Health Resources and Services

“Low Income Levels” Used for Various
Health Professions and Nursing
Programs Authorized in Titles III, VII, and
VIII of the Public Health Service Act

AGENCY: Health Resources and Services
Administration (HRSA), Department of
Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: HRSA is updating income
levels used to identify a “low income
family” for the purpose of determining
eligibility for programs that provide
health professions and nursing training
to individuals from disadvantaged
backgrounds. These various programs
are authorized in Titles III, VII, and VIII
of the Public Health Service Act.

SUPPLEMENTARY INFORMATION: HHS
dependently publishes in the Federal
Register low-income levels to be used
by institutions receiving grants and
cooperative agreements to determine
eligibility for programs providing
training for (1) disadvantaged
individuals, (2) individuals from
disadvantaged backgrounds, or (3)
individuals from low-income families.

Many health professions and nursing
grant and cooperative agreement
awardees use the low-income levels to
determine whether potential program
participants are from an economically
disadvantaged background and would
be eligible to participate in the program,
as well as to determine the amount of
funding the individual receives. Awards
are generally made to accredited schools
of medicine, osteopathic medicine,
public health, dentistry, veterinary
medicine, optometry, pharmacy, allied
health, podiatric medicine, nursing, and
chiropractic; public or private nonprofit
schools which offer graduate programs
in behavioral health and mental health
practice; and other public or private
nonprofit health or educational entities
to assist individuals from disadvantaged
backgrounds to enter and graduate from
health professions and nursing schools.

Some programs provide for
the repayment of health professions or
nursing education loans for students
from disadvantaged backgrounds.

A “low-income family/household” for
programs included in Titles III, VII,
and VIII of the Public Health Service Act is
defined as having an annual income that
does not exceed 200 percent of the
Department’s poverty guidelines. A
family is a group of two or more
individuals related by birth, marriage,
or adoption who live together.

Most HRSA programs use the income
of a student’s parent(s) to compute low
income status. However, a “household”
may potentially be only one person.

Other HRSA programs, depending upon
the legislative intent of the program,
the programmatic purpose related to income
level, as well as the age and
circumstances of the participant, will
apply these low income standards to the
individual student to determine
eligibility, as long as he or she is not
listed as a dependent on the tax form of
his or her parent(s). Each program
announces the rationale and choice of
methodology for determining low
income levels in program funding
opportunities or applications.

Low-income levels are adjusted
annually based on HHS’s poverty
guidelines. HHS’s poverty guidelines
are based on poverty thresholds
published by the U.S. Census Bureau,
adjusted annually for changes in the
Consumer Price Index. The income
figures below have been updated to
reflect the Department’s 2021 poverty
guidelines as published in 86 FR 19
(February 1, 2021).

Separate poverty guidelines figures
for Alaska and Hawaii reflect Office of
Economic Opportunity administrative
practice beginning in the 1966–1970
period since the U.S. Census Bureau
poverty thresholds do not have separate
figures for Alaska and Hawaii. The
poverty guidelines are not defined for
Puerto Rico or other outlying
jurisdictions. Puerto Rico and other
outlying jurisdictions shall use income
guidelines for the 48 Contiguous States and the District of Columbia.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Privacy Act of 1974; System of Records

AGENCY: Department of Health and Human Services.

ACTION: Notice of a modified system of records.

SUMMARY: In accordance with the Privacy Act of 1974, as amended, the Department of Health and Human Services (HHS) is modifying a department-wide system of records titled HHS Correspondence, Customer Service, and Contact List Records, system no. 09–90–1901, to make certain updates and to more clearly include records about individuals who provide comments and supporting documents to HHS in response to HHS rulemakings and other docketed proceedings. The modifications include changing the name of the system of records to HHS Correspondence, Comment, Customer Service, and Contact List Records.

DATES: In accordance with 5 U.S.C. 552a(e)(4) and (11), this notice is applicable March 4, 2021, subject to a 30-day period in which to comment on the new and revised routine uses, as described below. Please submit any comments by April 5, 2021.

