II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply—for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

The agency is requesting an adjustment increase of 32,816.66 burden hours (from 5,687,682.00 hours to 5,720,498.66). This increase is a result of updated data showing an increase in the number of facilities (from 700,724 to 701,563) and employees (from 8,399,358 to 8,425,607) affected by the Standard.

The operation and maintenance cost increased \$708,649.41, from \$51,817,985.00 to \$52,526,634.41, due to the increase in medical costs (administration of the Hepatitis B Vaccine and the PEP treatment). This increase is also a result of updated data showing an increase in the number of facilities and employees affected by the Standard.
