

contractual authority in this context. By Delegation Order No. S1-DEL-S4-2021, effective February 25, 2021, the Acting Secretary of Energy delegated to the Under Secretary for Science (and Energy) the authority vested in the Secretary with respect to WAPA. By Redelegation Order No. 00-002.10E, effective February 14, 2020, the Under Secretary of Energy (to whom such authority was delegated by the Secretary of Energy in Delegation Order No. 00-002.00S from January 15, 2020 until that delegation was rescinded on February 25, 2021) redelegated to the Assistant Secretary for Electricity the same authority with respect to WAPA. By Redelegation Order No. 00-002.10-5, effective July 8, 2020, the Assistant Secretary for Electricity redelegated to WAPA's Administrator the same authority with respect to WAPA. However, based upon the governing terms of the existing BCP Electric Service Contract, the Assistant Secretary for Electricity will approve the FY 2022 base charge and rates for BCP electric service. This rate action is issued under the Redelegation Orders and DOE's procedures for public participation in rate adjustments set forth at 10 CFR parts 903 and 904.³ The delegations and redelegations not affirmatively rescinded remain valid.

Availability of Information

All studies, comments, letters, memoranda, and other documents DSW initiates or uses to develop the proposed base charge and rates are available for inspection and copying at the Desert Southwest Customer Service Regional Office, Western Area Power Administration located at 615 South 43rd Avenue, Phoenix, Arizona 85009. Many of these documents and supporting information are also available on WAPA's website at <https://www.wapa.gov/regions/DSW/Rates/Pages/boulder-canyon-rates.aspx>.

Ratemaking Procedure Requirements

Environmental Compliance

WAPA is in the process of determining whether an environmental assessment or an environmental impact statement should be prepared or if this action can be categorically excluded from those requirements.⁴

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2021-0240 FRL-10022-34-OAR]

Technical Documentation for the Temperature Binning Framework

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of document availability and request for comments.

SUMMARY: The Environmental Protection Agency (EPA) is announcing a 30-day public comment period for the draft document titled, "Technical Documentation for the Temperature Binning Framework" (EPA 430-R-21-004). This document provides technical documentation of a framework for analyzing the sector-specific impacts of climate change under different levels of warming. This approach serves as an alternative or complement to traditional scenario-based approaches in order to improve communication of results, comparability between studies, and flexibility to facilitate scenario analysis. The draft technical documentation will

also be subject to external peer review. Prior to finalizing the draft document, EPA intends to carefully consider all comments received from the public and from external peer reviewers. This draft document is not final as described in EPA's information quality guidelines and does not represent and should not be construed to represent Agency policy or views. The draft document is available via the internet on EPA's web page at <https://www.epa.gov/cira/temperature-binning-framework>.

DATES: To ensure your comments are considered for the final version of the document, please submit your comments by May 17, 2021.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-OAR-2021-0240, to the Federal Portal: <https://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or withdrawn. Do not submit electronically any information you consider to be Confidential Business Information (CBI). EPA may publish any comment received to its public docket, submitted to the Federal Portal, or sent via email. For additional submission methods, the full EPA public comment policy, information about CBI, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT: Mr. Jeremy Martinich, Environmental Protection Agency, Office of Air and Radiation, Office of Atmospheric Programs, Climate Change Division, (202) 343-9871, cira@epa.gov.

SUPPLEMENTARY INFORMATION:

Characterizing the future risks of climate change is a key goal of climate impacts analysis. Temperature binning provides a framework for analyzing sector-specific impacts by degree of warming as an alternative or complement to traditional scenario-based approaches. This framework aims to improve communication of results, comparability between studies, flexibility to facilitate scenario analysis, and evaluation of important sources of uncertainty. This technical documentation describes the design, structure, and scientific basis of this framework, including how impact modeling projections for a number of sectors have been built into the framework. Designing analyses with relational temperature-impact functions for a given sector can improve comparability between analyses, yield results in a framework that is more intuitive for communications purposes, and be used to inform capabilities to

flexibly estimate impacts by sector for any desired scenario.

Paul Gunning,

Director, Climate Change Division.

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number.
