

information coordination with State Drinking Water Agency and Community Water Systems to ensure that these agencies prepare and protect the community from contamination of their water.

The data collected in this survey will inform the Agency about how SERCs are fulfilling the requirements of the law, specifically in sharing key information among all appropriate State organizations and managing LEPCs and their activities. Additionally, the results of the survey will help to identify areas where SERCs are having difficulty meeting their requirements, the specific challenges they are facing, and will identify areas where EPA can better assist SERCs and LEPCs in implementing EPCRA and its amendments under AWIA.

The solicitation period will be done on an annual basis and is open for approximately 2 months, once posted.
