NUCLEAR REGULATORY COMMISSION

10 CFR Part 37

[Docket No. PRM-37-2; NRC-2021-0051]

Advance Tribal Notification of Certain Radioactive Material Shipments

AGENCY: Nuclear Regulatory Commission.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has received a petition for rulemaking from Richard Arnold and Ron Johnson on behalf of the Tribal Radioactive Materials Transportation Committee, dated December 4, 2020, requesting that the NRC revise its regulations to ensure consistency regarding advance Tribal notification of certain radioactive material shipments with similar regulations for State notification. The petition was docketed by the NRC on February 11, 2021, and has been assigned Docket No. PRM-37-2. The NRC is examining the issues raised in PRM-37-2 to determine whether they should be considered in rulemaking. The NRC is requesting public comment on this petition at this time.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. The Petitioner and the Petition

The petition for rulemaking (PRM) was filed by Richard Arnold and Ron Johnson on behalf of the Tribal Radioactive Materials Transportation Committee (TRMTC). The PRM requests that the NRC revise its regulations at part 37 of title 10 of the *Code of Federal Regulations* (10 CFR), “Physical protection of category 1 and category 2 quantities of radioactive material,” to ensure consistency with 10 CFR part 71, “Packaging and transportation of radioactive material,” and 10 CFR part 73, “Physical protection of plants and materials,” regarding advance Tribal notification of certain radioactive material shipments. The petition may be found in ADAMS at Accession ML21042B011.

III. Discussion of the Petition

The letter from the petitioner states, “TRMTC believes consistent notification standards must be applied to states and tribal governments. . .”.

This letter identifies a discrepancy between 10 CFR part 37 and 10 CFR parts 71 and 73 regarding advance notification of Tribal Governments for certain radioactive material shipments. The NRC regulations in § 71.79, “Advance notification of shipment of irradiated reactor fuel and nuclear waste,” require licensees provide advance notification to the NRC, States, and participating Tribes for irradiated fuel and for the shipment of licensed material, other than irradiated fuel, meeting the certain conditions. The NRC regulations in § 73.37, “Requirements for physical protection of irradiated reactor fuel in transit,” require licensees provide advance notification to the NRC, States and participating Tribes for spent nuclear fuel. While § 37.77 requires licensees provide advance notice to the NRC and States for the shipment of licensed material in a category 1 quality, there is no requirement for licensees to provide advance notification to Tribes for such shipments.

IV. Conclusion

The NRC has determined that the petition meets the sufficiency requirements for docketing a PRM under § 2.803, “Petition for rulemaking-NRC action.” The NRC will examine the issues raised in PRM–37–2 and any comments received in response to this comment request to determine whether these issues should be considered in rulemaking.

Dated: April 5, 2021.

For the Nuclear Regulatory Commission.

Annette L. Vietti-Cook,

Secretary of the Commission.

Energy Conservation Program: Energy Conservation Standards for Consumer Products; Early Assessment Review; Boilers

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Extension of public comment period.

SUMMARY: On March 25, 2021, the U.S. Department of Energy (DOE or the Department) published in the **Federal**

Register an early assessment request for information (RFI) pertaining to the potential amendment of energy conservation standards for consumer boilers. The early assessment RFI provided an opportunity for submission of written comments, data, and information to the Department by April 26, 2021. Prior to the end of the comment period for the RFI, DOE received requests from the Air-Conditioning, Heating and Refrigeration Institute (AHRI), as well as from the American Public Gas Association (APGA), seeking additional time to consider the issues raised in the early assessment RFI. In light of these requests, DOE is announcing its decision to extend the comment period on the subject RFI for an additional 30 days.

DATES: The comment period for the consumer boilers early assessment RFI published in the **Federal Register** on March 25, 2021 (86 FR 15804) is extended to May 26, 2021. Written comments, data, and information are requested and will be accepted on or before May 26, 2021.

ADDRESSES: Interested persons are encouraged to submit comments using the Federal eRulemaking Portal at <http://www.regulations.gov>. Follow the instructions for submitting comments. Alternatively, interested persons may submit comments by email to the following address: *Email: ConsumerBoilers2019STD0036@ee.doe.gov*. Include “Consumer Boilers RFI” and docket number EERE–2019–BT–STD–0036 and/or RIN 1904–AE82 in the subject line of the message. Submit electronic comments in WordPerfect, Microsoft Word, PDF, or ASCII file format, and avoid the use of special characters or any form of encryption. No telefacsimiles (faxes) will be accepted.

Although DOE has routinely accepted public comment submissions through a variety of mechanisms, including postal mail and hand delivery/courier, the Department has found it necessary to make temporary modifications to the comment submission process in light of the ongoing Covid–19 pandemic. DOE is currently accepting only electronic submissions at this time. If a commenter finds that this change poses an undue hardship, please contact Appliance Standards Program staff at (202) 586–1445 to discuss the need for alternative arrangements. Once the Covid–19 pandemic health emergency is resolved, DOE anticipates resuming all of its regular options for public comment submission, including postal mail and hand delivery/courier.
