process. DOT posts these comments, without edit, including any personal information the commenter provides, to http://www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at http://www.dot.gov/privacy.

Docket: Background documents or comments received may be read at http://www.regulations.gov at any time. Follow the online instructions for accessing the docket or go to the Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC 20590–0001, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Nia Daniels, (202) 267–7626, Office of Rulemaking, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591. This notice is published pursuant to 14 CFR 11.85.

Issued in Washington, DC.

Timothy R. Adams,
Deputy Executive Director, Office of Rulemaking.

Petition for Exemption

Petitioner: Wing Aviation, LLC.

Section(s) of 14 CFR Affected: §§ 43.16(c)(3) and (d); 61.3(a); 91.9(b); 91.119(b) and (c); 91.151(a); 91.203(a)(1); 91.213(a), (b), and (c); 91.225(f); 135.21(f); 135.25(a)(1); 135.63(c) and (d); 135.79(a)(1), (2), and (3); 135.149(a); 135.161(a)(1), (2), and (3); 135.203(a); 135.205(a); 135.209(a); 135.215(b); 135.243(b)(1) and (2); 135.267; 135.337(b)(1) and (5); 135.339(b)(1) and (5); 135.339(e)(3) and (4); 135.340(e)(3) and (4); 135.341(b)(2), (3), and (4); 135.415(b); 135.423(b)(1) through (3) and (c); 135.439(a)(2); 135.501(a) and (2); 135.503(a)(1) and (2); 135.503(b).

Description of Relief Sought: Wing Aviation LLC (Wing) seeks to amend Exemption No. 18163 in order to expand its unmanned aircraft system (UAS) delivery services under Title 14, Code of Federal Regulations (14 CFR) part 135. Wing intends to locate regional pilot in commands (PICs) in a central hub, where the PIC may be located away from the given operating area. Wing also intends to stage unmanned aircraft (UA) at multiple sites throughout the operating area rather than centralizing all UA in a single ground operating site. Lastly, Wing asserts that it has demonstrated successful line checks at 6-month intervals and therefore seeks to fully align the prescribed intervals with the governing part 135 regulation that necessitates line checks of their operations staff every 12 months.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Rescinding a Notice of Intent To Prepare an Environmental Impact Statement for the Long Island Rail- Truck Intermodal Facility

AGENCY: Federal Highway Administration (FHWA), Department of Transportation.

ACTION: Notice to rescind a notice of intent to prepare an environmental impact statement.

SUMMARY: The FHWA is issuing this Notice to advise the public that we are rescinding the 2004 Notice of Intent (NOI) to Prepare an Environmental Impact Statement (EIS) for the development of the Long Island Rail- Truck Intermodal Facility (LIRTIF) on a portion of the Pilgrim State Hospital property, located in the Town of Islip, Suffolk County, New York.

SUPPLEMENTARY INFORMATION: The FHWA, as the lead Federal agency, in cooperation with the New York State Department of Transportation (NYSDOT), published a NOI on June 10, 2004 (69 FR 32656) to prepare an EIS for the development of the LIRTIF on a portion of the Pilgrim State Hospital property, located in the Town of Islip, Suffolk County, New York. Subsequently, FHWA and NYSDOT developed a Draft EIS that was signed on May 22, 2007. FHWA hereby advises the public, after coordination with the NYSDOT, that we are rescinding the NOI for the project and cancelling any work associated with the existing EIS due to the significant time that has passed and the age of the traffic data utilized for the development of the Draft EIS. The NYSDOT may initiate a new project in the future as they remain committed to advancing strategies that mitigate congestion and reduce greenhouse gas emissions, including increasing the efficiency of freight goods movement in the Long Island Region.

Any future Federal-aided Long Island Rail-Truck Intermodal Facility project will comply with the environmental review requirements of the National Environmental Policy Act (NEPA) (42 U.S.C. 4321 et seq.), FHWA environmental regulations (23 CFR part 771), and related authorities, as appropriate. Comments and questions concerning this action should be directed to FHWA at the address provided in the FOR FURTHER INFORMATION CONTACT section of this Notice.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Research, Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.)

Issued on: April 20, 2021.

Richard J. Marquis,
Division Administrator, Albany, New York.

DEPARTMENT OF TRANSPORTATION

Federal Transit Administration

FY 2021 Competitive Funding Opportunity: Pilot Program for Transit-Oriented Development Planning

AGENCY: Federal Transit Administration (FTA), DOT.

ACTION: Notice of Funding Opportunity (NOFO).

