Abstract: This control number applies to the exploration, development, and utilization of oil shale resources on the BLM-managed public lands. Currently, the only oil shale leases issued by the BLM are research, development, and demonstration (RD&D) leases. However, the BLM regulations provide a framework for commercial oil shale leasing and additionally include provisions for conversion of RD&D leases to commercial leases. Section 369 of the Energy Policy Act (42 U.S.C. 15927) addresses oil shale development and authorizes the Secretary of the Interior to establish regulations for a commercial leasing program for oil shale. The Mineral Leasing Act of 1920 (30 U.S.C. 241(a)) provides the authority for the BLM to allow for the exploration, development, and utilization of oil shale resources on the BLM-managed public lands. Additional statutory authorities for the oil shale program are: (1) The Mineral Leasing Act for Acquired Lands of 1947 (30 U.S.C. 351–359); and (2) The Federal Land Policy and Management Act (FLPMA) of 1976 (43 U.S.C. 1701 et seq., including 43 U.S.C. 1732). This request is for OMB to renewal this OMB control number for an additional three (3) years.

INTERNATIONAL TRADE COMMISSION
[Investigation Nos. 731–TA–1534–1536 (Final)]

Methionine From France, Japan, and Spain; Scheduling of the Final Phase of Antidumping Duty Investigations

ACTION: Notice.

SUMMARY: The Commission hereby gives notice of the scheduling of the final phase of antidumping investigations Nos. 731–TA–1534–1536 (Final) pursuant to the Tariff Act of 1930 (‘‘the Act’’) to determine whether an industry in the United States is materially injured or threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports of methionine from France, Japan, and Spain, provided for in subheadings 2930.40.00 and 2930.90.46 of the Harmonized Tariff Schedule of the United States, preliminarily determined by the Department of Commerce (‘‘Commerce’’) to be sold at less-than-fair-value.

DATES: February 24, 2021.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:
Scope.—For purposes of these investigations, Commerce has defined the subject merchandise as methionine and dl-Hydroxy analogue of dl-methionine, also known as 2-Hydroxy 4-(Methylthio) Butanoic acid (HMTBa), regardless of purity, particle size, grade, or physical form. Methionine has the chemical formula C5H11NO2S, liquid HMTBa has the chemical formula C5H10O3S, and dry HMTBa has the chemical formula C5H9O3S.2Ca. Subject merchandise also includes methionine processed in a third country including, but not limited to, refining, converting from liquid to dry or dry to liquid form, or any other processing that would not otherwise remove the merchandise from the scope of these investigations if performed in the country of manufacture of the in-scope methionine or dl-Hydroxy analogue of dl-methionine.

The scope also includes methionine that is commingled (i.e., mixed or combined) with methionine from sources not subject to these investigations. Only the subject component of such commingled products is covered by the scope of these investigations. Excluded from these investigations is United States Pharmacopoeia (USP) grade methionine. In order to qualify for this exclusion, USP grade methionine must meet or exceed all of the chemical, purity, performance, and labeling requirements of the United States Pharmacopeia and the National Formulary for USP grade methionine.

Methionine is currently classified under subheadings 2930.40.00 and 2930.90.46 of the Harmonized Tariff Schedule of the United States (HTSUS). Methionine has the Chemical Abstracts Service (CAS) numbers 583–91–5, 4857–44–7, 59–51–8 and 922–50–9. While the HTSUS subheadings and CAS registry numbers are provided for convenience and customs purposes, the written description of the scope of these investigations is dispositive.

Background.—The final phase of these investigations is being scheduled, pursuant to section 735(b) of the Tariff Act of 1930 (19 U.S.C. 1673d(b)), as a result of affirmative preliminary determinations by Commerce that imports of methionine from France, Japan, and Spain are being sold in the United States at less than fair value within the meaning of § 733 of the Act (19 U.S.C. 1673b). The investigations were requested in petitions filed on July 29, 2020, by Novus International, Inc., St. Charles, Missouri.

For further information concerning the conduct of this phase of the investigations, hearing procedures, and rules of general application, consult the Commission’s Rules of Practice and Procedure and subparts A and B (19 CFR part 201), and part 207, subparts A and C (19 CFR part 207).

Participation in the investigations and public service list.—Persons, including industrial users of the subject merchandise and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the final phase of these investigations as parties must file an entry of appearance with the Secretary to the Commission, as provided in § 201.11 of the Commission’s rules, no later than 21 days prior to the hearing date specified in this notice. A party that filed a notice of appearance during the preliminary phase of the investigations need not file an additional notice of appearance during this final phase. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Please note the Secretary’s Office will accept only electronic filings during this time. Filings must be made through the Commission’s Electronic Document Information System (EDIS, https://edis.usitc.gov). No in-person paper-based filings or paper copies of any electronic filings will be accepted until further notice.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and BPI service list.—Pursuant to § 207.7(a) of the Commission’s rules, the Secretary will make BPI gathered in the final phase of these investigations available to authorized applicants under the APO issued in the investigations, provided that the application is made no later than 21 days prior to the hearing date specified in this notice. Authorized applicants must represent interested parties, as defined by 19 U.S.C. 1677(9), who are parties to the investigations. A party granted access to BPI in the preliminary phase of the investigations need not reapply for such access. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Staff report.—The prehearing staff report in the final phase of these investigations will be placed in the nonpublic record on April 27, 2021, and a public version will be issued thereafter, pursuant to § 207.22 of the Commission’s rules.

Hearing.—The Commission will hold a hearing in connection with the final phase of these investigations beginning at 9:30 a.m. on May 11, 2021. Information about the place and form of the hearing, including about how to participate in and view the hearing, will be posted on the Commission’s website at https://www.usitc.gov/
