ensure that the official number of the vessel is affixed to every longline buoy and float. In the coral reef ecosystem fisheries, the vessel number must be affixed to all fish and crab traps. The marking of gear links fishing or other activity to the vessel, aids law enforcement, and is valuable in actions concerning the damage to or loss of gear, and civil proceedings.

Affected Public: Mainly small for-profit businesses and individuals.

Frequency: As required.

Respondent's Obligation: Mandatory.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act.

Marine Mammals; File No. 23188

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application for permit amendment.

SUMMARY: Notice is hereby given that the Institute of Marine Sciences, University of California at Santa Cruz, 130 McAllister Way, Santa Cruz, CA 95060 (Responsible Party: Daniel Costa, Ph.D.), has applied for an amendment to scientific research permit No. 23188.

DATES: Written, telefaxed, or email comments must be received on or before March 1, 2021.

APPLICATION:

Permit No. 23188, issued on September 25, 2020 (85 FR 63524), authorizes the permit holder to conduct scientific research on northern elephant seals (Mirounga angustirostris) in California. The permit continues a long-term research program started in 1968 to study northern elephant seal population growth and status, reproductive strategies, behavioral and physiological adaptations for diving and fasting, general physiology and metabolism, and sensory physiology. The permit holder is requesting the permit be amended to include a new research location and increase the number of takes of juvenile elephant seals by 50 animals annually for the currently authorized activities. The increased takes will be for a comparative study of weaning weights across colonies, including the Lost Coast colony in the King Range National Conservation Area.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement. Concurrent with the publication of this notice in the Federal Register, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Amy Sloan,
Acting Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to Site Characterization Surveys off the Coast of Massachusetts

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; proposed incidental harassment authorization; request for public comments.

SUMMARY: NMFS has received a request from Mayflower Wind Energy LLC (Mayflower) for authorization to take marine mammals incidental to site characterization surveys off the coast of Massachusetts in the area of the Commercial Lease of Submerged Lands for Renewable Energy Development on the Outer Continental Shelf (OCS–A 0521) and along a potential submarine cable route to landfall at Falmouth, Massachusetts. Pursuant to the Marine Mammal Protection Act (MMPA), NMFS is requesting comments on its proposal to issue an incidental harassment authorization (IHA) to incidentally take marine mammals during the specified activities. NMFS is also requesting comments on a possible one-year renewal that could be issued under certain circumstances and if all requirements are met, as described in Request for Public Comments at the end of this notice. NMFS will consider public comments prior to making any final decision on the issuance of the requested MMPA authorizations and agency responses will be summarized in the final notice of our decision.

DATES: Comments must be received by March 31, 2021.

ADDRESSES: Comments should be addressed to Jolie Harrison, Chief, Permits and Conservation Division, Office of Protected Resources, National
