**Purpose(s)**

This matching program establishes the conditions under which CMS will disclose to SSA certain individuals’ admission and discharge information for care received in a nursing care facility. Nursing care facility, for purposes of this agreement, means certain facilities referenced in CMS’ Long Term Care-Minimum Data Set System Number 09–70–0528 (LTC/MDS). SSA will use this information to administer the SSI program efficiently and to identify SVB beneficiaries who are no longer residing outside of the United States.

**Categories of Individuals**

The category of individuals involved in this matching agreement are individuals who have been admitted or discharged for care received in a nursing care facility.

**Categories of Records**

SSA will provide CMS with a monthly finder file, which will be extracted from SSA’s SSI and SVB’s records. The finder file will consist of data elements related to an individual’s SSI/SVB eligibility. CMS will match the SSA finder file against data maintained pursuant to the LTC/MDS system of records (SOR).

**System(s) of Records**

SSA will provide CMS with a finder file on a monthly basis, which will be extracted from Supplemental Security Income Record and Special Veterans Benefits, SOR 60–0103, last fully published on January 11, 2006 (71 FR 1830), as amended on December 10, 2007 (72 FR 69723), July 3, 2018 (83 FR 31250–31251), and November 1, 2018 (83 FR 54969).

**DEPARTMENT OF TRANSPORTATION**

Federal Motor Carrier Safety Administration

**Qualification of Drivers; Exemption Applications; Epilepsy and Seizure Disorders**

**AGENCY:** Federal Motor Carrier Safety Administration (FMCSA), Department of Transportation (DOT).

**ACTION:** Notice of renewal of exemptions; request for comments.

**SUMMARY:** FMCSA announces its decision to renew exemptions for 11 individuals from the requirement in the Federal Motor Carrier Safety Regulations (FMCSR) that interstate commercial motor vehicle (CMV) drivers have “no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause loss of consciousness or any loss of ability to control a CMV.” The exemptions enable these individuals who have had one or more seizures and are taking anti-seizure medication to continue to operate CMVs in interstate commerce.

**DATES:** The exemptions are applicable on April 30, 2021. The exemptions expire on April 30, 2023. Comments must be received on or before May 24, 2021.

II. Background

Under 49 U.S.C. 31136(e) and 31315(b), FMCSA may grant an exemption from the FMCSRs for no longer than a 5-year period if it finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption. The statute also allows the Agency to renew exemptions at the end of the 5-year period. FMCSA grants medical exemptions from the FMCSRs for a 2-year period to align with the maximum duration of a driver’s medical certification.

The physical qualification standard for drivers regarding epilepsy found in 49 CFR 391.41(b)(8) states that a person is physically qualified to drive a CMV if that person has no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause the loss of consciousness or any loss of ability to control a CMV.

In addition to the regulations, FMCSA has published advisory criteria to assist Medical Examiners in determining whether drivers with certain medical conditions are qualified to operate a CMV in interstate commerce.

The 11 individuals listed in this notice have requested renewal of their exemptions from the epilepsy and seizure disorders prohibition in §391.41(b)(8), in accordance with FMCSA procedures. Accordingly, FMCSA has evaluated these applications for renewal on their merits and decided to extend each exemption for a renewable 2-year period.

III. Request for Comments

Interested parties or organizations possessing information that would otherwise show that any, or all, of these drivers are not currently achieving the statutory level of safety should immediately notify FMCSA. The Agency will evaluate any adverse evidence submitted and, if safety is being compromised or if continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315(b), FMCSA will take immediate steps to revoke the exemption of a driver.

IV. Basis for Renewing Exemptions

In accordance with 49 U.S.C. 31136(e) and 31315(b), each of the 11 applicants...
has satisfied the renewal conditions for obtaining an exemption from the epilepsy and seizure disorders prohibition. The 11 drivers in this notice remain in good standing with the Agency, have maintained their medical monitoring and have not exhibited any medical issues that would compromise their ability to safely operate a CMV during the previous 2-year exemption period. In addition, for Commercial Driver’s License (CDL) holders, the Commercial Driver’s License Information System and the Motor Carrier Management Information System are searched for crash and violation data. For non-CDL holders, the Agency reviews the driving records from the State Driver’s Licensing Agency. These factors provide an adequate basis for predicting each driver’s ability to continue to safely operate a CMV in interstate commerce. Therefore, FMCSA concludes that extending the exemption for each renewal applicant for a period of 2 years is likely to achieve a level of safety equal to that existing without the exemption.

As of April 30, 2021, and in accordance with 49 U.S.C. 31136(e) and 31315(b), the following 11 individuals have satisfied the renewal conditions for obtaining an exemption from the epilepsy and seizure disorders prohibition in the FMCSR for interstate CMV drivers:

Kevin Addington (PA)
Ryan Babler (WI)
Mark Beery (OH)
Jose Cabrera (CA)
Miodrag Djukanovic (IL)
Bradley Hollister (PA)
Sheldon Martin (NY)
Larry Nicholson (NC)
Edgar Snapp (IN)
Michael Shumake (VA)
Daniel Zielinski (OR)

V. Conditions and Requirements

The exemptions are extended subject to the following conditions: (1) Each driver must remain seizure-free and maintain a stable treatment during the 2-year exemption period; (2) each driver must submit annual reports from their treating physicians attesting to the stability of treatment and that the driver has remained seizure-free; (3) each driver must undergo an annual medical examination by a certified ME, as defined by §390.5; and (4) each driver must provide a copy of the annual medical certification to the employer for retention in the driver’s qualification file, or keep a copy of his/her driver’s qualification file if he/she is self-employed. The driver must also have a copy of the exemption when driving, for presentation to a duly authorized Federal, State, or local enforcement official. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315(b).

VI. Preemption

During the period the exemption is in effect, no State shall enforce any law or regulation that conflicts with this exemption with respect to a person operating under the exemption.

VII. Conclusion

Based on its evaluation of the 11 exemption applications, FMCSA renews the exemptions of the aforementioned drivers from the epilepsy and seizure disorders prohibition in §391.41(b)(8). In accordance with 49 U.S.C. 31136(e) and 31315(b), each exemption will be valid for 2 years unless revoked earlier by FMCSA.

Larry W. Minor,
Associate Administrator for Policy.

Petition for Waiver of Compliance

Specifically, DTO seeks relief from the 2-year periodic testing requirements in 49 CFR 236.377, Approach locking; 49 CFR 236.378, Time locking; 49 CFR 236.379, Route locking; 49 CFR 236.380, Indication locking; and 49 CFR 236.381, Traffic locking. DTO also requests relief from the 1-year periodic testing period of 49 CFR 236.109, Time releases, timing relays, and timing devices, on all vital microprocessor-based systems.

DTO states that all control points and other locations are controlled by solid-state vital microprocessor-based systems, which utilize programmed logic equations in lieu of relays or other mechanical components for control of both vital and non-vital functions. DTO further states that the logic does not change once a microprocessor-based system has been tested and that locking tests are documented on installation.
