

DEPARTMENT OF STATE

[Public Notice: 11388]

Notice of Charter Renewal for the U.S. Advisory Commission on Public Diplomacy

The Department of State has renewed the Charter for the U.S. Advisory Commission on Public Diplomacy (ACPD).

The Commission was originally established under Section 604 of the United States Information and Educational Exchange Act of 1948, as amended (22 U.S.C. 1469), and under Section 8 of Reorganization Plan Number 2 of 1977. It was most recently reauthorized pursuant to Section 168 of the Continuing Appropriations Act, 2021 and Other Extensions Act (Div. A., Pub. L. 116–159), which amended section 1334 of the Foreign Affairs Reform and Restructuring Act of 1998 (22 U.S.C. 6553).

For more than 70 years, the ACPD has appraised U.S. government activities intended to understand, inform, and influence foreign publics and has aimed to increase the understanding of and support for these activities. The Commission conducts research and symposia that provide honest assessments and informed discourse on public diplomacy efforts across the U.S. government, and it disseminates findings through reports, white papers, and other publications. It reports to the President, Secretary of State, and Congress. The Under Secretary for Public Diplomacy and Public Affairs' Office of Policy, Planning, and Resources (R/PPR) provides administrative support for the ACPD.

The Commission consists of seven members appointed by the President, with the advice and consent of the Senate. The members of the Commission represent the public interest and are selected from a cross section of educational, communications, cultural, scientific, technical, public service, labor, business, and professional backgrounds. No more than four members may be from any one political party. The President designates a member to chair the Commission.

The current members of the Commission are: Mr. Sim Farar of California, Chair; Mr. William Hybl of Colorado, Vice-Chair; and Ms. Anne Terman Wedner of Florida. Four seats on the Commission currently are vacant.

The Charter renewal was filed on March 16, 2021.

For further information about the Commission, please contact Vivian S. Walker, the Commission's Designated

Federal Officer and Executive Director, at WalkerVS@state.gov.

Kristina K. Zamary,

[Docket No. FD 36487]

**Katahdin Railcar Services LLC—
Change in Operators Exemption—Ohio
Terminal Railway Company**

Katahdin Railcar Services LLC (KRS), a Class III carrier, has filed a verified notice of exemption pursuant to 49 CFR 1150.41 to assume Ohio Terminal Railway Company (OTRC)'s right and common carrier obligation to provide rail service to all customers located within the industrial park owned by Hannibal Real Estate LLC (HRE) on a 12.2-mile rail line between milepost 60.5 near Powhatan Point, Ohio, and milepost 72.7 near Hannibal, in Monroe County, Ohio (the Omal Line).¹

According to the verified notice, the proposed change in operators implements a settlement agreement among ORPS, OTRC, and HRE that resolves certain state court litigation concerning the respective rights of OTRC and ORPS to use the Omal Line. According to the verified notice, under that settlement agreement KRS is to assume the right and common carrier obligation to provide service to the HRE industrial park, replacing OTRC. On March 9, 2021, OTRC replied to the verified notice, stating that it does not object to the change in operators.

According to KRS, the change in operators transaction does not involve any provision or agreement that may limit future interchange with a third-party connecting carrier. KRS certifies that its projected revenues as a result of the transaction will not result in the creation of a Class II or Class I rail carrier and that its revenues will not exceed \$5 million.

Under 49 CFR 1150.42(b), a change in operator exemption requires that notice be given to shippers. KRS states that notice of the proposed change in operators was provided to all customers

¹ KRS states that it operates over the Omal Line pursuant to a lease with Ohio River Partners Shareholders LLC (ORPS) under which KRS assumed the exclusive right and common carrier obligation to provide freight rail service on and along the Omal Line except to industries located within the HRE industrial park. *See also* Verified Notice 1–2; *Fortress Inv. Group LLC—Exemption for Intra-Corporate Family Transaction—Ohio River Partners S'holder LLC*, FD 36402 (STB served May 15, 2020).

located within the HRE industrial park, to HRE, and to OTRC.

