

the United States at the time of order. Reasons: According to the applicant, the instrument will be used to fabricate on site new material and to study its electronic properties with several experimental techniques. Angle resolved photoemission (ARPES) will be the main technique, as it conveys directly most information needed on the electronic structure of the material, e.g., whether it is conducting/insulating/superconducting anisotropic, close to an electronic instability, likely to undergo an electronic transition, etc. According to the applicant, this is of great importance for fundamental physics, but in a longer-term perspective, also in order to identify the potential of materials for applications, in particular in energy production, conversion and storage. The ARPES set up, as well as, the molecular beam epitaxy station for materials fabrication, will be used as a facility for internal and external users, which will have to submit proposals and apply for time to perform their experiments.

**Docket Number:** 20–011. Applicant: Cornell University, Department and Materials and Science Engineering, Carpenter Hall, 313 Campus Road, Ithaca, NY 14853. Instrument: Multi-gas lamp for angle-resolved photoemission. Manufacturer: Fermi, China. Intended Use: According to the applicant, the instrument will be used to fabricate on site new material and to study its electronic properties with several experimental techniques. Angle resolved photoemission (ARPES) will be the main technique, as it conveys directly most information needed on the electronic structure of the material, e.g., whether it is conducting/insulating/superconducting anisotropic, close to an electronic instability, likely to undergo an electronic transition, etc. According to the applicant, this is of great importance for fundamental physics, but in a longer-term perspective, also in order to identify the potential of materials for applications, in particular, in energy production, conversion and storage. The excitation source is a key element of any photoemission setup. It provides a beam of light which is directed to the sample and causes the emission of the electrons, object of the measurement. For angle-resolved

photoemission, the standard excitation source is a helium (He) gas discharge lamp, which excites He atoms and emits light caused by the de-excitation process. It is widely used in many laboratories and sold by a few companies in the world.

**Docket Number:** 20–012. Applicant: University of Minnesota, Department of Chemical Engineering and Materials Science, 421 Washington Avenue SE, Minneapolis MN 55455. Instrument: Spark Plasma Sintering Systems. Manufacturer: SUGA Co., Ltd., Japan. Intended Use: According to the applicant, the instrument will be used to study a variety of structural ceramic and metal materials including refractory alloys (e.g., containing combinations of Nb, Ta, W, Mo, Zr, Hf, etc.), (oxide ceramics such as Gd<sub>2</sub>Zr<sub>2</sub>O<sub>7</sub>), (Y<sub>5</sub>Al<sub>3</sub>O<sub>12</sub>), and Y<sub>2</sub>Si<sub>2</sub>O<sub>7</sub>, and non-oxide ceramics such as SiC and Si<sub>3</sub>N<sub>4</sub>. The instrument will also be used to study the sintering or consolidation behavior of these materials and will be used to prepare dense specimens to be analyzed using other instruments. The research focuses on the development or materials with improved performance in extreme environments. The instrument will be used to generate dense specimens of the materials described above, which will subsequently be tested using other methods to determine their performance in oxidizing or corrosive environments. A key aspect of the investigations involved rapid consolidation in order to achieve high density while limiting grain growth associated with longer exposures to high temperature used in other sintering techniques.

**DEPARTMENT OF COMMERCE**  
**International Trade Administration**  
**Initiation of Five-Year (Sunset) Reviews**

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** In accordance with the Tariff Act of 1930, as amended (the Act), the Department of Commerce (Commerce) is automatically initiating the five-year reviews (Sunset Reviews) of the antidumping and countervailing duty (AD/CVD) order(s) and suspended investigation(s) listed below. The International Trade Commission (the ITC) is publishing concurrently with this notice its notice of *Institution of Five-Year Reviews* which covers the same order(s) and suspended investigation(s).

**DATES:** Applicable March 1, 2021.

**FOR FURTHER INFORMATION CONTACT:** Commerce official identified in the *Initiation of Review* section below at AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230. For information from the ITC, contact Mary Messer, Office of Investigations, U.S. International Trade Commission at (202) 205–3193.

**SUPPLEMENTARY INFORMATION:**

**Background**

Commerce’s procedures for the conduct of Sunset Reviews are set forth in its *Procedures for Conducting Five-Year (Sunset) Reviews of Antidumping and Countervailing Duty Orders*, 63 FR 13516 (March 20, 1998) and 70 FR 62061 (October 28, 2005). Guidance on methodological or analytical issues relevant to Commerce’s conduct of Sunset Reviews is set forth in *Antidumping Proceedings: Calculation of the Weighted-Average Dumping Margin and Assessment Rate in Certain Antidumping Duty Proceedings; Final Modification*, 77 FR 8101 (February 14, 2012).

**Initiation of Review**

In accordance with section 751(c) of the Act and 19 CFR 351.218(c), we are initiating the Sunset Review(s) of the following antidumping and countervailing duty order(s) and suspended investigation(s):

DOC case No.	ITC case No.	Country	Product	Commerce contact
A–475–059 .....	AA1921–167 .....	Italy .....	Pressure Sensitive Plastic Tape (5th Review) .....	Mary Kolberg (202) 482–1785.

