that it does not discriminate against beneficiaries of federal health care programs and does not permit physicians practicing at the hospital to discriminate against such beneficiaries.

Our decision grants Solutions Medical Consulting, LLC d/b/a Serenity Springs Hospital’s request to add a total of 18 operating rooms, procedure rooms, and beds. Under the regulations in place at the time the request was filed, the expansion may occur only in facilities on the hospital’s main campus and may not result in the number of operating rooms, procedure rooms, and beds for which Solutions Medical Consulting, LLC d/b/a Serenity Springs Hospital is licensed to exceed 200 percent of its baseline number of operating rooms, procedure rooms, and beds. Solutions Medical Consulting, LLC d/b/a Serenity Springs Hospital certified that its baseline number of operating rooms, procedure rooms, and beds is 18. Accordingly, we find that granting an additional 18 operating rooms, procedure rooms, and beds will not exceed the limitation on a permitted expansion.

IV. Decision

This final notice announces our decision to approve Solutions Medical Consulting, LLC d/b/a Serenity Springs Hospital’s request for an exception to the prohibition against expansion of facility capacity. Solutions Medical Consulting, LLC d/b/a Serenity Springs Hospital submitted the data and certifications necessary to demonstrate that it satisfies the criteria to qualify as a high Medicaid facility as specified in the November 30, 2011 final rule. In accordance with section 1877(i)(3) of the Act, we are granting Solutions Medical Consulting, LLC d/b/a Serenity Springs Hospital’s request for an exception to the expansion of facility capacity prohibition based on the following criteria:

- Solutions Medical Consulting, LLC d/b/a Serenity Springs Hospital is not the sole hospital in the county in which the hospital is located;

- With respect to each of the 3 most recent 12-month periods for which data are available as of the date the hospital submitted its request, Solutions Medical Consulting, LLC d/b/a Serenity Springs Hospital had an annual percent of total inpatient admissions under Medicaid that is estimated to be greater than such percent with respect to such admissions for any other hospital located in the county in which the hospital is located; and

- Solutions Medical Consulting, LLC d/b/a Serenity Springs Hospital certified that it does not discriminate against beneficiaries of federal health care programs and does not permit physicians practicing at the hospital to discriminate against such beneficiaries.

Our decision grants Solutions Medical Consulting, LLC d/b/a Serenity Springs Hospital’s request to add a total of 18 operating rooms, procedure rooms, and beds. Under the regulations in place at the time the request was filed, the expansion may occur only in facilities on the hospital’s main campus and may not result in the number of operating rooms, procedure rooms, and beds for which Solutions Medical Consulting, LLC d/b/a Serenity Springs Hospital is licensed to exceed 200 percent of its baseline number of operating rooms, procedure rooms, and beds. Solutions Medical Consulting, LLC d/b/a Serenity Springs Hospital certified that its baseline number of operating rooms, procedure rooms, and beds is 18. Accordingly, we find that granting an additional 18 operating rooms, procedure rooms, and beds will not exceed the limitation on a permitted expansion.
