BILLING CODE 4312-52-P

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-637 and 731-TA-1471 (Final)]

Large Vertical Shaft Engines From China

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that an industry in the United States is materially injured by reason of imports of large vertical shaft engines from China, provided for in subheadings 8407.90.10, 8407.90.90, and 8409.91.99 of the Harmonized Tariff Schedule of the United States, that have been found by the U.S. Department of Commerce ("Commerce") to be sold in the United States at less than fair value ("LTFV"), and to be subsidized by the government of China.²

Background

The Commission instituted these investigations effective January 15, 2020, following receipt of petitions filed with the Commission and Commerce by the Coalition of American Vertical Engine Producers (Kohler Co., Kohler, Wisconsin and Briggs & Stratton Corporation, Wauwatosa, Wisconsin). The final phase of the investigations was scheduled by the Commission following notification of preliminary determinations by Commerce that

imports of large vertical shaft engines from China were subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)) and sold at LTFV within the meaning of 733(b) of the Act (19 U.S.C. 1673b(b)). Notice of the scheduling of the final phase of the Commission's investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on September 18, 2020 (85 FR 58384). In light of the restrictions on access to the Commission building due to the COVID-19 pandemic, the Commission conducted its hearing through written testimony and video conference on January 5, 2021. All persons who requested the opportunity were permitted to participate.

The Commission made these determinations pursuant to §§ 705(b) and 735(b) of the Act (19 U.S.C. 1671d(b) and 19 U.S.C. 1673d(b)). It completed and filed its determinations in these investigations on February 24, 2021. The views of the Commission are contained in USITC Publication 5162 (February 2021), entitled *Large Vertical Shaft Engines from China: Investigation Nos. 701-TA-637 and 731-TA-1471 (Final)*.

By order of the Commission.

Issued: February 24, 2021.

Lisa Barton,

Secretary to the Commission.

[Investigation No. 337-TA-1252]

Certain Robotic Floor Cleaning Devices and Components Thereof Institution of Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that a complaint was filed with the U.S. International Trade Commission on January 28, 2021, under section 337 of the Tariff Act of 1930, as amended, on behalf of iRobot Corporation of Bedford, Massachusetts. The complaint alleges violations of section 337 based upon the importation into the United States, the sale for importation, and the sale within the United States after importation of certain robotic floor cleaning devices and components thereof by reason of

infringement of certain claims of U.S. Patent No. 9,884,423 ("the '423 patent"); U.S. Patent No. 10,813,517 ("the '517 patent"); U.S. Patent No. 10,835,096 ("the '096 patent"); U.S. Patent No. 7,571,511 ("the '511 patent"); and U.S. Patent No. 10,296,007 ("the '007 patent"). The complaint further alleges that an industry in the United States exists as required by the applicable Federal Statute.

The complainant requests that the Commission institute an investigation and, after the investigation, issue a limited exclusion order and cease and desist orders.

ADDRESSES: The complaint, except for any confidential information contained therein, may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>. FOR FURTHER INFORMATION CONTACT:

Katherine Hiner, Office of Docket Services, U.S. International Trade Commission, telephone (202) 205-1802.

SUPPLEMENTARY INFORMATION:

Authority: The authority for institution of this investigation is contained in section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, and in section 210.10 of the Commission's Rules of Practice and Procedure, 19 CFR 210.10 (2020).

Scope of Investigation: Having considered the complaint, the U.S. International Trade Commission, on February 25, 2021, *Ordered that*—

(1) Pursuant to subsection (b) of section 337 of the Tariff Act of 1930, as amended, an investigation be instituted to determine whether there is a violation of subsection (a)(1)(B) of section 337 in the importation into the United States, the sale for importation, or the sale within the United States after importation of certain products identified in paragraph (2) by reason of infringement of one or more of claims 1-4, 6-9, 12-15, 18, 20-23, 25, and 26 of the '423 patent; claims 1, 3, 4, 9, and 10 of the '517 patent; claims 1, 3-6, 8-10, 12-14, 16-19, 21-23, 25 and 26 of the '096 patent; claims 1, 8-12, 14, 16, 18, 19, 22-25, 32-34, 36, 37, 55, 56, and 62 of the '511 patent; and claims 1, 5,

¹ The record is defined in § 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

² The Commission also finds that imports subject to Commerce's affirmative critical circumstances determination are not likely to undermine seriously the remedial effect of the antidumping duty order on large vertical shaft engines from China.
