

for endangered or threatened species. No incidental take of ESA-listed marine mammal species is expected to result from this activity, and none are authorized. Therefore, NMFS determined that consultation under section 7 of the ESA was not required for this action.

National Environmental Policy Act

To comply with the National Environmental Policy Act of 1969 (NEPA; 42 U.S.C. 4321 *et seq.*) and NOAA Administrative Order (NAO) 216-6A, NMFS must review our proposed action (*i.e.*, the issuance of an incidental harassment authorization) with respect to potential impacts on the human environment.

This action is consistent with categories of activities identified in Categorical Exclusion B4 (IHAs with no anticipated serious injury or mortality) of the Companion Manual for NOAA Administrative Order 216-6A, which do not individually or cumulatively have the potential for significant impacts on the quality of the human environment and for which we have not identified any extraordinary circumstances that would preclude this categorical exclusion. Accordingly, NMFS has determined that the issuance of the IHA qualifies to be categorically excluded from further NEPA review.

Authorization

As a result of these determinations, NMFS has issued a renewal IHA to the Navy for the taking of marine mammals incidental to modification and expansion of Portsmouth Naval Shipyard Dry Dock 1 from the date of issuance through February 27, 2022, provided the previously described mitigation, monitoring, and reporting requirements are incorporated. The IHA can be found at <https://www.fisheries.noaa.gov/national/marine-mammal-protection/incidental-take-authorizations-construction-activities>.
