The Consolidated Appropriations Act, 2021 (Pub. L. 116–260) authorized and appropriated $10 million to remain available until expended for the Secretary of Agriculture to carry out a pilot program to provide financial assistance for rural communities to further develop renewable energy. This RFI and Stakeholder Listening Session seek information from the public to help develop options for the Rural Energy Pilot Program to support the Nation’s critical energy needs for climate change while advancing environmental justice, racial equity, and economic opportunity through the development and deployment of distributed energy technologies, innovations, and/or solutions.

Public comment is requested on the following topics in particular:

- Program purposes, goals, metrics, and standards;
- Eligible applicants, participants, partners including but not limited to communities, residencies, industry, and commercial entities;
- Eligible technologies including but not limited to generation, storage, controller, and grid;
- Potential impact of the pilot program and renewable energy systems more broadly on each of the following: Environmental justice, racial equity, and economic opportunity;
- Options to measure and maximize the benefits of renewable energy systems for environmental justice, racial equity, and economic opportunity in rural areas.

This effort will build on prior investments and experience gained through past small-scale energy solutions, social justice reforms, and climate change mitigation programs.

Through the RFI and listening session process, the agency is seeking input from the public, including but not limited to programs of interest, prospective participants, prospective partners/stakeholders, communities, economic opportunity, and otherwise advance environmental justice, racial equity, and economic opportunity. The public input provided in response to the RFI and listening session will inform USDA as well as private sector, public bodies, and other stakeholders with interest in and expertise relating to the development and deployment of renewable energy systems.

Addressing the climate crisis, ensuring racial equity, and rebuilding the rural economy are among the agency’s top priorities, which respondents are encouraged to consider in their reply. USDA is dedicated to meeting the challenges facing rural America and building back better, stronger, and more resilient and equitably than ever before.

**Instructions**

Response to this notice is voluntary. Each individual or institution is requested to submit only one response as directed in the ADDRESSES section of this notice. Submission must not exceed 10 pages in 12 point or larger font, with a page number provided on each page. Responses should include the name of the person(s) or organization(s) filing the comment.

Comments containing references, studies, research, and other empirical data that are not widely published should include copies or electronic links of the referenced materials.

Comments containing profanity, vulgarity, threats, or other inappropriate language or content will not be considered. Comments submitted in response to this notice are subject to Freedom of Information Act (FOIA). Responses to this notice may also be posted, without change, on a Federal website. Therefore, we request that no business proprietary information, copyrighted information, or personally identifiable information be submitted in response to this notice. In accordance with FAR 52–215–3(b), responses to this
notice are not offers and cannot be accepted by the Government to form a binding contract. Additionally, the U.S. Government will not pay for response preparation or for the use of any information contained in the response.

To inform the Federal government’s decision-making and establish the Nation’s guiding principles in the promotion of the Rural Energy Pilot Program, USDA now seeks public input on how U.S. Government action might appropriately support the expansion of a nationwide effort. To that end, responders are specifically requested to answer one or more of the following questions in their submissions.

Consortia responses are also encouraged.

1. How might distributed energy technologies, innovations, and/or solutions be deployed to advance environmental justice, racial equity, and economic opportunity?
2. What specific distributed energy technologies, innovations, and/or solutions are available or have the potential to advance environmental justice, racial equity, and economic opportunity through their deployment and/or development?
3. What type of assistance or incentive (made available through a Rural Energy Pilot Program) would encourage the development and deployment of such distributed energy technologies, innovations, and/or solutions?
4. How should USDA measure, assess, and analyze the impacts of distributed energy solutions on environmental justice, racial equity, and economic opportunity?
5. Who should be eligible to receive such assistance?
6. What types of technology and/or infrastructure should be eligible under such a Rural Energy Pilot Program?

7. Should a Rural Energy Pilot Program incentivize efficiency, resilience, or some other value?
8. Should the Rural Energy Pilot Program include minimum standards for equipment? Or a recognized standard of development such as commercially available?
9. What types of efforts have proven to be effective to promote the deployment of distributed energy solutions or innovations that advance or have the potential to advance environmental justice, racial equity, and economic opportunity?

a. What are the technologies associated with these efforts?
b. Why and how do these technologies advance of environmental justice, racial equity, and economic opportunity?
c. Should there be a minimum investment requirement?

10. If cost-sharing is required, what minimum level of cost-share (owner contribution) should be required of recipients of funding? What would you consider to be the most cost-effective level of cost-share while also supporting the objective of advancing environmental justice, racial equity, and economic opportunity?
11. What programmatic or administrative structures, policies, incentives, or requirements will support the advancement of environmental justice, racial equity, and economic opportunity through the Rural Energy Pilot Program? What structures, policies, incentives, or requirements might obstruct or otherwise undermine its advancement?
12. What programmatic or administrative and other barriers exist that may limit participation in the Rural Energy Pilot Program or the availability of program benefits? What should be done to ensure equitable program participation by those who would otherwise be unlikely to apply? What specific actions could USDA take to guide a transformation and/or expansion of a Rural Energy Pilot Program, in both the short- and long-term?
13. Given the objective, how should USDA measure the outcomes of the Rural Energy Pilot Program?
14. To what extent should current investments be required to accommodate future, anticipated technologies?
15. Please provide feedback on the effectiveness of any known distributed energy or rural energy pilot program of which you are aware.
16. From your perspective, how much post-award reporting is reasonable for recipients of funding?

Non-Discrimination Statement
In accordance with Federal civil rights laws and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its agencies, offices, and employees, and institutions participating in or administering USDA Programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g. Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA’s TARGET Center at (202) 720–2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877–8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD–3027, found online at https://www.usda.gov/oascr/how-to-file-a-program-discrimination-complaint and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632–9992. Submit your completed form or letter to USDA by:

1. (1) Mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue SW, Washington, DC 20250–9410; or
2. (2) Email: OAC@usda.gov
USDA is an equal opportunity provider, employer, and lender.

Mark Brodzinski,
Acting Administrator, Rural Business-Cooperative Service.

BILLING CODE 3410–XY–P

DEPARTMENT OF AGRICULTURE

Rural Housing Service

[Docket # RHS–21–SFH–0005]

Notice of Request for Extension of a Currently Approved Information Collection

AGENCY: Rural Housing Service, USDA.
ACTION: Proposed collection; comments requested.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Rural Housing Service’s (RHS or Agency) intention to request an extension for a currently approved information collection in support of the programs under the Code of Federal Regulations.

DATES: Comments on this notice must be received by June 1, 2021 to be assured consideration.
