### **Reporting**

Notice of specific reporting requirements, including who is to report, the information to be reported, the manner of reporting, and the time and place of filing reports, will be mailed to those required to complete this survey.

**Who Must Report:** (a) Reports are required from each U.S. person who had combined reportable sales of financial services to foreign persons that exceeded \$20 million during the prior fiscal year, or are expected to exceed that amount during the current fiscal year; or had combined reportable purchases of financial services from foreign persons that exceeded \$15 million during the prior fiscal year, or are expected to exceed that amount during the current fiscal year. **What To Report:** The survey collects information on transactions in financial services between U.S. financial services providers and foreign persons.

**How To Report:** Reports can be filed using BEA's electronic reporting system at [www.bea.gov/efile](http://www.bea.gov/efile). Copies of the survey forms and instructions, which contain complete information on reporting procedures and definitions, can be downloaded from [www.bea.gov/ssb](http://www.bea.gov/ssb) and submitted through mail or fax. Form BE–185 inquiries can be made by phone to BEA at (301) 278–9303 or by sending an email to [be-185help@bea.gov](mailto:be-185help@bea.gov).

### Takes of Marine Mammals Incidental To Specified Activities; Taking Marine Mammals Incidental to Marine Site Characterization Surveys Off of Coastal Virginia

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; proposed modification of an incidental harassment authorization; request for comments.

**SUMMARY:** NMFS received a request from Dominion Energy Virginia (Dominion) on February 5, 2021, for a modification to the incidental harassment authorization (IHA) that was initially

issued on August 28, 2020 and subsequently modified and issued on December 11, 2020. The initial IHA as now modified allowed Dominion to take nine species of marine mammals, by Level B harassment, incidental to marine site characterization surveys conducted in the areas of the Commercial Lease of Submerged Lands for Renewable Energy Development on the Outer Continental Shelf (OCS) Offshore Virginia (Lease No. OCS-A-0483) as well as in coastal waters where an export cable corridor will be established. Dominion has recently been recording take of common dolphin (*Delphinus Delphis*) by Level B harassment at a rate that would exceed their authorized take limit. Therefore, NMFS is proposing to modify the IHA to increase authorized take by Level B harassment of common dolphin. The mitigation, monitoring, and reporting measures remain the same as prescribed in the initial IHA and no additional take was requested for other species. NMFS will consider public comments on the requested modification prior to making any final decision and agency responses will be summarized in the final notice of our decision.

**DATES:** Comments and information must be received no later than March 25, 2021.

**ADDRESSES:** Comments should be addressed to Jolie Harrison, Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service. Written comments should be submitted via email to *ITP.pauline@noaa.gov*.

**Instructions:** NMFS is not responsible for comments sent by any other method, to any other address or individual, or received after the end of the comment period. Comments, including all attachments, must not exceed a 25-megabyte file size. Attachments to comments will be accepted in Microsoft Word or Excel or Adobe PDF file formats only. All personal identifying information (e.g., name, address) voluntarily submitted by the commenter may be publicly accessible. Do not submit confidential business information or otherwise sensitive or protected information.

**FOR FURTHER INFORMATION CONTACT:** Robert Pauline, Office of Protected Resources, NMFS, (301) 427-8401. Electronic copies of the original application and supporting documents

(including NMFS **Federal Register** notices of the original proposed and final authorizations, and the previous IHA), as well as a list of the references cited in this document, may be obtained online at: <https://www.fisheries.noaa.gov/permit/incidental-take-authorizations-under-marine-mammal-protection-act>. ### SUPPLEMENTARY INFORMATION:

#### Background

The MMPA prohibits the “take” of marine mammals, with certain exceptions. Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 et seq.) direct the Secretary of Commerce (as delegated to NMFS) to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to harassment, a notice of a proposed incidental take authorization may be provided to the public for review.

Authorization for incidental takings shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s) and will not have an unmitigable adverse impact on the availability of the species or stock(s) for taking for subsistence uses (where relevant). Further, NMFS must prescribe the permissible methods of taking and other “means of effecting the least practicable adverse impact” on the affected species or stocks and their habitat, paying particular attention to rookeries, mating grounds, and areas of similar significance, and on the availability of such species or stocks for taking for certain subsistence uses (referred to in shorthand as “mitigation”); and requirements pertaining to the mitigation, monitoring and reporting of such takings are set forth.

#### History of Request

On February 7, 2020, NMFS received a request from Dominion for an IHA to take marine mammals incidental to marine site characterization surveys in the areas of the Commercial Lease of Submerged Lands for Renewable Energy Development on the OCS Offshore Virginia (Lease No. OCS-A-0483) as well as in coastal waters where an export cable corridor will be established in support of the offshore wind project. Dominion's planned marine site characterization includes high-resolution geophysical (HRG) survey
