Petition For Exemption

Docket No.: FAA–2020–1057.

Petitioner: B/E Aerospace—FSI.

Section(s) of 14 CFR Affected:

§§ 25.813(e) and 121.310(f)(6).

Description of Relief Sought: B/E Aerospace—FSI is seeking relief from the requirement that no door may be installed between any passenger seat that is occupiable for takeoff and landing and any passenger emergency exit, such that the door crosses any egress path (including aisles, crossaisles and passageways), as well as the requirement that no person may operate an airplane that incorporates a door installed between any passenger seat occupiable for takeoff and landing and any passenger emergency exit. The petitioner is proposing to install expandable monuments at emergency exits on Boeing Model 777 and Model 787 airplanes and Airbus Model A330 and Model A350 airplanes. The expandable monument is a modular transforming-unit that exploits underutilized areas in the cabin by expanding to provide additional usable space. This is achieved by taking advantage of unused space, unfolding in-flight to provide additional service areas. When the modular units are deployed, they block the emergency exits and the attendant seats, located at the exits.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA–2021–0036]

Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on March 8, 2021, Georgetown Loop Railroad (GLRX) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 230, Steam Locomotive Inspection and Maintenance Standards. FRA assigned the petition Docket Number FRA–2021–0036.

Specifically, GLRX requests relief from 49 CFR 230.16(a)(2), *Fifth annual inspection*, of flexible staybolts and

caps, for a period of one year for locomotive GLRX #111. The locomotive has operated for 375 service days since it entered service in 2016 with a newly constructed boiler. GLRX states that because of the coronavirus disease 2019, GLRX #111 did not incur any service days in 2020. If granted the requested relief, GLRX explains it would perform the required testing at the 2022 annual inspection.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA–2021–0030]

Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on February 25, 2021, Iowa Interstate Railroad (IAIS) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 230, Steam Locomotive Inspection and Maintenance Standards. FRA assigned the petition Docket Number FRA–2021–0030.

Specifically, IAIS requests relief for its steam locomotive IAIS 6988, from 49 CFR 230.17(a), *One thousand four hundred seventy-two (1472) service day inspection*, to extend the 1472 service day inspection (SDI) 106 calendar days from September 5, 2021, to December 20, 2021, if coronavirus disease 2019 (COVID–19) restrictions are reduced to permit servicing and operation. If COVID–19 restrictions are not lifted, and operation is limited or not permitted in 2021, IAIS requests an extension of the 1472 SDI until December 20, 2022, a total of 471 calendar days.

IAIS states that the COVID–19 public health emergency has caused IAIS to halt excursion service, which resulted in IAIS 6988 only accumulating one service day since its 2020 annual inspection. IAIS anticipates operating IAIS 6988 for about 40 service days in 2021. Further, IAIS states that during the extension period, all regularly scheduled maintenance and inspections required will be performed, and the IAIS 6988 will be stored indoors, serviceable, and drained.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in
