the airport from six and a half miles to four miles. The 6.5-mile radius is no longer needed to contain IFR aircraft performing a circling maneuver near the airport. It also proposes to add an airspace area southeast of the airport to contain IFR aircraft performing a procedure turn maneuver for the VOR RWY 32 approach. Additionally, an airspace area north of the airport should be added to properly contain IFR departures to 1,200 feet above the surface.

This action also proposes to update the airport’s geographical coordinates to match the FAA database. The coordinates should read lat. 35°44′44″ N, long. 119°14′11″ W.

Paragraph 6005 Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11E, dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial, and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

II. Statutory and Executive Order Reviews

Executive Orders 12866 and 13132, and the Unfunded Mandates Reform Act of 1995: The Review Commission is an independent regulatory agency and, as such, is not subject to the requirements of E.O. 12866, E.O. 13132, or the Unfunded Mandates Reform Act, 2 U.S.C. 1501 et seq.

Regulatory Flexibility Act: Pursuant to 5 U.S.C. 605(a), a regulatory flexibility analysis is not required because these proposed rules concern “interpretative rules, general statements of policy, or rules of agency organization, procedure, or practice” under 5 U.S.C. 553(b).

Paperwork Reduction Act of 1995: The Review Commission has determined that the Paperwork Reduction Act, 44 U.S.C. 3501 et seq., does not apply because these proposed rules do not contain any information collection requirements that require the approval of the Office of Management and Budget (OMB).

Congressional Review Act: These proposed revisions do not constitute a “rule,” as defined by the Congressional Review Act, 5 U.S.C. 804(3)(C), because they involve changes to agency organization, procedure, or practice that do not substantially affect the rights or obligations of non-agency parties.
