proposed or final rules, to withdraw rules pending publication with OFR, and to consider postponing for 60 days from the date of the memorandum, the effective date of rules already published in the Federal Register. The purpose of the memorandum is to implement the President’s plan to manage the Federal regulatory process at the outset of the Administration by providing the opportunity for the President’s new designees or appointees to review all new and pending rules.

Because OFR published the HIPAA NPRM prior to the effective withdrawal of rules provided for in the memorandum, the HIPAA NPRM remains publicly available in the Federal Register and open for public comment. However, due to the proximity in time between the publication of the HIPAA NPRM and the Regulatory Freeze Memorandum, the public may need clarification that the HIPAA NPRM is available for public comment and additional time to review the proposals and submit comments.

Therefore, to maximize the opportunity for the public to provide meaningful input to inform policy development, the Department is extending the comment period to May 6, 2021.

Norris Cochran,
Acting Secretary, Department of Health and Human Services.
