

TABLE 1—ESTIMATE OF BIENNIAL BURDEN FOR EEO–5 REPORT—Continued

School district staff	Hourly wage rate	Burden hours per district ^a	Burden hour cost per district	Total burden hours	Total burden hour cost
Payroll Specialist	19.49	1.43	27.84	10,117.35	197,187.06
Senior Human Resource Managers	56.11	3.43	192.38	24,281.35	1,362,426.28
Superintendent (School Management Occupations)	50.33	0.29	14.38	2,023.33	101,834.07
Total		17.07	572.58	120,901.07	4,055,001.76

Note: Burden Hours per district were determined through interviews with a stratified heterogeneous mixture of school districts used to estimate burden, as approved in the 2018 Paperwork Reduction Act.

^a Burden Hours are rounded to the tenth decimal place in this publication.

These estimates are based on the assumption of some paper reporting. During the 2018 EEO–5 filing period, the EEOC experienced a 49.8 percent increase in paper filing since the 2016 EEO–5 report filing. Despite the increase, paper filing represents 3.3 percent of total reports received in 2018. Online electronic filing remains the most popular, efficient, accurate, and secure means of reporting for respondents required to submit the EEO–5 report. The EEOC has made online electronic filing much easier for respondents required to file the EEO–5 and as a result, more respondents are using this method. Accordingly, the EEOC will continue to encourage EEO–5 filers to submit data through online electronic filing and will only accept paper records from filers who have secured permission to submit data via paper submission.

Dated: March 5, 2021.

For the Commission.

Chair.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–1028, FRS 17548]

Information Collection Being Reviewed by the Federal Communications Commission Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections.

Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before May 10, 2021. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to *PRA@fcc.gov* and to *Cathy.Williams@fcc.gov*.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060–1028.

Title: International Signaling Point Code (ISPC).

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 5 respondents; 5 responses.

Estimated Time per Response: .333 hours (20 minutes).

Frequency of Response: On occasion reporting requirement; Third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in 47 U.S.C. 151, 154(i)–(j), 201–205, 211, 214, 219–220, 303(r), and 403.

Total Annual Burden: 2 hours.

Annual Cost Burden: No cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for confidentiality with this collection of information.

Needs and Uses: This collection will be submitted as an extension (no change in reporting or recordkeeping requirements) after this 60-day comment period to Office of Management and Budget (OMB) in order to obtain the full three-year clearance.

An International Signaling Point Code (ISPC) is a unique, seven-digit code synonymously used to identify the signaling network of each international carrier. The ISPC has a unique format that is used at the international level for signaling message routing and identification of signaling points. The Commission receives ISPC applications from international carriers on the electronic, internet-based International Bureau Filing System (IBFS). After receipt of the ISPC application, the Commission assigns the ISPC code to each applicant (international carrier) free of charge on a first-come, first-served basis. The collection of this information is required to assign a unique identification code to each international carrier and to facilitate communication among international carriers by their use of the ISPC code on the shared signaling network. The Commission informs the International Telecommunications Union (ITU) of its assignment of ISPCs to international carriers on an ongoing basis.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1257.

Title: New Procedure for Non-Federal Public Safety Entities to License Federal Government Interoperability Channels.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Not-for-profit institutions; State, local, or tribal government.

Number of Respondents and Responses: 45,947 respondents; 45,947 responses.

Estimated Time per Response: 0.25 hours.

Frequency of Response: One-time reporting requirement.

Obligation to Respond: Section 90.25 adopted in Order DA 18-282, requires any non-federal public safety entity seeking to license mobile and portable units on the Federal Interoperability Channels to obtain written concurrence from its Statewide Interoperability Coordinator (SWIC) or a state appointed official and include such written concurrence with its application for license. A non-federal public safety entity may communicate on designated Federal Interoperability Channels for joint federal/non-federal operations, provided it first obtains a license from the Commission authorizing use of the channels. Statutory authority for these collections are contained in 47 U.S.C. 151, 154, 301, 303, and 332 of the Communications Act of 1934.

Total Annual Burden: 11,487 hours.

Total Annual Cost: No cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: Applicants who include written concurrence from their SWIC or state appointed official with their application to license mobile and portable units on the Federal Interoperability Channels need not include any confidential information with their application. Nonetheless, there is a need for confidentiality with respect to all applications filed with the Commission through its Universal Licensing System (ULS). Although ULS stores all information pertaining to the individual license via an FCC Registration Number (FRN), confidential information is accessible only by persons or entities that hold the password for each account, and the Commission's licensing staff. Information on private land mobile radio licensees is maintained in the Commission's system of records, FCC/

WTB-1, "Wireless Services Licensing Records." The licensee records will be publicly available and routinely used in accordance with subsection (b) of the Privacy Act. TIN Numbers and material which is afforded confidential treatment pursuant to a request made under 47 CFR 0.459 will not be available for Public inspection. Any personally identifiable information (PII) that individual applicants provide is covered by a system of records, FCC/WTB-1, "Wireless Services Licensing Records," and these and all other records may be disclosed pursuant to the Routine Uses as stated in this system of records notice.

Needs and Uses: This collection will be submitted as an extension of a currently approved collection after this 60-day comment period to the Office of Management and Budget (OMB) in order to obtain the full three-year clearance. The purpose of requiring a non-federal public safety entity to obtain written consent from its SWIC or state appointed official before communicating with federal government agencies on the Federal Interoperability Channels is to ensure that the non-federal public safety entity operates in accordance with the rules and procedures governing use of the federal interoperability channels and does not cause inadvertent interference during emergencies. Commission staff will use the written concurrence from the SWIC or state appointed official to determine if an applicant's proposed operation on the Federal Interoperability Channels conforms to the terms of an agreement signed by the SWIC or state appointed official with a federal user with a valid assignment from the National Telecommunications and Information Administration (NTIA) which has jurisdiction over the channels.
