The full text of the Order is available online by using the search function for MB Docket No. 21-118 on the Commission's ECFS web page at www.fcc.gov/ecfs.

Summary of the Hearing Designation Order

1. The Order commences a hearing proceeding before the Commission to determine whether the application filed

by Vandalia Media Partners 2, LLC (Vandalia) to renew the license for radio station WJEH(AM), Gallipolis, Ohio (WJEH Renewal Application) should be granted pursuant to section 309(k)(1) of the Communications Act of 1934 (Act), 47 U.S.C. 309(k)(1). The WJEH Renewal Application is designated for hearing based on the station's record of extended silence and operation at significantly reduced power during and following its license term.

2. A broadcast licensee's authorization to use radio spectrum in the public interest carries with it the obligation that the station serves its community, providing programming responsive to local needs and interests. Broadcast licensees also are required to operate in compliance with the Act and the Commission's rules (Rules). These requirements include the obligation to transmit potentially lifesaving national level Emergency Alert System (EAS) messages in times of emergency and to engage in periodic tests to ensure that their stations are equipped to do so.

3. The basic duty of broadcast licensees to serve their communities is reflected in the license renewal provisions of the Act. In 1996, Congress revised the Commission's license renewal process and the renewal standards for broadcast stations by adopting section 309(k) of the Act, 47 U.S.C. 309(k). Section 309(k)(1) of the Act, 47 U.S.C. 309(k)(1), provides that the Commission shall grant a license renewal application if it finds, with respect to the applying station, that during the preceding license term: (a) The station has served the public interest, convenience, and necessity; (b) there have been no serious violations by the licensee of the Act or the Rules; and (c) there have been no other violations by the licensee of the Act or the Rules which, taken together, would constitute a pattern of abuse. Section 309(k)(2) of the Act, 47 U.S.C. 309(k)(2), provides that if a station fails to meet the foregoing standard, the Commission may deny the renewal application pursuant to Section 309(k)(3), 47 U.S.C. 309(k)(3), or grant the application on appropriate terms and conditions, including a short-term renewal. Section 309(k)(3) of the Act, 47 U.S.C. 309(k)(3), provides that if the Commission determines, after notice and opportunity for hearing, that the licensee has failed to meet the standard of section 309(k)(1), 47 U.S.C. 309(k)(1), and that no mitigating factors justify the imposition of lesser sanctions, the Commission shall issue an order denying the license renewal application for the station.

4. Section 312(g) of the Act, 47 U.S.C. 312(g), provides that if a broadcasting station fails to transmit broadcast signals for any consecutive 12-month period, then the station license granted for the operation of that broadcast station expires at the end of that period, notwithstanding any provision, term, or condition of the license to the contrary, except that the Commission may extend or reinstate such station license if the holder of the station license prevails in an administrative or judicial appeal, the applicable law changes, or for any other reason to promote equity and fairness. As an attempt to avoid license expiration, stations have resumed operations for short periods of time, in some cases one or two days, or operated at significantly reduced power, before the one-year period of silence concludes. This practice raises a question of whether license renewal is in the public interest if the station has been silent for most or all of the license term or has not served the community of license consistent with the license authorization.

5. WJEH(AM) (Station) was licensed to Vandalia on December 31, 2019 as a Class D AM station serving Gallipolis, Ohio. The Station was silent from December 31, 2019 through the end of the license term. After the conclusion of the license term, the Station resumed operations at 10% of the power output authorized by its license. Due to the Station's extended silence and operation at significantly reduced power, we are unable to find that grant of the renewal application is in the public interest.

6. Section 309(k)(3) of the Act, 47 U.S.C. 309(k)(3), requires "notice and opportunity for a hearing as provided in subsection (e)." Section 309(e), 47 U.S.C. 309(e), requires a "full hearing in which the applicant and all other parties in interest shall be permitted to participate." The Commission and courts have held that the hearing need not be a trial-type evidentiary hearing meeting the standards of sections 554 and 556 of the Administrative Procedure Act, 5 U.S.C. 554, 556. The Commission has repeatedly observed that trial-type hearings impose significant burdens and delays, both on applicants and the agency.

7. Based on the information before us, we believe this matter can be adequately resolved on a written record, or a "paper" hearing. The Commission recently supplemented its formal hearing process to expand, in appropriate cases, procedures for hearings based on written submissions and documentary evidence. The presiding officer will issue an initial decision based on the record and