SUMMARY: The Federal Transit Administration (FTA) announces the opportunity to apply for $10,052,572 in Fiscal Year (FY) 2020 and FY 2021 funding under the Pilot Program for Transit-Oriented Development Planning (TOD Pilot Program) (Federal Assistance Listing: 20.500). As required by Federal public transportation law and subject to funding availability, funds will be awarded competitively to support comprehensive planning associated with new fixed guideway and core capacity improvement projects. FTA may award additional funding that is made available to the program prior to the announcement of project selections.
focused policies, reduction of communities and adoption of equity engagement of underserved community outreach and public justice populations, equity-focused increased access for environmental

In addition, through promotion of initiative to mobilize American about eligibility). This program supports

SUPPLEMENTARY INFORMATION:

Table of Contents

B. Federal Award Information
C. Eligibility Information
D. Application and Submission Information
E. Application Review Information
F. Federal Award Administration
G. Federal Awarding Agency Contacts
H. Other Information

A. Program Description

Section 2005(b) of the Moving Ahead for Progress in the 21st Century Act (MAP–21; Pub. L. 112–141, July 6, 2012), with funding authorized by 49 U.S.C. 5338(a)(2)(B), authorizes FTA to award grants under the TOD Pilot Program. This funding opportunity is occurring under Federal Assistance Listing number 20.500.

This program supports FTA’s strategic goals and objectives through the timely and efficient investment in public transportation. The TOD Pilot Program grants are competitively awarded to local communities to integrate land use and transportation planning with a new fixed guideway or core capacity improvement transit capital project as defined in Federal public transportation law (49 U.S.C. 5309(a)). (See Section C of this NOFO for more information about eligibility). This program supports the President’s Build Back Better initiative to mobilize American ingenuity to build a modern infrastructure and an equitable future. In addition, through promotion of increased access for environmental justice populations, equity-focused community outreach and public engagement of underserved communities and adoption of equity-focused policies, reduction of greenhouse gas emissions, and by addressing the effects of climate change, the TOD Pilot Program and this NOFO advance the goals of Executive Order 13985: Advancing Racial Equity and Support for Underserved Communities Through the Federal Government; Executive Order 13900: Protecting Public Health and the Environment and Restoring Science to Tackle the Climate Crisis; and Executive Order 14008: Tackling the Climate Crisis at Home and Abroad.

The TOD Pilot Program is intended to fund comprehensive planning that supports economic development, increased transit ridership, multimodal connectivity and accessibility, improved transit access for pedestrian and bicycle traffic, and increased mixed-use development near transit stations, and addresses climate change, challenges facing environmental justice populations, and racial equity and barriers to opportunity. The TOD Pilot Program also encourages identification of infrastructure needs and engagement with the private sector.

FTA is seeking comprehensive planning projects covering an entire transit capital project corridor, rather than proposals that involve planning for individual station areas or only a small section of the corridor. To ensure that any proposed planning work both reflects the needs and aspirations of the local community and results in concrete, specific deliverables and outcomes, transit project sponsors must partner with entities with land use planning authority in the transit project corridor to conduct the planning work.

B. Federal Award Information

FTA intends to award all available funding (approximately $10 million) in the form of grants to selected applicants responding to this NOFO. Additional funds made available prior to project selection may be allocated to eligible projects. Due to funding limitations, applicants that are selected for funding may receive less than the amount originally requested. Only proposals from eligible recipients for eligible activities will be considered for funding. FTA anticipates minimum grant awards of $250,000 and maximum grant awards of $2,000,000.

In the last NOFO that closed on October 16, 2020, the TOD Pilot Program received applications for 19 eligible projects requesting a total of $15,262,060. Nine (9) projects were funded at a total of $6,169,568.

FTA will grant pre-award authority to incur costs for selected projects beginning on the date FY 2021 project selections are announced on FTA’s website. Funds are available for obligation for four fiscal years after the fiscal year in which the competitive awards are announced. Funds are available only for projects that have not incurred costs prior to the announcement of project selections.

C. Eligibility Information

1. Eligible Applicants

Applicants of the TOD Pilot Program must be State or local governmental authorities and FTA grant recipients (i.e., existing direct and designated recipients) as of the publication date of this NOFO in GRANTS.GOV. An applicant must be the project sponsor of an eligible transit capital project as defined below in Section C, subsection 3, or an entity with land use planning authority in the project corridor of an eligible transit capital project. Except in cases where an applicant is both the sponsor of an eligible transit project and has land use authority in at least a portion of the transit project corridor, the applicant must partner with the relevant transit project sponsor or at least one entity in the project corridor with land use planning authority. Documentation of this partnership must be included with the application; see Section D, subsection 2 of this NOFO for further information.

