finalizing the draft guidance as proposed.

This final guidance document expands the potential for data waivers for acute dermal studies to single active ingredient technical chemicals (technical chemicals) used to formulate end use products. The reasoning and analysis in this dermal waiver guidance for technical chemicals is similar to what was presented in the 2016 guidance for end-use products. While more acute toxicity studies are submitted to OPP annually for formulated pesticide products than for technical chemicals, there is still the potential for animal and resource savings from waivers for technical chemical acute toxicity studies. Further, this guidance will allow EPA to harmonize with the PMRA.

III. Do guidance documents contain binding requirements?

As guidance, this document is not binding on the Agency or any outside parties, and the Agency may depart from it where circumstances warrant and without prior notice. While EPA has made every effort to ensure the accuracy of the discussion in the guidance, the obligations of EPA and the regulated community are determined by statutes, regulations, or other legally binding documents. In the event of a conflict between the discussion in the guidance document and any statute, regulation, or other legally binding document, the guidance document will not be controlling.

IV. Statutory and Executive Order Reviews

Additional information about these statutes and Executive Orders can be found at https://www.epa.gov/laws-regulations/laws-and-executive-orders. This unit addresses those requirements that apply to a guidance document.

A. Executive Order 12866: Regulatory Planning and Review and Executive Order 13563: Improving Regulation and Regulatory Review

The Office of Management and Budget (OMB) determined that this is not a significant regulatory action under Executive Order 12866 (58 FR 51735, October 4, 1993). The guidance was not, therefore, submitted to OMB for review under Executive Orders 12866 and 13563 (76 FR 3821, January 21, 2011).

B. Paperwork Reduction Act (PRA)

This guidance document does not create any new information collection burden that require additional approval by OMB under the PRA. 44 U.S.C. 3501 et seq. Burden is defined in 5 CFR 1320.3(b). The information collection activities associated with pesticide registration are already approved by OMB under OMB Control No. 2070–0060.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information that requires OMB approval under the PRA, unless it has been approved by OMB and displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in Title 40 of the CFR, after appearing in the Federal Register, are listed in 40 CFR, part 9, and included on the related collection instrument, or form, as applicable.

Authority: 7 U.S.C. 136 et seq.
Dated: March 10, 2021.

Acting Assistant Administrator, Office of Chemical Safety and Pollution Prevention.

FEDERAL COMMUNICATIONS COMMISSION

Privacy Act of 1974; System of Records

AGENCY: Federal Communications Commission.

ACTION: Rescindment of two systems of records notices.

SUMMARY: The Federal Communications Commission (FCC) proposes to rescind two systems of records, FCC/OMD–20, Inter-office and Internet Email Systems, and FCC/OMD–22, Equipment Loan Records. The systems contained information concerning the names, email addresses, passwords, and badge numbers of FCC employees and contractors, as well as loaned electronic equipment, e.g., laptops, pagers, cellular telephones, and RSA Secure Tokens by the FCC to employees.

DATES: This action will become effective on April 16, 2021.

ADDRESSES: Send comments to the Privacy Team, Federal Communications Commission, 45 L Street NE, Washington, DC 20554, or Privacy@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Margaret Drake, Privacy Team, Federal Communications Commission, 45 L Street NE, Washington, DC 20554, 202–418–1707, or Privacy@fcc.gov.

SUPPLEMENTARY INFORMATION: The Privacy Act provides that an agency may only collect or maintain in its records information about individuals that is relevant and necessary to accomplish a purpose that is required by a statute or executive order. If a system of records is comprised of records that no longer meet this standard, the Privacy Act may require agencies to stop maintaining the system and expunge the records in accordance with the requirements in the SORN and the applicable records retention or disposition schedule approved by the National Archives and Records Administration. The System manager has deemed these systems obsolete and has declared that the records are no longer relevant to accomplish an agency mission/purpose identified. The categories of records in this system are no longer collectively maintained in a system of records. Therefore, consistent with the Privacy Act of 1974 (5 U.S.C. 552a) and the Office of Management and Budget (OMB) Circular No. A.108, the FCC proposes to rescind these two systems.