**Filing Information**

As a courtesy, we are making information related to sunset

proceedings, including copies of the pertinent statute and Commerce’s regulations, Commerce’s schedule for

Sunset Reviews, a listing of past revocations and continuations, and current service lists, available to the

public on Commerce's website at the following address: <https://enforcement.trade.gov/sunset>. All submissions in these Sunset Reviews must be filed in accordance with Commerce's regulations regarding format, translation, and service of documents. These rules, including electronic filing requirements via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS), can be found at 19 CFR 351.303.

In accordance with section 782(b) of the Act, any party submitting factual information in an AD/CVD proceeding must certify to the accuracy and completeness of that information. Parties must use the certification formats provided in 19 CFR 351.303(g). Commerce intends to reject factual submissions if the submitting party does not comply with applicable revised certification requirements.

#### Letters of Appearance and Administrative Protective Orders

Pursuant to 19 CFR 351.103(d), Commerce will maintain and make available a public service list for these proceedings. Parties wishing to participate in any of these five-year reviews must file letters of appearance as discussed at 19 CFR 351.103(d). To facilitate the timely preparation of the public service list, it is requested that those seeking recognition as interested parties to a proceeding submit an entry of appearance within 10 days of the publication of the Notice of Initiation. Because deadlines in Sunset Reviews can be very short, we urge interested parties who want access to proprietary information under administrative protective order (APO) to file an APO application immediately following publication in the **Federal Register** of this notice of initiation. Commerce's regulations on submission of proprietary information and eligibility to receive access to business proprietary information under APO can be found at 19 CFR 351.304–306. Note that Commerce has temporarily modified certain of its requirements for serving documents containing business proprietary information, until further notice.<sup>1</sup>

#### Information Required From Interested Parties

Domestic interested parties, as defined in section 771(9)(C), (D), (E), (F), and (G) of the Act and 19 CFR

351.102(b), wishing to participate in a Sunset Review must respond not later than 15 days after the date of publication in the **Federal Register** of this notice of initiation by filing a notice of intent to participate. The required contents of the notice of intent to participate are set forth at 19 CFR 351.218(d)(1)(ii). In accordance with Commerce's regulations, if we do not receive a notice of intent to participate from at least one domestic interested party by the 15-day deadline, Commerce will automatically revoke the order without further review.<sup>2</sup>

If we receive an order-specific notice of intent to participate from a domestic interested party, Commerce's regulations provide that *all parties* wishing to participate in a Sunset Review must file complete substantive responses not later than 30 days after the date of publication in the **Federal Register** of this notice of initiation. The required contents of a substantive response, on an order-specific basis, are set forth at 19 CFR 351.218(d)(3). Note that certain information requirements differ for respondent and domestic parties. Also, note that Commerce's information requirements are distinct from the ITC's information requirements. Consult Commerce's regulations for information regarding Commerce's conduct of Sunset Reviews. Consult Commerce's regulations at 19 CFR part 351 for definitions of terms and for other general information concerning antidumping and countervailing duty proceedings at Commerce.

This notice of initiation is being published in accordance with section 751(c) of the Act and 19 CFR 351.218(c).

Dated: February 16, 2021.

**James Maeder,**

*Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.*

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Pacific Islands Region Vessel and Gear Identification Requirements

The Department of Commerce will submit the following information collection request to the Office of

Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on October 28, 2020, (85 FR 68305) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

*Agency:* National Oceanic and Atmospheric Administration (NOAA), Commerce.

*Title:* Pacific Islands Region Vessel and Gear Identification Requirements.

*OMB Control Number:* 0648–0360.

*Form Number(s):* None.

*Type of Request:* Regular.

*Number of Respondents:* 484.

*Average Hours per Response:* 1 Hour, Vessel ID Requirements; 1 Minute, Gear ID Requirements.

*Total Annual Burden Hours:* 1,217.

*Needs and Uses:* Regulations at 50 CFR 665.16, 300.35, and 300.217 require that all U.S. vessels with Federal permits fishing for western Pacific fishery management unit species display identification markings on the vessel. Each Vessel registered for use with a permit issued under Subparts B through E and Subparts G through I of 50 CFR 665, must have the vessel's official number displayed on both sides of the deckhouse or hull, and on an appropriate weather deck. Regulations at 50 CFR 300.35 require that each vessel fishing under the South Pacific Tuna Treaty must display its international radio call sign on the hull, the deck, and on the sides of auxiliary equipment, such as skiffs and helicopters. Vessels fishing for highly migratory species in the Western and Central Pacific Fisheries Commission (WCPFC) Convention Area and in international waters must comply with the regulations at 50 CFR 300.217 requiring the display of the vessel's international radio call sign on both sides of the deckhouse or hull, and on an appropriate weather deck, unless specifically exempted. In each case, the numbers must be a specific size and in specified locations. The display of the identifying numbers aids in fishery law enforcement.

The regulations at 50 CFR 665.128, 665.228, 665.428, 665.628, and 665.804 require that certain fishing gear must be marked. In the pelagic longline fisheries, the vessel operator must

<sup>1</sup> See *Temporary Rule Modifying AD/CVD Service Requirements Due to COVID–19*, 85 FR 41363 (July 10, 2020).

<sup>2</sup> See 19 CFR 351.218(d)(1)(iii).
