

Additional Information: Due to COVID-19, there will be no physical public attendance. The public is invited to attend the Commission's meeting live by webcast at the Web address—<https://video.nrc.gov/>.

CONTACT PERSON FOR MORE INFORMATION: For more information or to verify the status of meetings, contact Wesley Held at 301-287-3591 or via email at Wesley.Held@nrc.gov. The schedule for Commission meetings is subject to change on short notice.

The NRC Commission Meeting Schedule can be found on the internet at: <https://www.nrc.gov/public-involve/public-meetings/schedule.html>.

The NRC provides reasonable accommodation to individuals with disabilities where appropriate. If you need a reasonable accommodation to participate in these public meetings or need this meeting notice or the transcript or other information from the public meetings in another format (e.g., braille, large print), please notify Anne Silk, NRC Disability Program Specialist, at 301-287-0745, by videophone at 240-428-3217, or by email at Anne.Silk@nrc.gov. Determinations on requests for reasonable accommodation will be made on a case-by-case basis.

Members of the public may request to receive this information electronically. If you would like to be added to the distribution, please contact the Nuclear Regulatory Commission, Office of the Secretary, Washington, DC 20555, at 301-415-1969, or by email at Tyesha.Bush@nrc.gov.

The NRC is holding the meetings under the authority of the Government in the Sunshine Act, 5 U.S.C. 552b.

Dated: April 15, 2021.

For the Nuclear Regulatory Commission.

Wesley W. Held,

Policy Coordinator, Office of the Secretary.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2020-0170]

Information Collection: Reactor Site Criteria

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of submission to the Office of Management and Budget; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) recently submitted a request for renewal of an existing collection of information to the Office of

Management and Budget (OMB) for review. The information collection is entitled, "Reactor Site Criteria."

DATES: Submit comments by May 20, 2021. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting "Currently under Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: David Cullison, NRC Clearance Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-2084; email: INFOCOLLECTS.Resource@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2020-0170 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov/> and search for Docket ID NRC-2020-0170. A copy of the collection of information and related instructions may be obtained without charge by accessing Docket ID NRC-2020-0170 on this website.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The supporting statement is available in ADAMS under Accession Nos. ML21041A452.

- *Attention:* The PDR, where you may examine and order copies of public documents, is currently closed. You may submit your request to the PDR via email at pdr.resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8:00 a.m. and 4:00 p.m. (EST), Monday through Friday, except Federal holidays.

- *NRC's Clearance Officer:* A copy of the collection of information and related instructions may be obtained without charge by contacting the NRC's Clearance Officer, David Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-2084; email: INFOCOLLECTS.Resource@nrc.gov.

B. Submitting Comments

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov/> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, "Reactor Site Criteria." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on December 10, 2020, (85 FR 79532).

1. *The title of the information collection:* "Reactor Site Criteria".
2. *OMB approval number:* 3150-0093.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* N/A.

5. *How often the collection is required or requested:* As necessary in order for the NRC to assess the adequacy of proposed seismic design bases and the design bases for other site hazards for nuclear power and test reactors constructed and licensed in accordance with Parts 50 and 52 of title 10 of the Code of Federal Regulations (10 CFR)

and the Atomic Energy Act of 1954, as amended.

6. *Who will be required or asked to respond:* Applicants who apply for an early site permit (ESP), combined license (COL) or a construction permit (CP) or operating license (OL) on or after January 10, 1997.

7. *The estimated number of annual responses:* 0.66.

8. *The estimated number of annual respondents:* 0.66.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 48,180 hours (73,000 hours per application × 0.66 applications).

10. *Abstract:* 10 CFR part 100, “Reactor Site Criteria,” establishes approval requirements for proposed sites for the purpose of constructing and operating stationary power and testing reactors. Subpart B, “Evaluation Factors for Stationary Power Reactor Site Applications on or After January 10, 1997,” requirements apply to applicants who apply for an ESP, COL or a CP or OL on or after January 10, 1997. This clearance is necessary since the NRC is expecting approximately two COL applications over the next 3 years. The applicants must provide information regarding the physical characteristics of the site in addition to the potential for natural phenomena and man-made hazards. This includes information on meteorological hazards (such as hurricanes, tornadoes, snowfall, and extreme temperatures), hydrologic hazards (such as floods, tsunami, and seiches) geologic hazards (such as faulting, seismic hazards, and the maximum credible earthquake) and factors such as population density, the proximity of man-related hazards (*e.g.*, airports, dams, transportation routes, military and chemical facilities), and site hydrological and atmospheric dispersion characteristics. The NRC staff reviews the submitted information and, if necessary, generates a request for additional information. The staff meets with the applicant and conducts a site visit to resolve any open issues. When the open issues have been resolved, the staff writes the final safety evaluation report, which is published and used as a basis for the remainder of the NRC licensing process.

