

communities to take a new, proactive approach to improving local hazardous weather operations by providing emergency managers with clear-cut guidelines on how to improve their hazardous weather operations. By participating in this program, local agencies earn recognition for their jurisdiction by meeting guidelines established by the NWS in partnership with federal, state, and local emergency management professionals. Information and details on the StormReady and TsunamiReady programs are located at <https://www.weather.gov/stormready/> and <https://www.weather.gov/tsunamiready/>.

A Supporter is an organization, business, facility, or local government entity actively engaged in weather safety and preparedness that is unable to meet all the requirements of the full StormReady or TsunamiReady program. Sites may be eligible based on the bylaws of the local NWS StormReady Advisory Board and endorsement of local emergency management. A local StormReady Advisory Board has final approval for Supporter designation.

StormReady/TsunamiReady are voluntary programs that provide guidance and incentive to officials interested in improving their hazardous weather operations. The government will use the information collected by the StormReady/TsunamiReady application to determine whether a community has met all of the guidelines to receive StormReady/TsunamiReady recognition.

II. Method of Collection

The information is collected via a digital or paper form. The form is accessible on the internet in PDF. Requirements are verified by NWS staff via an in person or virtual site visit.

III. Data

OMB Control Number: 0648–0419.

Form Number(s): None.

Type of Review: Regular. Extension of a current information collection.

Affected Public: Government agencies, Tribal Nations, businesses or other for profit organizations.

Estimated Number of Respondents: 125 per year.

Estimated Time per Response: 1 hour for application; 1 hour to meet with National Weather Service representative.

Estimated Total Annual Burden Hours: 250 hours.

Estimated Total Annual Cost to Public: None.

Respondent's Obligation: Voluntary.

Legal Authority: None.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Pacific Islands Region Seabird-Fisheries Interaction Recovery Reporting

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed and continuing information

collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before June 21, 2021.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at Adrienne.thomas@noaa.gov. Please reference OMB Control Number 0648–0456 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Walter Ikehara, Fishery Information Specialist, NMFS Pacific Islands Region, 1845 Wasp Blvd., Bldg. 176, Honolulu, HI 96818, (808) 725–5175, walter.ikehara@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for an extension of a currently approved information collection.

The National Marine Fisheries Service (NMFS) implemented Federal regulations at 50 CFR 665.815(b) requiring Hawaii-based longline fisherman to safely handle and release short-tailed albatrosses (*Phoebastria albatrus*) (STAL) caught incidentally during fishing operations. These regulations satisfy the Terms and Conditions of the U.S. Fish and Wildlife Service's (USFWS) November 2000 "Biological Opinion for the Effects of the Hawaii-based Longline Fleet on the Short-tailed Albatross (*Phoebastria albatrus*) [FWS 1–2–1999–F–02R]" (revised November 18, 2002, October 8, 2004, and January 6, 2012) (BiOp) issued pursuant to Section 7 of the Endangered Species Act (ESA). Following the retrieval of the albatross from the ocean, the vessel operator must record the condition of the bird on a recovery data form. A veterinarian will use the information to provide advice to the vessel operator for caring for the bird. If the albatross is dead, the vessel operator must attach an identification tag to the carcass to assist U.S. Fish and Wildlife Service (USFWS) biologists in follow-up studies on the specimen. This collection is one of the terms and conditions contained in the Endangered Species Act Section 7 biological opinion

issued by USFWS and is intended to maximize the probability of the long-term survival of short-tailed albatross accidentally taken by longline gear.

II. Method of Collection

Respondents have a choice of either electronic or paper forms. Methods of submittal include email or electronic forms, or mail or facsimile transmission of paper forms within 72 hours of landing.

III. Data

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; North Pacific Observer Program Safety and Security Survey

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on November 23, 2020 (85 FR 74694) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic Atmospheric Administration (NOAA).

Title: North Pacific Observer Program Safety and Security Survey.

OMB Control Number: 0648–0759.

Form Number(s): None.

Type of Request: Regular submission [extension of a current information collection].

Number of Respondents: 300.

Average Hours Per Response: 10 minutes.

Total Annual Burden Hours: 50.

Needs and Uses: NMFS certified observers are a vital part of fisheries management. Observers are deployed to collect fisheries data in the field; observers often deploy to vessels and work alongside fishers for weeks and months at a time. The work environment observers find themselves in can be challenging, especially if the observer finds themselves a target for victim type violations such as sexual harassment, intimidation, or even assault. NOAA Fisheries' Office of Law Enforcement prioritizes investigations

into allegations of sexual harassment, hostile work environment, assault and other complaints which may affect observers individually. However, it is difficult for a person to disclose if they have been a victim of a crime, and law enforcement cannot respond if no complaint is submitted. The true number of observers who have experienced victim type crimes is unknown, and the reasons why they do not report is also unclear. More information is needed to understand how many observers per year experience victim type crimes, and why they chose not to report to law enforcement.

The survey will also investigate the reasons that prevented observers from reporting these violations. The results of the survey will provide the Office of Law Enforcement a better understanding of how often observers are victimized, which will enable them to reallocate resources as needed, conduct more training for observers to ensure they know how to report, conduct training to ensure people understand what constitutes a victim crime, and to increase awareness of potential victimizations. Additionally, the survey results will help law enforcement understand the barriers to disclosure, so enforcement may begin to address these impediments so they no longer prevent observers from disclosure.

Affected Public: Federal Government.

Frequency: Annual.

Respondent's Obligation: Voluntary.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act.