ADDRESSES: The public should submit written comments on this notice, by mail or email, to Beth Kramer, HHS Privacy Act Officer, 200 Independence Ave. SW, Suite 729H, Washington, DC 20201, or beth.kramer@hhs.gov. Comments will be available for public viewing at the same location. To review comments in person, please contact Beth Kramer at beth.kramer@hhs.gov or 202–690–6941.

FOR FURTHER INFORMATION CONTACT: General questions may be submitted to Beth Kramer, HHS Privacy Act Officer, at 200 Independence Ave. SW, Suite 729H, Washington, DC 20201, or beth.kramer@hhs.gov, or 202–690–6941.

SUPPLEMENTARY INFORMATION:

I. Background on System of Records Notice (SORN) 09–90–1901

This department-wide system of records covers records about individuals within or outside HHS which are used in managing HHS correspondence, public comments in docketed proceedings, and customer service functions, including help desk and call center activities, dissemination of publications, studies, opinions, unrestricted datasets, and other information, and mailing and contact lists. SORN 09–90–1901 applies to such records if they are retrieved by personal identifier and are not covered by a more specific SORN.

Examples of the records covered in SORN 09–90–1901 include:

- Telephonic and email directories containing office contact records about HHS employees, contractor personnel, and other personnel working at HHS, which are retrieved by the individuals’ names and used to locate them, route mail to them, and communicate with them regarding work matters.
- Official correspondence records about individuals who contact, or are contacted by, the Secretary or Deputy Secretary of HHS or another HHS official, or are the subject of the correspondence, which are retrieved by the correspondent’s or subject’s name and used to control, track, and ensure timely and appropriate attention to and documentation of the correspondence. Particular subsets of these records include, for example:
  - Records about individuals who submit comments and supporting documents in response to HHS rulemakings and other docketed proceedings and public notices, which are retrieved by commenter name;
  - Correspondence notifying members of Congress and other contracts that HHS has awarded to individual recipients in their districts, which are retrieved by awardee name; and
  - Records of requests about individual constituents received from members of Congress, which are retrieved by constituent name and used to track and respond to the requests.
- Mailing and contact list records used to track and respond to requests from, or otherwise interact with, individual members of the public, when the records are retrieved by personal identifier. Examples include:
  - Email lists and other contact lists about individuals who ask to receive health information from HHS in print form, or to be notified of new and upcoming publications or web postings, or to subscribe to an online newsletter issued by HHS.
  - Customer engagement workflow platform records containing account records (i.e., contact information) and case records (e.g., request processing records) about frequent customers of particular HHS offices, such as sole proprietor members of the media who are frequent customers of HHS public affairs offices.
- Contact records about individuals who volunteer to serve as resource persons to provide pro bono technical assistance to community organizations and government agencies working on particular health-related matters or campaigns

Examples of more specific SORNs, which will continue to apply to particular types of correspondence records, contact list records, and customer service records, include:

- Correspondence about complaints filed with the HHS Office of Civil Rights: SORN 09–90–0052, Program Information Management System (PIMS).
- Freedom of Information Act and Privacy Act Correspondence: SORN 09–90–0058, Tracking Records and Case Files for FOIA and Privacy Act Requests and Appeals.
- List(s) of individuals ordering provider educational materials or registering for computer/Web-based training courses, satellite broadcasts and train-the-trainer sessions: SORN 09–70–0542, Medicare Learning Network (MLN).

II. Modifications to SORN 09–90–1901

HHS is modifying the SORN to update it and to ensure that it clearly and adequately covers records about individuals who submit comments and supporting documents to HHS in response to HHS rulemakings and other docketed proceedings. HHS is also expressly including customer engagement platform records. The modifications include:

- Including the word “Comment” in the name of the system of records.
- Referring to “comments” or “commenters” in the Categories of Individuals, Categories of Records, Purpose(s), and Retrieval sections, and referring to “customer engagement” records in the System Manager(s) and Categories of Records sections.
- Including the General Services Administration (GSA) in the System Location section as the shared services provider that operates systems HHS uses to manage certain docket records.
