ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

Security controls used to protect personally identifiable information in SABAPP are commensurate with those required for an information system rated moderate for confidentiality, integrity, and availability, as prescribed in NIST Special Publication, 800-53, "Recommended Security Controls for Federal Information Systems," Revision 4.

1. Administrative Safeguards—only authorized users needing access to the system will be granted role-based credentials to access the system. Users of EPA systems are required to complete security and privacy training on an annual basis to ensure continued access to the system.

2. Technical Safeguards—SABAPP is a password protected system requiring all users to log in to access the information in the system. It is only accessible on the EPA network using government furnished equipment. It utilizes the agency's network user-authentication process. The system times out after a period of latency ensuring a user re-authenticates their session with a username and password. The records are stored on an encrypted database.

3. Physical Safeguards—All records are maintained in secure areas and buildings with physical access controls.

Proposed Information Collection Request; Comment Request; Fuel Use Requirements for Great Lake Steamships (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), "Fuel Use Requirements for Great Lakes Steamships" (EPA ICR No. 2458.05, OMB Control No. 2060-0679) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through November 30, 2021. An Agency may not conduct

or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before May 18, 2021.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OAR-2011-0928 online using www.regulations.gov (our preferred method), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Alan Stout, Office of Transportation and Air Quality, Environmental Protection Agency, 2565 Plymouth Road, Ann Arbor, MI 48105; 734-214-4805; stout.alan@epa.gov.

SUPPLEMENTARY INFORMATION: Supporting documents that explain in detail the information EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the Paperwork Reduction Act, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR

as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: EPA adopted requirements for marine vessels operating in and around U.S. territorial waters to use reduced-sulfur diesel fuel. This requirement does not apply for steamships, but it would apply for steamships that are converted to run on diesel engines. A regulatory provision allows vessel owners to qualify for a waiver from the fuel-use requirements for a defined period for such converted vessels. One condition of the exemption from the fuel standard is that engines meet current emission standards. EPA uses the information to oversee compliance with regulatory requirements, including communicating with affected companies and answering questions from the public or other industry participants regarding the waiver in question. Since the IMO Tier III NOx standards apply for engines installed on U.S. vessels, we don't expect anyone to use the steamship exemption.

Form Numbers: None.

Respondents/affected entities: 0.

Respondent's obligation to respond: Required to obtain a benefit (40 CFR 1043.95).

Estimated number of respondents: 0.

Frequency of response: One time for a new notification.

Total estimated burden: 0 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$0.

Changes in Estimates: The burden estimate is unchanged from the current estimate in the total estimated respondent burden currently approved by OMB. Since the IMO Tier III NOx standards now apply for engines installed on U.S. vessels, we don't expect anyone to use the steamship exemption.

William Charmley,

Director, Assessment and Standards Division.