The transaction may be consummated on or after April 18, 2021, the effective date of the exemption.²

If the verified notice contains false or misleading information, the exemption is void ab initio. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Petitions for stay must be filed no later than April 9, 2021 (at least seven days before the exemption becomes effective).

All pleadings, referring to Docket No. FD 36487, should be filed with the Surface Transportation Board via e-filing on the Board's website. In addition, a copy of each pleading must be served on KRS' representative, Terence M. Hynes, Sidley Austin LLP, 1501 K St. NW, Washington, DC 20005.

According to KRS, this action is categorically excluded from historic preservation reporting requirements under 49 CFR 1105.8(b) and from environmental reporting requirements under 49 CFR 1105.6(c).

Board decisions and notices are available at www.stb.gov.

Decided: March 24, 2021.

By the Board, Allison C. Davis, Director, Office of Proceedings.

Kenyatta Clay,
Clearance Clerk.

Type of Review: New information collection. *Background:* The data collected during the Unmanned Aircraft Systems (UAS) BEYOND and Partnership for Safety Plan (PSP) programs is delineated as part of the Memorandum of Agreement (MOA) or Memorandum of Understanding (MOU) each Lead Participant or industry partner participant signs with the FAA, and entered into under the authority of 49 U.S.C. 106(l) and (m). There are five types of data collection.

First, participants submit narrative reports to inform the FAA of operational trends, and highlight successes and failures and their causes. The purpose of the narrative reports is to help the FAA make policy and resource decisions, especially in regards to the challenges and lessons learned in integrating UAS into the NAS. These include Semi-Annual, Final and Program Withdrawal Reports for the UAS BEYOND program and Quarterly and Final Reports for the PSP program.

Second, participants submit systems and operations data, including UAS Data, Maintenance Data, Operational Flight Data, Test Data and Anomaly Data. The purpose of these submissions is to inform policy and decision-making related to the risks associated with operations involving command and control (C2) links, DAA capabilities, anomaly detection and a host of other categories, in order to solve challenges in enabling UAS BVLOS operations and to fully integrate various operation types into the NAS.

Third, participants submit quantitative and qualitative data related to the societal and economic benefits of their UAS operations. The information will be used to inform FAA policy and decision-making toward integrating different types of operations into the NAS, and to inform discussions with the public on the benefits of using UAS.

These will be submitted with the Semi-Annual BEYOND reports or the Quarterly PSP reports.

Fourth, participants submit quantitative and qualitative data related to their community engagement activities. The information will be used to inform FAA policy and decision-making on how to best engage the public in discussions about the use of UAS in their communities, and to give insight into the public's desire or resistance toward approvals of different types of operations in various communities. These will be submitted with the Semi-Annual BEYOND reports or the Quarterly PSP reports.

Fifth, participants collect and submit data collected from the general public using questions provided in community engagement tool. The objective is to gather general information about community sentiment to be shared within FAA and with external stakeholders, and to assist in the development of artifacts such as best practices and lessons learned documents. Those artifacts can then be shared with UAS stakeholders to help inform their stakeholder engagement activities. It is not meant to be statistical in nature, nor to provide statistically significant information for policy or decision-making. This data will be submitted with the Semi-Annual BEYOND reports or the Quarterly PSP reports.

Respondents: Depending on the submission, the respondents are three groups:

1. Business or other for-profit—PSP participants only
2. State, Local or Tribal Government—BEYOND participants only
3. Individuals or Households

See the following table for details.

Frequency: The frequency depends on the report or form. See the following table for details.

Estimated Average Burden per Response: Depending on the submission, the overall estimated average burden per response varies from 5 minutes to 80 hours. See the following table for details.

Estimated Total Annual Burden: The estimated total annual burden for all submissions is 17,190.91 hours. See the following table for a breakdown by report or form.

Submission	Affected public	Frequency	Number of respondents	Total number of responses	Estimated average burden per response (hours)	Estimated total annual burden (hours)
