SUPPLEMENTARY INFORMATION:

I. Notice of Final Decision

OSHA hereby gives notice that it is granting renewal of recognition to NSF International (NSF) as a NRTL under 29 CFR 1910.7.

OSHA recognition of a NRTL signifies that the organization meets the requirements in Section 1910.7 of Title 29, Code of Federal Regulations (29 CFR 1910.7). Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products properly approved by the NRTL to meet OSHA standards that require testing and certification. OSHA maintains an informational web page for each NRTL that details the scope of recognition available at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

OSHA processes applications submitted by an NRTL for renewal of recognition following requirements in Appendix A to 29 CFR 1910.7. OSHA conducts renewals in accordance with the procedures in 29 CFR 1910.7, App. A I.C. In accordance with these procedures, NRTLs submit a renewal request to OSHA between nine months and one year before the expiration date of the current recognition. A renewal request includes a request for renewal and any additional information demonstrating their continued compliance with the terms of the recognition and 29 CFR 1910.7. If OSHA has not conducted an on-site assessment of the NRTL headquarters and any key sites within the past 18 to 24 months, it will schedule the necessary on-site assessment prior to the expiration date of the NRTL's recognition. Upon review of the submitted material and, as necessary, the successful completion of the on-site assessment, OSHA announces the preliminary decision to grant or deny renewal in the **Federal Register** and solicits comments from the public. OSHA then publishes a final **Federal Register** notice responding to any comments and renewing the NRTL's

recognition for a period of five years, or denying the renewal of recognition.

NSF initially received OSHA recognition as a NRTL on December 10, 1998 (63 FR 68309). NSF's most recent renewal was on July 14, 2014, for a five-year period expiring on July 14, 2019. NSF submitted a timely request for renewal, dated October 11, 2018 (OSHA-2006-0048-0013), and retains their recognition pending OSHA's final decision in this renewal process. The current address of the NSF facility recognized by OSHA and included as part of the renewal request is: NSF International, 789 Dixboro Road, Ann Arbor, Michigan 48105.

OSHA published the preliminary notice announcing NSF's renewal application in the **Federal Register** on July 14, 2020 (85 FR 42435). The agency requested comments by July 29, 2020, and received no comments in response to this notice. OSHA is now proceeding with this final notice to renew NSF's NRTL recognition.

To obtain or review copies of all public documents pertaining to the NSF's application, go to www.regulations.gov or contact the Docket Office, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue NW, Room N-3655, Washington, DC 20210; telephone (202) 693-2350. Docket No. OSHA-2006-0048 contains all materials in the record concerning NSF's NRTL recognition. **Please note:** Due to the COVID-19 pandemic, the Docket Office is closed to the public at this time but can be contacted at (202) 693-2350.

II. Final Decision and Order

OSHA hereby gives notice of the renewal of recognition of NSF as a NRTL. OSHA examined NSF renewal application and all pertinent information related to NSF's request for renewal of NRTL recognition. Based on this review of the renewal request and other pertinent information, OSHA finds that NSF meets the requirements of 29 CFR 1910.7 for renewal of recognition as a NRTL, subject to the specified limitation and conditions. The NRTL scope of recognition for NSF is also available on the OSHA website at: <https://www.osha.gov/dts/otpca/nrtl/nsf.html>. This renewal extends NSF's recognition as a NRTL for a period of five years from March 5, 2021.
