

liquidation of all entries of silicon metal, as described in Appendix I of this notice, which are entered, or withdrawn from warehouse, for consumption on or after December 11, 2020, the date of publication in the **Federal Register** of the affirmative *Preliminary Determinations*.

In accordance with section 733(e)(2)(A) of the Act, suspension of liquidation of silicon metal from Iceland, as described in the “Scope of the Investigations” in Appendix I, shall continue to apply to unliquidated entries of silicon metal exported by PCC Bakki and all other producers/exporters from Iceland that entered, or were withdrawn from warehouse, for consumption on or after September 12, 2020, which is 90 days prior to the date of publication of the *Preliminary Determinations*.

Pursuant to section 735(c)(1)(B)(ii) of the Act and 19 CFR 351.210(d), we will instruct CBP to require a cash deposit for such entries of merchandise equal to the estimated weighted-average dumping margin as follows: (1) The cash deposit rate for the companies listed in the table above will be equal to the company-specific estimated weighted-average dumping margin identified for each company in the table; (2) if the exporter is not a company identified above, but the producer is, then the cash deposit rate will be equal to the company-specific estimated weighted-average dumping margin established for that producer of the subject merchandise; and (3) the cash deposit rate for all other producers and exporters will be equal to the all-others estimated weighted-average dumping margin.

These suspension of liquidation instructions will remain in effect until further notice.

International Trade Commission Notification

In accordance with section 735(d) of the Act, we will notify the International Trade Commission (ITC) of the final affirmative determinations of sales at LTFV. Because Commerce’s final determination is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will make its final determinations as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports, or sales (or the likelihood of sales) for importation of silicon metal from Bosnia and Iceland no later than 45 days after these final determinations. If the ITC determines that such injury does not exist, these proceedings will be terminated, and all cash deposits will be

refunded and suspension of liquidation will be lifted. If the ITC determines that such injury does exist, Commerce will issue antidumping duty orders directing CBP to assess, upon further instruction by Commerce, antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation, as discussed above in the “Continuation of Suspension of Liquidation” section.

Notification Regarding Administrative Protective Orders

This notice serves as a reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

These determinations are issued and published pursuant to sections 735(d) and 777(i)(1) of the Act, and 19 CFR 351.210(c).

Dated: February 22, 2021.

James Maeder,