Only one application per transit capital project corridor may be submitted to FTA. Multiple applications submitted for a single transit capital project corridor indicate that partnerships are not in place and FTA will reject all of the applications.

2. Cost Sharing or Matching

The maximum Federal funding share is 80 percent.

Eligible sources of non-Federal match include the following: Cash from non-Federal sources (other than revenues from providing public transportation services); revenues derived from the sale of advertising and concessions; amounts received under a service agreement with a State or local social service agency or private social service organization; revenues generated from value capture financing mechanisms; funds from an undistributed cash surplus; replacement or depreciation cash fund or reserve; or new capital. In-kind contributions are permitted. Transportation Development Credits (formerly referred to as Toll Revenue Credits) may not be used to satisfy the non-Federal match requirement.
3. Other Eligibility Criteria

i. Eligible Transit Projects

Any comprehensive planning work proposed for funding under the TOD Pilot Program must be associated with an eligible transit capital project. To be eligible, the proposed transit capital project must be a new fixed guideway project or a core capacity improvement project as defined by Federal public transportation law (49 U.S.C. 5309(a)), although it is not required to be approved for funding through the Capital Investment Grant program.

A fixed guideway is a public transportation facility:
(A) Using and occupying a separate right-of-way for the exclusive use of public transportation;
(B) using rail;
(C) using a fixed catenary system;
(D) for a passenger ferry system; or
(E) for a bus rapid transit system.

A New fixed guideway capital project is defined in statute to be:
(A) A new fixed guideway project that is a minimum operable segment or extension to an existing fixed guideway system; or
(B) a fixed guideway bus rapid transit project that is a minimum operable segment or extension to an existing bus rapid transit system.

A fixed guideway bus rapid transit project is defined in statute as a bus capital project:
(A) In which the majority of the project operates in a separated right-of-way dedicated for public transportation use during peak periods;
(B) that represents a substantial investment in a single route in a defined corridor or subarea; and
(C) that includes features that emulate the services provided by rail fixed guideway public transportation systems, including:
(i) Defined stations;
(ii) traffic signal priority for public transportation vehicles;
(iii) short headway bidirectional services for a substantial part of weekdays and weekend days; and
(iv) any other features the Secretary may determine are necessary to produce high-quality public transportation services that emulate the services provided by rail fixed guideway public transportation systems.

A core capacity improvement project is defined by 49 U.S.C. 5309(a) to mean a substantial corridor-based capital investment in an existing fixed guideway system that increases the capacity of the corridor by not less than 10 percent. The term does not include projects elements designed to maintain a state of good repair of the existing fixed guideway system.

Comprehensive planning work in a corridor for a transit capital project that does not meet the statutory definition above of either a new fixed guideway project or a core capacity improvement project is not eligible under the TOD Pilot Program.

ii. Eligible Activities

Any comprehensive planning efforts funded under the TOD Pilot Program must address all six factors set forth in Section 20005(b)(2) of MAP–21:
(i) Enhances economic development, ridership, and other goals established during the project development and engineering processes;
(ii) facilitates multimodal connectivity and accessibility;
(iii) increases access to transit hubs for pedestrian and bicycle traffic;
(iv) enables mixed-use development;
(v) identifies infrastructure needs associated with the eligible project; and
(vi) includes private sector participation.

MAP–21 also requires the comprehensive planning effort to advance the metropolitan planning organization’s metropolitan transportation plan. Further, MAP–21 requires applicants to establish performance criteria for the comprehensive application.

Following are examples of the types of substantial deliverables that may result from the comprehensive planning work. Substantial deliverables are reports, plans and other materials that represent the key accomplishments of the comprehensive planning effort and that must be submitted to FTA as each is completed. Substantial deliverables may include, but are not restricted to, the following:
(i) A comprehensive plan report that includes corridor development policies and station development plans comprising the corridor, a proposed timeline, and recommended financing strategies for these plans;
(ii) A strategic plan report that includes corridor specific planning strategies and program recommendations to support comprehensive planning;
(iii) Revised TOD program overarching transportation agency's TIPs and/or TOD plans and/or TOD implementation plans;
(iv) A report evaluating and recommending financial tools to encourage TOD implementation such as land acquisition, construction, and utility relocation; and
(v) Site- or parcel-specific planning, such as the design of individual structures.