Dated: April 15, 2021.

For the Nuclear Regulatory Commission.

David C. Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7590-01-P

POSTAL REGULATORY COMMISSION

[Docket No. MT2019-1; Order No. 5870]

Market Test of Experimental Product

AGENCY: Postal Regulatory Commission.

ACTION: Notice.

SUMMARY: The Commission is recognizing a recently filed Postal Service request for extension of the Market Test of Experimental Product—Plus One. This notice informs the public of the filing, invites public comment, and takes other administrative steps.

DATES: *Comments are due:* May 14, 2021.

ADDRESSES: Submit comments electronically via the Commission’s Filing Online system at <http://www.prc.gov>. Those who cannot submit comments electronically should contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section by telephone for advice on filing alternatives.

FOR FURTHER INFORMATION CONTACT: David A. Trissell, General Counsel, at 202-789-6820.

SUPPLEMENTARY INFORMATION:

Table of Contents

- I. Introduction
- II. Background
- III. Notice of Filing
- IV. Ordering Paragraphs

I. Introduction

On September 20, 2019, the Commission authorized the Postal Service to proceed with a 2-year market test of an experimental product called Plus One, which is scheduled to expire on September 30, 2021.¹ Plus One is an advertising card that is mailed as an add-on mailpiece with a USPS Marketing Mail Letters marriage mail envelope containing multiple advertising mailpieces.² On April 13, 2021, the Postal Service filed a request pursuant to 39 U.S.C. 3641 and 39 CFR 3045.11 to extend the duration of the Plus One market test.³

II. Background

The Postal Service requests a 12-month extension of the Plus One market test, which if approved would set a new expiration date of September 30, 2022. Request at 2. It asserts that the Plus One market test meets the criteria for

¹ Order Authorizing Plus One Market Test, September 20, 2019, at 15 (Order No. 5239).

² United States Postal Service Notice of Market Test of Experimental Product—Plus One, August 13, 2019, at 1.

³ United States Postal Service Request for Extension of Market Test, April 13, 2021 (Request).

granting an extension under 39 U.S.C. 3641(d)(2) and 39 CFR 3045.11. *Id.* at 1. It states that the extension is “necessary to determine the feasibility or desirability of the [Plus One] experimental product and inform any Postal Service decision to create a permanent product.” *Id.*

The Postal Service asserts that the extension is necessary for three reasons. First, the market test began right before the first wave of the COVID-19 pandemic in the United States, which disrupted all mail generally and USPS Marketing Mail specifically. *Id.* at 2. It states that the sharp decline in USPS Marketing Mail affected Plus One volumes and limited the Postal Service’s ability to collect data for a full year. *Id.* It notes that it needs more time to collect meaningful data to compensate for the decline in mail volume that occurred during the pandemic. *Id.*

Second, the Postal Service asserts that if it decides to add Plus One to the Market Dominant product list as a permanent product, it would need more time to finalize the criteria for the permanent product and to program Information Technology solutions to manage the permanent product. *Id.* The Postal Service notes that mailers would also need time to adjust their own systems accordingly. *Id.* Third, the Postal Service states that it “would like to minimize any potential gap between the end of the market test’s operational run and the availability of a potential, new, permanent product.” *Id.* It notes that such a gap could limit small businesses from advertising with the product and impede the ability of current Plus One users to maintain their client base. *Id.*

In the Request, the Postal Service provides information required by 39 CFR 3045.11(b)(3) and (b)(4). It states the total revenue received by the Postal Service from the Plus One market test was \$4.87 million during FY 2020 and \$2.05 million during FY 2021, Quarter 1. *Id.* at 2–3. It estimates that it will collect \$7.70 million during FY 2021 if market trends and customer adoption metrics reflected in the FY 2021, Quarter 1 data collection report continue through FY 2021. *Id.* at 3. It estimates it will receive \$10.8 million through FY 2022. *Id.*

The Postal Service concludes that the Plus One market test meets the criteria for an extension and asks that the Commission grant the extension to allow the Postal Service to continue collecting Plus One market test data and determine the feasibility and desirability of the experimental product. *Id.*
