and the Atomic Energy Act of 1954, as amended.

6. Who will be required or asked to respond: Applicants who apply for an early site permit (ESP), combined license (COL) or a construction permit (CP) or operating license (OL) on or after January 10, 1997.

7. The estimated number of annual responses: 0.66.

8. The estimated number of annual respondents: 0.66.

9. The estimated number of hours needed annually to comply with the information collection requirement or request: 48,180 hours (73,000 hours per application × 0.66 applications).

10. Abstract: 10 CFR part 100, “Reactor Site Criteria,” establishes approval requirements for proposed sites for the purpose of constructing and operating stationary power and testing reactors. Subpart B, “Evaluation Factors for Stationary Power Reactor Site Applications on or After January 10, 1997,” requirements apply to applicants who apply for an ESP, COL or a CP or OL on or after January 10, 1997. This clearance is necessary since the NRC is expecting approximately two COL applications over the next 3 years. The applicants must provide information regarding the physical characteristics of the site in addition to the potential for natural phenomena and man-made hazards. This includes information on meteorological hazards (such as hurricanes, tornadoes, snowfall, and extreme temperatures), hydrologic hazards (such as floods, tsunami, and seiches) geologic hazards (such as faulting, seismic hazards, and the maximum credible earthquake) and factors such as population density, the proximity of man-related hazards (e.g., airports, dams, transportation routes, military and chemical facilities), and site hydrological and atmospheric dispersion characteristics. The NRC staff reviews the submitted information and, if necessary, generates a request for additional information. The staff meets with the applicant and conducts a site visit to resolve any open issues. When the open issues have been resolved, the staff writes the final safety evaluation report, which is published and used as a basis for the remainder of the NRC licensing process.

Dated: April 15, 2021.

For the Nuclear Regulatory Commission.

David C. Cullison,
NRC Clearance Officer, Office of the Chief Information Officer.

III. Notice of Filing

The Commission will continue to use Docket No. MT2019–1 to consider matters raised by the Postal Service’s Request. The Commission invites comments on whether the Request complies with applicable statutory and regulatory requirements, including 39 U.S.C. 3641, 39 CFR part 3045, and Order No. 5239. Comments are due by May 14, 2021. The public portions of filings in this docket can be accessed via the Commission’s website (http://www.prc.gov).

39 U.S.C. 505 requires the Commission to designate an officer of the Commission to represent the interests of the general public in all public proceedings (Public Representative). The Commission previously appointed Gregory Stanton to serve as the Public Representative in this proceeding. He remains appointed to serve as the Public Representative.

IV. Ordering Paragraphs

It is ordered:

1. Pursuant to 39 U.S.C. 505, Gregory Stanton remains appointed to serve as the Public Representative in this proceeding.

2. Comments are due by May 14, 2021.

3. The Secretary shall arrange for publication of this Order in the Federal Register.

By the Commission.

Erica A. Barker,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend Rule 7.37–E

April 14, 2021.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”) and Rule 19b–4 thereunder, notice is hereby given that, on April 1, 2021, NYSE Arca, Inc. ("NYSE Arca" or the "Exchange") filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Rule 7.37–E to specify when the Exchange may adjust its calculation of the PBBO. The proposed rule change is available on the Exchange’s website at www.nyse.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Rule 7.37–E to specify when the Exchange may adjust its calculation of the PBBO.

Generally, the Exchange updates both the PBBO and NBBO based on quote updates received from data feeds from Away Markets, which are disclosed in Rule 7.37–E(d). In 2015, the Exchange described in a rule filing that when it routes interest to a protected quotation, the Exchange adjusts the PBBO. The Exchange proposes to amend its rules to include that description in Rule 7.37–E and provide additional specificity of when it may adjust its calculation of the PBBO.

As proposed, new paragraph (d)(2) of Rule 7.37–E would provide:

The Exchange may adjust its calculation of the PBBO based on information about orders it sends to Away Markets with protected quotations, execution reports received from those Away Markets, and certain orders received by the Exchange.

Proposed Rule 7.37–E(d)(2) is based on MEMX LLC (“MEMX”) Rule 13.4(b) with two non-substantive differences. First, the Exchange proposes to use the term “PBBO,” which is the term used in the Exchange’s rules for the best-priced...
