DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP20-504-000]

Northern Natural Gas Company; Notice of Availability of the Environmental Assessment for the Proposed Lake City 1st Branch Line Abandonment and Capacity Replacement Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Lake City 1st Branch Line Abandonment and Capacity Replacement Project proposed by Northern Natural Gas Company (Northern) in the above-referenced docket. Northern requests authorization to abandon, construct, modify, and operate natural gas pipeline facilities in Webster and Calhoun Counties, Iowa.

The EA assesses the potential environmental effects of the construction and operation of the Lake City 1st Branch Line Abandonment and Capacity Replacement Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.
