

must establish the test bed described in the Fourth Report and Order, which will validate technologies intended for indoor location. The test bed is necessary for the compliance certification framework adopted in the Fourth Report and Order.

Section 9.10(i)(3)(ii) requires that beginning 18 months from the effective date of the rules, CMRS providers providing service in any of the six Test Cities identified by ATIS (Atlanta, Denver/Front Range, San Francisco, Philadelphia, Chicago, and Manhattan Borough of New York City) or portions thereof must collect and report aggregate data on the location technologies used for live 911 calls. Nationwide CMRS providers must submit call data on a quarterly basis; non-nationwide CMRS providers need only submit this data every six months. Non-nationwide providers that do not provide service in any of the Test Cities may satisfy this requirement by collecting and reporting data based on the largest county within the carrier's footprint. This reporting requirement is necessary to validate and verify the compliance certifications made by CMRS providers.

The Commission developed a reporting template to assist CMRS providers in collecting, formatting, and submitting aggregate live 911 call data in accordance with the requirements in the rules. The template will also assist the Commission in evaluating the progress CMRS providers have made toward meeting the 911 location accuracy benchmarks. The template is an Excel spreadsheet and will be available for downloading on the Commission's website. The Commission may also develop an online filing mechanism for these reports in the future.

Section 9.10(i)(3)(iii) requires CMRS providers to retain testing and live call data gathered pursuant to this section for a period of 2 years.

Section 9.10(i)(4)(i) provides that no later than 18 months from the effective date of the adoption of the rule, nationwide CMRS providers shall report to the Commission their initial plans for meeting the indoor location accuracy requirements of paragraph (i)(2) of Section 9.10. Non-nationwide CMRS providers will have an additional 6 months to submit their implementation plan.

Section 9.10(i)(4)(ii) requires that no later than 18 months from the effective date, each CMRS provider shall submit to the Commission a report on its progress toward implementing improved indoor location accuracy. Non-nationwide CMRS providers will have an additional 6 months to submit

their progress reports. All CMRS providers shall provide an additional progress report no later than 36 months from the effective date of the adoption of this rule. The 36-month reports shall indicate what progress the provider has made consistent with its implementation plan.

Section 9.10(i)(4)(iii) requires that prior to activation of the NEAD but no later than 18 months from the effective date of the adoption of this rule, the nationwide CMRS providers shall file with the Commission and request approval for a security and privacy plan for the administration and operation of the NEAD.

Section 9.10(i)(4)(iv) requires CMRS providers to certify "that neither they nor any third party they rely on to obtain dispatchable location information will use dispatchable location information or associated data for any non-911 purpose, except with prior express consent or as otherwise required by law." In addition, "[t]he certification must state that CMRS providers and any third party they rely on to obtain dispatchable location information will implement measures sufficient to safeguard the privacy and security of dispatchable location information." As noted above, the Commission is revising this requirement to account for the fact that the NEAD has been discontinued.

Section 9.10(i)(4)(v) requires that prior to use of z-axis information to meet the Commission's location accuracy requirements, CMRS providers must certify "that neither they nor any third party they rely on to obtain z-axis information will use z-axis information or associated data for any non-911 purpose, except with prior express consent or as otherwise required by law." Further, "[t]he certification must state that CMRS providers and any third party they rely on to obtain z-axis information will implement measures sufficient to safeguard the privacy and security of z-axis location information." This requirement is necessary to ensure the privacy and security of any personally identifiable information that may be collected by the CMRS provider. As noted above, the Commission is revising this requirement to account for the fact that the NEAD has been discontinued.

Section 9.10(j) requires CMRS providers to provide standardized confidence and uncertainty (C/U) data for all wireless 911 calls, whether from outdoor or indoor locations, on a per-call basis upon the request of a PSAP. This requirement makes the use of C/U data easier for PSAPs.

Section 9.10(j)(4) also requires that upon meeting the timeframes pursuant to paragraphs (i)(2)(ii)(C) and (D) of this section, CMRS providers shall provide with wireless 911 calls that have dispatchable location or z-axis (vertical) information the C/U data required under paragraph (j)(1) of this section. Where available to the CMRS provider, floor level information must be provided with associated C/U data in addition to z-axis location information.

