The purpose of this Notice is to announce that the Consolidated Appropriations Act, 2021 (the FY 2021 Appropriations Act), provides an additional $35 million in funding for COVID–19 relief and allows for a reduced cost-share match of 10 percent of the grant amount (i.e., at least $1 from the applicant for every $10 in Agency grant funds) for these funds during the public health emergency.

The other available funds have a statutory cost share match requirement of 100 percent of the grant amount. Please see section III., “Program Requirements and Changes,” for additional information.

If your application for COVID–19 relief funds is not selected for funding through the competitive process, you will have the opportunity to compete for the additional $41 million in funds if your application scores 50 points or above. You will be contacted by the Agency and will be required to submit a revised budget and work plan that includes the standard cost-share match of at least $1 for every $1 in grant funds. DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[B–14–2021]

Foreign-Trade Zone (FTZ) 24—Pittston, Pennsylvania; Notification of Proposed Production Activity; Merck & Co., Inc. (Pharmaceutical Products); Riverside, Pennsylvania

Merck & Co., Inc. (Merck), submitted a notification of proposed production activity to the FTZ Board for its facility in Riverside, Pennsylvania. The notification conforms to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on February 24, 2021.

Merck already has authority to produce pharmaceutical products within Subzone 24B. The current request would add finished products and foreign status materials to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status materials and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Merck from customs duty payments on the foreign-status materials used in export production. On its domestic sales, for the foreign-status materials/components noted below and in the existing scope of authority, Merck would be able to choose the duty rates during customs entry procedures that apply to PRIMAXIN intermediate (imipenem and cilastatin bulk) and INVANZ intermediate (ertapenem sodium) (duty-free). Merck would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The materials sourced from abroad include: imipenem input; cilastatin input; ertapenem sodium input; BIS (2, 4, 8, 10, 15, 16, and 40); and PRIMAXIN (192, 256, 512, and 1024).

The materials to be produced include: BIS (500 and 1000), BIS combination products (12, 24, and 40 mg), primaxin combination products (525 mg), cifamoxime (single and combination products) (250, 500, 750, and 1000 mg), and the noise dosage forms of each.

On or about March 22, 2021, the FTZ Board Executive Secretary docketed an application submitted by the FTZ staff examiner for notification of proposed production activity under FTZ procedures for the facilities of Merck & Co., Inc. (Merck) in Riverside, Pennsylvania.

Each application regulates the status of those materials for a specific period.

The application received is subject to the authority delegated to the FTZ Board Executive Secretary (15 CFR 400.36(f)), and is subject to the FTZ Act and the Board’s regulations, including Section 400.13, and further subject to FTZ 24’s 648-acre activation limit.
