminum Foil From the People’s Republic of China: Final Results of Antidumping Duty Administrative Review; Final Determination of No Shipments; 2017–2019
AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.
SUMMARY: The Department of Commerce (Commerce) has analyzed the case and rebuttal briefs submitted by interested parties and finds that exporters of certain aluminum foil (aluminum foil) from the People’s Republic of China (China) sold subject merchandise in the United States at prices below normal value during the period of review (POR) November 2, 2017, through March 31, 2019.
FOR FURTHER INFORMATION CONTACT: Chelsey Simonovich or Michael J. Heaney, AD/CVD Operations, Office VI, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: at (202) 482–1979 or (202) 482–4475, respectively.
SUPPLEMENTARY INFORMATION:
Background
Commerce published the Preliminary Results of the administrative review of the antidumping duty order on June 24, 2020. The administrative review covers two mandatory respondents: (1) Jiangsu Zhongji Lamination Materials Co., (HK) Ltd.; Jiangsu Zhongji Lamination Materials Stock Co., Ltd.; Jiangsu Zhongji Lamination Materials Co., Ltd.; and Jiangsu Huafeng Aluminum Industry Co., Ltd. (collectively, Zhongji), and (2) Xiamen Xiashun Aluminum Foil Co., Ltd. (Xiashun). The administrative review also covers ten other companies that were not selected for individual examination.

On July 21, 2020, Commerce tolled all deadlines for administrative reviews by 60 days. On December 15, 2020, Commerce extended the deadline for the final results of this administrative review by 60 days. The deadline for the final results of this review is now February 19, 2021. For a complete description of the events that occurred since the Preliminary Results, see the Issues and Decision Memorandum.

Scope of the Order
The merchandise covered by this administrative review is aluminum foil from China. For a full description of the scope, see the Issues and Decision Memorandum.

Analysis of Comments Received
All issues raised in interested parties’ briefs are addressed in the Issues and Decision Memorandum. A list of the issues raised by interested parties and to which we responded in the Issues and Decision Memorandum is provided in the Appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at http://access.trade.gov. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at http://enforcement.trade.gov/frn/index.html. The signed and the electronic versions of the Issues and Decision Memorandum are identical in content.

Final Determination of No Shipments
In the Preliminary Results, we found no evidence calling into question the no-shipment claims of Jiangsu Dingsheng New Materials Joint-Stock Co., Ltd. No parties commented on this preliminary decision. For the final results of this review, we continue to find that Jiangsu Dingsheng New Materials Joint-Stock Co., Ltd. had no shipments of subject merchandise to the United States during the POR.

Changes Since the Preliminary Results
Based on a review of the record and comments received from interested parties, Commerce has made two changes to the Preliminary Results. First, for Zhongji, we have revised our calculation of ash/dross to account for the metal content of the ash/dross. Second, we have revised our calculation of an adverse inference with regard to Xiashun. For a more detailed discussion of these changes, see the Final Analysis Memoranda for Zhongji and Xiashun.

Separate Rate
In the Preliminary Results, we found that information placed on the record by Zhongji; Xiashun; Alpha International Holdings Limited; Dingsheng Aluminum Industries Hong Kong Trading Co.; Granges Aluminum (Shanghai) Co., Ltd.; Hangzhou Dingsheng Import & Export Co., Ltd.; Hunan Sun town Marketing Limited; Jiangsu Alcha Aluminum Co., Ltd.; and Shanghai Shenyang Packaging Materials Co., Ltd. No parties commented on this preliminary decision. For the final results of this review, we continue to find that Jiangsu Dingsheng New Materials Joint-Stock Co., Ltd. had no shipments of subject merchandise to the United States during the POR.
