BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Extension Form Id 3235-0328]

Submission for OMB Review; Comment Request; Upon Written Request

Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549-2736

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (the "Paperwork Reduction Act"), the Commission is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget.

Form ID (OMB Control No. 3235-0328) must be completed and filed with the Commission by all individuals, companies, and other organizations who seek access to file electronically on the Commission's primary electronic filing system, Electronic Data Gathering, Analysis and Retrieval system ("EDGAR"). Those seeking access to file on EDGAR typically include those who are required to make certain disclosures pursuant to the federal securities laws. The information provided on Form ID is an essential part of the security of EDGAR. Form ID is not a public document because it is used solely for the purpose of screening applicants and granting access to EDGAR. Form ID must be submitted whenever an applicant seeks an EDGAR identification number (Central Index Key or CIK) and access codes to file on EDGAR.

The Commission may consider, among other things, amendments to Form ID that would result in a more uniform and secure process for EDGAR access by requiring certain applicants that already have a CIK, but do not have EDGAR access codes, to submit the Form ID to obtain access to EDGAR. If these amendments are adopted, for purposes of the Paperwork Reduction Act, the estimated total number of annual Form ID filings for filers with CIKs that need to obtain access codes is

approximately 404 filings.¹ Additionally, we would update the current approved estimate of the annual number of Form ID filings for new filers without CIKs (46,842 filings) by approximately 1,247 filings.²

Thus, for purposes of the Paperwork Reduction Act, the estimated total number of annual Form ID filings would increase from 46,842 filings to 48,493 filings.³ The estimate of 0.15 hours per response would stay the same, as the filers with CIKs would be filling out the same information as filers without CIKs. The estimated total annual burden would increase from 7,026 hours to 7,274 hours.⁴ The estimate that the filers are responsible for 100% of the total burden hours would stay the same.

In relation to the potential amendments described above, the Commission may consider amending the Form ID to delete references to applicants that do not have CIKs. If adopted, this amendment would clarify that a Form ID submission would also be required by applicants that already have CIKs but do not have EDGAR access codes. Separately, the Commission may also consider modifying Form ID to update its instructions and cross-references to Volume I of the EDGAR Filer Manual.⁵

Other than the potential amendments to require certain applicants that already have a CIK, but do not have EDGAR access codes, to submit the Form ID, we do not believe that these additional amendments to the Form ID would make any substantive modifications to any existing collection of information requirements or impose any new substantive recordkeeping or information collection requirements within the meaning of the Paperwork Reduction Act.

An agency may not conduct or sponsor, and a person is not required to

¹ We base this estimate on the average number of filers with CIKs who have obtained access codes to EDGAR for the past three fiscal years. $(524 + 359 + 330) / 3 = 404$.

² We base this estimate on the number of Form ID filings for filers with no CIKs for the past three fiscal years and subtracting it from the current approved estimate. $((49,269 + 48,136 + 46,861) / 3) - 46,842 = 1,247$.

³ $46,842 + 404 + 1,247 = 48,493$.

⁴ $48,493 \times 0.15 = 7,274$.

⁵ See Adoption of Updated EDGAR Filer Manual, Proposed Collection and Comment Request for Form ID, Release No. 33-10902 (Dec. 11, 2020) [86 FR 7968] (Feb. 3, 2021) (allowing applicants to EDGAR the option of obtaining electronic notarizations and remote online notarizations). The Commission also amended 17 CFR 232.10(b) to remove the manual signature requirement for EDGAR access requests to allow electronic signature requests. *Id.* The methods of notarization provide an efficient means of authenticating signatures in connection with requests for EDGAR access.

on an Unlisted Trading Privileges Basis (“UTP Plan” or “Plan”) filed with the Securities and Exchange Commission (“Commission”) a proposal to amend the UTP Plan.⁵ The amendment represents the Fiftieth Amendment to the Plan (“Amendment”). Under the Amendment, the Participants propose revisions to the provisions of the Plan governing regulatory and operational halts.⁶

The proposed Amendment has been filed by the Participants pursuant to Rule 608(b)(2) under Regulation NMS.⁷ The Commission is publishing this notice to solicit comments from interested persons on the proposed Amendment. Set forth in Sections I and II is the statement of the purpose and summary of the Amendment, along with the information required by Rules 608(a) and 601(a) under the Act, prepared and submitted by the Participants to the Commission.

I. Rule 608(a)

A. Purpose of the Amendment

The purpose of the Amendment is to incorporate into the UTP Plan the same processes for Regulatory Halts that are proposed by the equity exchanges. Consistent with the proposals from the equity exchanges, the Primary Listing Market may declare a Regulatory Halt⁸ in trading for any security for which it is the Primary Listing Market.⁹ The Participants believe that it is appropriate for the Primary Listing Market to declare a Regulatory Halt in order to vest the authority to declare a Regulatory Halt in a single entity, and

⁵ The Amendment was posted to the Plan website on February 12, 2021. See Email from James P. Dombach, Counsel to the Plan, to Michael E. Coe, Assistant Director, Commission, et al. (Feb. 12, 2021).

⁶ The Participants previously, on December 5, 2016, filed an amendment to the provisions of the Plan governing regulatory and operation halts. This amendment was not acted upon by the Commission and was withdrawn by the Participants. See Letter from Robert Books, UTP Chair, to Vanessa Countryman, Secretary, Commission (Nov. 17, 2020).

