##### II. Background

FEMA seeks this input pursuant to  
the processes required specifically by  
Executive Orders 13985, 13990, and  
14008 that require agencies to assess  
existing programs and policies to  
determine if: (1) Agency programs and  
policies perpetuate systemic barriers to  
opportunities and benefits for people of  
color and other underserved groups; (2)  
additional agency actions are required  
to bolster resilience to climate change;  
and (3) agency programs, policies, and  
activities address the disproportionately  
high and adverse climate-related  
impacts on disadvantaged communities.  
Consistent with Executive Order 13563  
and Executive Order 13707, FEMA  
further seeks this input to ensure that it  
is implementing its programs in a  
manner that builds disaster readiness  
and closes national capability gaps  
through data-driven approaches and  
risk-informed preparedness and  
mitigation investments as well as in  
delivering the Agency's response and  
recovery mission sets.

On January 20, 2021, the President  
issued Executive Order 13985,  
“Advancing Racial Equity and Support  
for Underserved Communities Through  
the Federal Government,”<sup>1</sup> designed to  
pursue a comprehensive approach to  
advancing equity for all, including  
people of color and others who have  
been historically underserved,  
marginalized, and adversely affected by  
persistent poverty and inequality. The  
Executive order defines “equity” as the  
consistent and systemic fair, just, and  
impartial treatment of all individuals,  
including individuals who belong to  
underserved communities that have  
been denied such treatment, such as:  
Black, Latino, and Indigenous and  
Native American persons, Asian  
Americans and Pacific Islanders and  
other persons of color; members of  
religious minorities; lesbian, gay,  
bisexual, transgender, and queer  
(LGBTQ+) persons; persons with

disabilities; persons who live in rural  
areas; and persons otherwise adversely  
affected by persistent poverty or  
inequality. It defines “underserved  
communities” as “populations sharing a  
particular characteristic, as well as  
geographic communities, that have been  
systematically denied a full opportunity  
to participate in aspects of economic,  
social, and civic life, as exemplified by  
the list in the preceding definition of  
‘equity.’”

Executive Order 13985 further  
requires each agency to assess whether,  
and to what extent, its programs and  
policies perpetuate systemic barriers to  
opportunities and benefits for people of  
color and other underserved groups  
with the goal of developing policies and  
programs that deliver resources and  
benefits equitably to all. The Executive  
order requires agencies to consult with  
members of communities that have been  
historically underrepresented in the  
Federal Government and underserved  
by, or subject to discrimination, in  
Federal policies and programs.

On the same day, the President issued  
Executive Order 13990 “Protecting  
Public Health and the Environment and  
Restoring Science to Tackle the Climate  
Crisis.”<sup>2</sup> The order requires agencies to  
review and take action to address the  
promulgation of Federal regulations and  
other actions in conflict with the  
objectives of improving public health  
and protecting the environment by,  
among other things, bolstering resilience  
to the impacts of climate change. In  
taking these actions, agencies were  
directed to seek input from the public  
and stakeholders, including: State, local,  
Tribal, and territorial officials;  
scientists; labor unions; environmental  
advocates; and environmental justice  
groups.

Finally, on January 27, 2021, the  
President issued Executive Order 14008  
“Tackling the Climate Crisis at Home  
and Abroad.”<sup>3</sup> This order directs  
agencies to move quickly to build  
resilience, at home and abroad, against  
impacts of climate change and to  
prioritize action on climate change in  
policymaking. Additionally, the order  
requires agencies to develop programs,  
policies, and activities to deliver  
environmental justice and address the  
disproportionately high and adverse  
climate-related impacts on  
disadvantaged communities. To  
facilitate these actions, agencies are  
required to engage with State, local,  
Tribal, and territorial governments;
