

The Commission encourages electronic filing of comments (options 1 and 2 above) and has eFiling staff available to assist you at (202) 502-8258 or [FercOnlineSupport@ferc.gov](mailto:FercOnlineSupport@ferc.gov).

Persons who comment on the environmental review of this project will be placed on the Commission's environmental mailing list, and will receive notification when the environmental documents (EA or EIS) are issued for this project and will be notified of meetings associated with the Commission's environmental review process.

The Commission considers all comments received about the project in determining the appropriate action to be taken. However, the filing of a comment alone will not serve to make the filer a party to the proceeding. To become a party, you must intervene in the proceeding. For instructions on how to intervene, see below.

### Interventions

Any person, which includes individuals, organizations, businesses, municipalities, and other entities,<sup>3</sup> has the option to file a motion to intervene in this proceeding. Only intervenors have the right to request rehearing of Commission orders issued in this proceeding and to subsequently challenge the Commission's orders in the U.S. Circuit Courts of Appeal.

To intervene, you must submit a motion to intervene to the Commission in accordance with Rule 214 of the Commission's Rules of Practice and Procedure<sup>4</sup> and the regulations under the NGA<sup>5</sup> by the intervention deadline for the project, which is April 30, 2021. As described further in Rule 214, your motion to intervene must state, to the extent known, your position regarding the proceeding, as well as your interest in the proceeding. For an individual, this could include your status as a landowner, ratepayer, resident of an impacted community, or recreationist. You do not need to have property directly impacted by the project in order to intervene. For more information about motions to intervene, refer to the FERC website at <https://www.ferc.gov/resources/guides/how-to/intervene.asp>.

All timely, unopposed motions to intervene are automatically granted by operation of Rule 214(c)(1). Motions to intervene that are filed after the intervention deadline are untimely and may be denied. Any late-filed motion to intervene must show good cause for being late and must explain why the

time limitation should be waived and provide justification by reference to factors set forth in Rule 214(d) of the Commission's Rules and Regulations. A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies (paper or electronic) of all documents filed by the applicant and by all other parties.

There are two ways to submit your motion to intervene. In both instances, please reference the Project docket number (CP21-94-000) in your submission.

(1) You may file your motion to intervene by using the Commission's eFiling feature, which is located on the Commission's website ([www.ferc.gov](http://www.ferc.gov)) under the link to Documents and Filings. New eFiling users must first create an account by clicking on "eRegister." You will be asked to select the type of filing you are making; first select "General" and then select "Intervention." The eFiling feature includes a document-less intervention option; for more information, visit <https://www.ferc.gov/docsfiling/efiling/document-less-intervention.pdf>; or

(2) You can file a paper copy of your motion to intervene, along with three copies, by mailing the documents to the address below.<sup>6</sup> Your motion to intervene must reference the Project docket number (CP21-94-000).

Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426

Any subsequent submissions by an intervenor must be served on the applicant and all other parties to the proceeding. Contact information for parties can be downloaded from the service list at the eService link on FERC Online. Service can be via email with a link to the document.

### Tracking the Proceeding

Throughout the proceeding, additional information about the project will be available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC website at [www.ferc.gov](http://www.ferc.gov) using the "eLibrary" link as described above. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. For more information and to register, go to [www.ferc.gov/docsfiling/esubscription.asp](http://www.ferc.gov/docsfiling/esubscription.asp).

**SUPPLEMENTARY INFORMATION:**

*Title:* FERC–582, Electric Fees, Annual Charges, Waivers, and Exemptions.

*OMB Control No.:* 1902–0132.

*Type of Request:* Three-year extension of the FERC–582 information collection requirements with no changes to the current reporting requirements.

*Abstract:* The information required by FERC–582 is contained in Title 18 Code of Federal Regulations (CFR) parts 381<sup>1</sup> and 382.<sup>2</sup>

The Commission uses the FERC–582 to implement the statutory provisions of the Independent Offices Appropriation Act of 1952 (IOAA)<sup>3</sup> which authorizes the Commission to establish fees for its services. In addition, the Omnibus Budget Reconciliation Act of 1986 (OBRA)<sup>4</sup> authorizes the Commission to assess and collect fees and annual charges in any fiscal year in amounts equal to all the costs incurred by the Commission in that fiscal year.

To comply with the FERC–582, respondents submit to the Commission the sum of the megawatt-hours (MWh) of all unbundled transmission (including MWh delivered in wheeling transactions and MWh delivered in exchange transactions) and the megawatt-hours of all bundled

wholesale power sales (to the extent the bundled wholesale power sales were not separately reported as unbundled transmission). The data collected in the FERC–582 are drawn directly from the FERC Form 1 (Annual Report of Major Electric Utilities, Licensees and Others)<sup>5</sup> transmission data. The Commission sums the costs of its electric regulatory program and subtracts all electric regulatory program filing fee collections to determine the total collectible electric regulatory program costs. Then, the Commission uses the data submitted under FERC–582 to determine the total megawatt-hours of transmission of electric energy in interstate commerce. Respondents (public utilities and power marketers) subject to these annual charges must submit FERC–582 data to the Commission by April 30 of each year.<sup>6</sup> The Commission issues bills for annual charges to respondents. Then, respondents must pay the charges within 45 days of the Commission's issuance of the bill.

Respondents file requests for waivers and exemptions of fees and charges<sup>7</sup> based on need. The Commission's staff uses the filer's financial information to evaluate the request for a waiver or exemption of the obligation to pay a fee or an annual charge.

**Estimate of Annual Burden:**<sup>8</sup> Due to the reduction in respondents the Commission estimates the burden and cost<sup>9</sup> for this information collection as follows.

**FERC–582, ELECTRIC FEES, ANNUAL CHARGES, WAIVERS, AND EXEMPTIONS DOCKET NO. IC21–16–000<sup>10</sup>**

Number of respondents	Annual number of responses per respondent	Total number of responses	Average burden & cost per response	Total annual burden hrs. & cost	Cost per respondent
(1)	(2)	(1) x (2) = (3)	(4)	(3) * (4) = (5)	(5) / (1) = (5)
53 .....	1	53	2.39 hrs.; ..... \$198.37 .....	126.67 hrs.; ..... \$10,513.61 .....	\$198.37

**Comments:** Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate

of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those

who are to respond, including the use of automated collection techniques or other forms of information technology.

<sup>6</sup> 18 CFR 382.201.

<sup>7</sup> 18 CFR parts 381 and 382.

<sup>8</sup> Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, refer to 5 CFR part 1320.

<sup>9</sup> The Commission staff estimates that the average respondent for this collection is similarly situated to the Commission, in terms of salary plus benefits.

Based on FERC's 2020 annual average of \$172,329 (for salary plus benefits), the average hourly cost is \$83/hour.

<sup>10</sup> This includes requirements of 18 CFR 381.105 (methods of payment), 381.106 (waiver), 381.108 (exemption), 381.302 (declaratory order), 381.303 (review of DOE remedial order), 381.304 (DOE denial of adjustment), and 381.305 (OGC interpretation).
