

drug test results are negative within 5 business days of specimen collection or administratively withdraw FFD authorization until the drug test results are received.

According to the application, during the week of February 15, 2021, severe winter weather caused substantial service disruptions at the FedEx® Express shipping service hub in Memphis, Tennessee. The weather delayed shipments and delivery of drug and alcohol test specimens for approximately 435 outage workers granted temporary access to LSCS. This delay could result in FFD authorization being removed for these individuals and Exelon's inability to timely restore LSCS to the electrical grid to serve the public and the Nation's economic

infrastructure. To avoid this possibility, Exelon requested a temporary exemption from 10 CFR 26.65(d)(1)(ii) and 26.65(e)(2)(iii)(B) to allow for extending the 5 business days requirement to 15 business days.

Upon review, the NRC determined that pursuant to 10 CFR 26.9, the requested exemption is authorized by law, will not endanger life or property or the common defense and security, and is otherwise in the public interest. Therefore, the NRC granted the licensee's request to temporarily exempt LSCS from the requirements in 10 CFR 26.65(d)(1)(ii) and 10 CFR 26.65(e)(2)(iii)(B). The exemption was effective upon issuance and remained in effect for the specimen shipments then in transit and any subsequent shipments

made through February 26, 2021, to allow time to arrange alternative shipping, if possible.

II. Availability of Documents

The table in this notice provides the facility name, docket numbers, document descriptions, and ADAMS accession numbers related to the issued exemption. Additional details on the issued exemption, including the exemption request submitted by the licensee and the NRC's decision, are provided in the documents listed in the table in this notice. I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2021-0039 when contacting the NRC about the availability of information for this

action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal Rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2021-0039. A copy of the collection of information and related instructions may be obtained without charge by accessing Docket ID NRC-2021-0039 on this website.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The supporting statement is available in ADAMS under Accession No. ML20356A244.

- *Attention:* The PDR, where you may examine and order copies of public documents, is currently closed. You may submit your request to the PDR via email at pdr.resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8:00 a.m. and 4:00 p.m. (EST), Monday through Friday, except Federal holidays.

- *NRC's Clearance Officer:* A copy of the collection of information and related

instructions may be obtained without charge by contacting NRC's Clearance Officer, David Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-2084; email: Infocollects.Resource@nrc.gov.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal Rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC-2021-0039 in your comment submission.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information. If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* Part 20 of title 10 of the *Code of Federal Regulations* (10 CFR), "Standards for Protection Against Radiation."

2. *OMB approval number:* 3150-0014.

3. *Type of submission:* Extension.

4. *The form number, if applicable:* not applicable.

5. *How often the collection is required or requested:* Annually for most reports and at license termination for reports dealing with decommissioning.

6. *Who will be required or asked to respond:* NRC licensees and Agreement State licensees, including those requesting license terminations. Types of licensees include civilian commercial, industrial, academic, and medical users of nuclear materials. Licenses are issued for, among other

things, the possession, use, processing, handling, and importing and exporting of nuclear materials, and for the operation of nuclear reactors.

7. *The estimated number of annual responses:* 52,359 (14,206 for reporting [1,797 NRC licensees and 12,409 Agreement State licensees], 25,225 for recordkeeping [3,003 NRC licensees and 22,222 Agreement State licensees], and 12,928 for third-party disclosures [1,539 NRC licensees and 11,389 Agreement State licensees]).

8. *The estimated number of annual respondents:* 25,225 (3,003 NRC licensees and 22,222 Agreement State licensees).

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 769,396 hours (91,965 hours for NRC licensees and 677,431 hours for Agreement State licensees).

10. *Abstract:* 10 CFR part 20 establishes standards for protection against ionizing radiation resulting from activities conducted under licenses issued by the NRC and by Agreement States. These standards require the establishment of radiation protection programs, maintenance of radiation protection programs, maintenance of radiation records, recording of radiation received by workers, reporting of incidents which could cause exposure to radiation, submittal of an annual report to NRC and to Agreement States of the results of individual monitoring, and submittal of license termination information. These mandatory requirements are needed to protect occupationally exposed individuals from undue risks of excessive exposure to ionizing radiation and to protect the health and safety of the public.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the estimate of the burden of the information collection accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated: March 16, 2021.
