

III. What is the Agency's authority for taking this action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may, at any time, request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**.

Section 6(f)(1)(B) of FIFRA (7 U.S.C. 136d(f)(1)(B)) requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, FIFRA section 6(f)(1)(C) (7 U.S.C. 136d(f)(1)(C)) requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrant requests a waiver of the comment period, or
2. The EPA Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The registrants in Table 2 of Unit II have requested that EPA waive the 180-day comment period. Accordingly, EPA will provide a 30-day comment period on the proposed requests.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation should submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Because the Agency has identified no significant potential risk concerns associated with these pesticide products, upon cancellation of the products identified in Table 1 of Unit II, EPA anticipates allowing registrants to sell and distribute existing stocks of the cryolite products listed in Table 1 of Unit II for 18 months after publication of the Cancellation Order in the **Federal Register**, and EPA anticipates allowing

registrants to sell and distribute existing stocks of the propazine products listed in Table 1 of Unit II for 1 year after publication of the Cancellation Order in the **Federal Register**. Thereafter, registrants will be prohibited from selling or distributing the pesticides identified in Table 1 of Unit II, except for export consistent with FIFRA section 17 (7 U.S.C. 136o) or for proper disposal. Persons other than registrants will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

ENVIRONMENTAL PROTECTION AGENCY

[Petition IV-2020-5; FRL-10021-14-Region 4]

Clean Air Act Operating Permit Program; Petition for Objection to State Operating Permit for Hazlehurst Wood Pellets, LLC (Jeff Davis County, Georgia)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final order on petition to object to state operating permit.

SUMMARY: The Environmental Protection Agency's (EPA) Administrator signed an Order, dated December 31, 2020, denying the petition submitted by the Environmental Integrity Project on behalf of itself and the Georgia Chapter of Sierra Club, Dogwood Alliance, the Rachel Carson Council, Partnership for Policy Integrity, Natural Resources Defense Council, and Our Children's Earth Foundation (Petitioners). The Order responds to the Petitioners' April 14, 2020, petition requesting that the EPA object to the proposed Clean Air Act (CAA) title V operating permit number 2499-161-0023-V-02-4 issued by the Georgia Environmental Protection Division (EPD) to Hazlehurst Wood Pellets, LLC for its facility located in Jeff Davis County, Georgia. The Order constitutes a final action on the petition addressed therein.

ADDRESSES: Copies of the Order, the petition, and all pertinent information relating thereto are on file at the

following location: EPA Region 4; Air and Radiation Division; 61 Forsyth Street SW; Atlanta, Georgia 30303-8960. The Order is also available electronically at the following address: <https://www.epa.gov/sites/production/files/2021-01/documents/hazlehurstorder2020.pdf>. EPA requests that if at all possible, you contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your inspection at the Regional Office. The Regional Office's official hours of business are Monday through Friday 8:30 a.m. to 4:30 p.m., excluding Federal holidays.

FOR FURTHER INFORMATION CONTACT: Art Hofmeister, Air Permits Section, Air Planning and Implementation Branch, Air and Radiation Divisions, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW, Atlanta, Georgia, 30303-8960. The telephone number is (404) 562-9115. Mr. Hofmeister can also be reached via electronic mail at hofmeister.art@epa.gov.

SUPPLEMENTARY INFORMATION: The CAA affords EPA a 45-day period to review and, as appropriate, the authority to object to operating permits proposed by state permitting authorities under title V of the CAA, 42 U.S.C. 7661–7661f. Section 505(b)(2) of the CAA and 40 CFR 70.8(d) authorize any person to petition the EPA Administrator to object to a title V operating permit within 60 days after the expiration of EPA's 45-day review period if EPA has not objected on its own initiative. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the grounds for the issues arose after this period.

Petitioners submitted a petition requesting that EPA object to the proposed CAA title V operating permit no. 2499-161-0023-V-02-4 issued by EPD to the Hazlehurst facility. Petitioners claim that this permitting action fails to include all applicable requirements, specifically the requirements related to section 112(r)(1) of the CAA ("general duty clause").

On December 31, 2020, the Administrator issued an Order denying the petition. The Order explains the EPA's basis for denying the petition.

Judicial Review: Section 307(b)(1) of the CAA indicates which Federal Courts of Appeal are the proper forum for petitions for review of final actions by EPA. This section provides, in part, that

petitions for review must be filed in the Court of Appeals for the District of Columbia Circuit: (i) When the agency action consists of “nationally applicable regulations promulgated, or final action taken, by the Administrator,” or (ii) when such action is locally or regionally applicable, if “such action is based on a determination of nationwide scope or effect and if in taking such action the Administrator finds and publishes that such action is based on such a determination.” For locally or regionally applicable actions, the CAA reserves to EPA complete discretion whether to invoke the exception in (ii).

As explained in the Order, this Order is locally applicable because it denies the single claim raised by the Petition and applies, on its face, to a single source in a single state. *Sierra Club v. EPA*, 926 F.3d 844, 849 (D.C. Cir. 2019). However, the Administrator exercised the complete discretion afforded to him under the CAA to make a finding in the Order that this action is based on a determination of nationwide scope or effect, and to publish this finding by publishing this notice regarding the Order in the **Federal Register**.

Thus, pursuant to sections 307(b) and 505(b)(2) of the CAA, any petitions for judicial review of this Order must be filed in the United States Court of Appeals for the District of Columbia Circuit within 60 days from the date this notice is published in the **Federal Register**.

Dated: March 4, 2021.

John Blevins,

Acting Regional Administrator, Region 4.

Specifically, under section 74.803(c), the Commission permitted licensed wireless microphone operations on the 941.5–944 MHz, the 952.85–956.25 MHz, the 956.45–959.85 MHz, the 6875–6900 MHz, and the 7100–7125 MHz bands, provided the particular coordination requirements were met; under section 74.803(d), the Commission authorized operations on the 1435–1525 MHz band provided that requisite conditions, including coordination, were met. With these revisions, the Commission promoted its goal of accommodating wireless microphone users’ needs through access to spectrum resources following the incentive auction and reconfiguration of the TV bands.