Section 9.10(k) requires CMRS providers to record information on all live 911 calls, including but not limited to the positioning source method used to provide a location fix associated with the call, as well as confidence and uncertainty data. This information must be made available to PSAPs upon request, as a measure to promote transparency and accountability for this set of rules.

The Commission has received OMB approval for most of the information collections required by these orders.

Through several orders, the Commission has recently changed or modified reporting obligations for high-cost support.

In September 2019, the Commission adopted the *Puerto Rico/U.S. Virgin Islands Stage 2 Order*, which allocated nearly a billion additional dollars to United States territories that had suffered extensive infrastructure damage due to Hurricanes Irma and Maria. *The*

Uniendo a Puerto Rico Fund and the Connect USVI Fund, et al., WC Docket No. 18–143, et al., Report and Order and Order on Reconsideration, 34 FCC Rcd 9109 (2019) (*Puerto Rico and USVI Stage 2 Order*). The Commission adopted similar accountability measures for recipients of this support as required of other high-cost support recipients to ensure that providers receive support “only for the provision, maintenance, and upgrading of facilities and services for which the support is intended.” *Puerto Rico and USVI Stage 2 Order*, 34 FCC Rcd at 9149, para. 72.

In the *2019 Supply Chain Order*, the Commission adopted a rule prohibiting the use of USF support to purchase or obtain any equipment or services produced or provided by a covered company posing a national security threat to the integrity of communications networks or the communications supply chain. *Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs*, WC Docket No. 18–89, Report and Order, Further Notice of Proposed Rulemaking, and Order, 34 FCC Rcd 11423, 11433, para. 26. See also 47 CFR 54.9. In June 2020, the Public Safety and Homeland Security Bureau issued final designations of Huawei Technologies Company (Huawei) and ZTE Corp. (ZTE) as covered companies for the purposes of this rule. *Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs—Huawei Designation*, WC Docket No. 19–351, Order, 35 FCC Rcd 6604 (PSHSB June 30, 2020) (*Huawei Designation Order*); *Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs—ZTE Designation*, WC Docket No. 19–352, Order, 35 FCC Rcd 6633 (PSHSB June 30, 2020) (*ZTE Designation Order*). Accordingly, USF recipients may not use USF funds to purchase, obtain, maintain, improve, modify, manage, or otherwise support Huawei or ZTE equipment or services in any way, including upgrades to existing Huawei or ZTE equipment and services. *Huawei Designation Order*, 35 FCC Rcd at 6608, para. 10; *ZTE Designation Order*, 35 FCC Rcd at 6637, para. 10. Moreover, USF recipients must certify that they are in compliance with this rule. *2019 Supply Chain Order*, 34 FCC Rcd at 11454, para. 79; see also 47 CFR 54.9.

In the *CAF Phase II Auction Order*, in addition to rules requiring Connect America Phase II auction support recipients to report regarding support used for capital expenditures, certify regarding available funds, and certify

that the Phase II-funded network meets performance requirements, the Commission also adopted rules requiring that Phase II auction support recipients must report information on served community anchor institutions and certify regarding bidding on FCC Form 470 postings for eligible schools and libraries in census blocks where the carrier receives auction support. *Connect America Fund, et al.*, WC Docket No. 10–90, et al., Report and Order and Further Notice of Proposed Rulemaking, 31 FCC Rcd 5949 (2016) (*CAF Phase II Auction Order*). Recipients of Uniendo a Puerto Rico Fund and Connect USVI Fund Stage 2 support must also observe these requirements in addition to the general requirements for high-cost support recipients and requirements specific to the Uniendo a Puerto Rico Fund and Connect USVI Fund programs. See *Puerto Rico and USVI Stage 2 Order*, 34 FCC Rcd at 9150, para. 74.

We therefore propose to revise this information collection, as well as Form 481 and its accompanying instructions, to reflect these new and revised requirements. We also eliminate one requirement that is associated with obligations no longer in effect for certain carriers. Finally, we propose to increase the burdens associated with existing reporting requirements to account for additional carriers that will be subject to those requirements.