⁷ 17 CFR 242.608(b)(2).

⁸ Regulatory Halt is defined in Section X.A.10 as “a halt declared by the Primary Listing Market in trading in one or more securities on all Trading Centers for regulatory purposes, including for the dissemination of material news, news pending, suspensions, or where otherwise necessary to maintain a fair and orderly market. A Regulatory Halt includes a trading pause triggered by Limit Up Limit Down, a halt based on Extraordinary Market Activity, a trading halt triggered by a Market-Wide Circuit Breaker, and a SIP Halt.”

⁹ The “Primary Listing Market” is defined in Section X.A.8 as “the national securities exchange on which an Eligible Security is listed. If an Eligible Security is listed on more than one national securities exchange, Primary Listing Market means the exchange on which the security has been listed the longest.”

with respect to any given security, the Primary Listing Market is best positioned to determine when to initiate and end a Regulatory Halt.

The Primary Listing Market may declare a Regulatory Halt as provided for in the rules of the Primary Listing Market, if it determines that there is a SIP Outage,¹⁰ Material SIP Latency,¹¹ Extraordinary Market Activity,¹² or in the event of national, regional, or localized disruption that necessitates a Regulatory Halt to maintain a fair and orderly market.¹³ In making such determination, the Primary Listing Market will consider the totality of information available concerning the

¹⁰ SIP Outage is defined in Section X.A.13 as “a situation in which the Processor has ceased, or anticipates being unable, to provide updated and/or accurate quotation or last sale price information in one or more securities for a material period that exceeds the time thresholds for an orderly failover to backup facilities established by mutual agreement among the Processor, the Primary Listing Market for the affected securities, and the Operating Committee unless the Primary Listing Market, in consultation with the Processor and the Operating Committee, determines that resumption of accurate data is expected in the near future.”

¹¹ Material SIP Latency is defined in Section X.A.5 as “a delay of quotation or last sale price information in one or more securities between the time data is received by the Processor and the time the Processor disseminates the data over the high speed line or over the “high speed line” under the CQ Plan, which delay the Primary Listing Market determines, in consultation with, and in accordance with, publicly disclosed guidelines established by the Operating Committee, to be (a) material and (b) unlikely to be resolved in the near future.”

¹² Extraordinary Market Activity is defined in Section X.A.1 as “a disruption or malfunction of any electronic quotation, communication, reporting, or execution system operated by, or linked to, the Processor or a Trading Center or a member of such Trading Center that has a severe and continuing negative impact, on a market-wide basis, on quoting, order, or trading activity or on the availability of market information necessary to maintain a fair and orderly market. For purposes of this definition, a severe and continuing negative impact on quoting, order, or trading activity includes (i) a series of quotes, orders, or transactions at prices substantially unrelated to the current market for the security or securities; (ii) duplicative or erroneous quoting, order, trade reporting, or other related message traffic between one or more Trading Centers or their members; or (iii) the unavailability of quoting, order, transaction information, or regulatory messages for a sustained period.” In the originally proposed amendment in 2016, Extraordinary Market Activity was defined to include disruptions or malfunctions on a market. After discussions with SEC Staff, the Participants revised this provision to solely limit the definition to disruptions or malfunctions that occur on a market-wide basis.

¹³ See Section X.C. In the originally proposed amendment in 2016, the Primary Listing Market could have declared a Regulatory Halt “when otherwise necessary to maintain a fair and orderly market or in the public interest.” After discussions with SEC Staff, the Participants revised this provision as part of the current Amendment in order to provide greater detail as to when a Regulatory Halt may be declared. The definitions of SIP Outage, Material SIP Latency, and Extraordinary Market Activity appear in Section X.A.

severity of the disruption, its likely duration, and potential impact on Member Firms and other market participants, and will make a good-faith determination that the criteria to declare a Regulatory Halt have been satisfied and that a Regulatory Halt is appropriate. The Primary Listing Market will consult, if feasible before declaring a Regulatory Halt, with the affected Trading Center(s), other Participants, or the Processor, as applicable, regarding the scope of the issue and what steps are being taken to address the issue.

Should the Primary Listing Market declare a Regulatory Halt, the Primary Listing Market will determine the SIP Halt Resume Time.¹⁴ The Primary Listing Market will declare a resumption of trading when it makes a good-faith determination and considers the totality of information to determine that trading may resume in a fair and orderly manner in accordance with its rules. The Primary Listing Market retains discretion to delay the SIP Halt Resume Time if it believes trading will not resume in a fair and orderly manner. The Primary Listing Market has the responsibility to notify all other Participants of the initiation of the halt as well as the lifting of the halt. The notification process will be mutually agreed to by the Operating Committee and the Primary Listing Market.¹⁵

During Regular Trading Hours, if the Primary Listing Market does not open a security within the amount of time as specified by the rules of the Primary Listing Market after the SIP Halt Resume Time, a Participant may resume trading in that security. Outside of Regular Trading Hours, a Participant may resume trading immediately after the SIP Halt Resume Time.

The amendment provides that the Processor shall disseminate to the Participants notice of the Regulatory Halt as well as notice of the lifting of a Regulatory Halt through any means the Processor considers appropriate.¹⁶

C. Implementation of Amendment