D. Application and Submission Information

1. Address To Request Application Package

The application package may be obtained from GRANTS.GOV. Applications must be submitted electronically through GRANTS.GOV, and general information for submitting applications can be found at https://www.grants.gov/web/grants/applicants.html along with specific instructions for the forms and attachments required for submission. The Standard Form (SF) 424, Application for Federal Assistance, which must be included with every application, can be downloaded from GRANTS.GOV. Mail and fax submissions will not be accepted.

A complete proposal submission consists of two forms in addition to other documents described in section 2 below: The SF–424 Application for Federal Assistance (available at GRANTS.GOV) and the supplemental form for the FY 2021 TOD Pilot Program (available from GRANTS.GOV or the FTA website at https://www.transit.dot.gov/TODPilot). Failure to submit the information as requested can delay review or disqualify the application.

2. Content and Form of Application Submission

Proposals must include a completed SF–424 Mandatory form and the following attachments to the completed SF–424:
i. A completed Applicant and Proposal Profile supplemental form for the TOD Pilot Program [supplemental form] found on the FTA website at https://www.transit.dot.gov/TODPilot. The information on the supplemental form will be used to determine applicant and project eligibility for the program, and to evaluate the proposal against the selection criteria described in part E of this notice;

ii. A map of the proposed study area showing the transit project alignment and stations, major roadways, major landmarks, and the geographic boundaries of the proposed comprehensive planning activities;

iii. Documentation of a partnership between the transit project sponsor and an entity in the project corridor with land use planning authority to conduct the comprehensive planning work, if the applicant does not have both of these responsibilities. Documentation may consist of a memorandum of agreement or letter of intent signed by all parties that describes the parties’ roles and responsibilities in the proposed comprehensive planning project; and

iv. Documentation of any funding commitments for the proposed comprehensive planning work. Information such as the applicant’s name, Federal amount requested, local match amount, description of the study area, are requested in varying degrees of detail on both the SF–424 form and supplemental form. Applicants must fill in all fields unless stated otherwise on the forms. Applicants should use both the “Check Package for Errors” and the “Validate Form” buttons on both forms to check all required fields, and ensure that the Federal and local amounts specified are consistent. In the event of errors with the supplemental form, FTA recommends saving the form on your computer and ensuring that JavaScript errors with the supplemental form, FTA provides a schedule and process for the development of the comprehensive plan that includes anticipated dates for incorporating the planning work effort into the region’s unified planning work program, completing major tasks and substantial deliverables, and completing the overall planning effort.

16. Describe how the comprehensive planning work advances the metropolitan transportation plan of the metropolitan planning organization.

17. Propose performance criteria for the development and implementation of the comprehensive planning work:

18. Identify potential State, local or other impediments to the products of the comprehensive planning work and its implementation, and how the work will address them.

19. Describe how the comprehensive planning work addresses climate change and elevates challenges facing environmental justice populations.

3. Unique Entity Identifier and System for Award Management (SAM)

Each applicant is required to: (1) Be registered in SAM before submitting an application; (2) provide a valid unique entity identifier in its application; and (3) continue to maintain an active SAM registration with current information at all times during which the applicant has an active Federal award or an application or plan under consideration by FTA. FTA may not make an award until the applicant has complied with all applicable unique entity identifier and SAM requirements. If an applicant has not fully complied with the requirements by the time FTA is ready to make an award, FTA may determine that the applicant is not qualified to receive an award and use that determination as a basis for making a Federal award to another applicant.

These requirements do not apply if the applicant: (1) Is an individual; (2) is excepted from the requirements under 2 CFR 25.110(b) or (c); or (3) has an exception approved by FTA under 2 CFR 25.110(d). SAM registration takes approximately 3–5 business days, but FTA recommends allowing ample time, up to several weeks, for completion of all steps. For additional information on obtaining a unique entity identifier, please visit www.sam.gov.

Non-Federal entities that have received a Federal award are required to report certain civil, criminal, or administrative proceedings to SAM (currently the Federal Awardee Performance and Integrity Information System (FAPIIS)) to ensure registration information is current and comply with federal requirements. Applicants should reference 2 CFR 200.113, for more information.

4. Submission Dates and Times

Project proposals must be submitted electronically through http://www.GRANTS.GOV by 11:59 p.m. EDT on June 21, 2021. GRANTS.GOV attaches a time stamp to each application at the time of submission. Proposals submitted after the deadline will only be considered under extraordinary circumstances not under the applicant’s control. Applications are time and date stamped by GRANTS.GOV upon successful submission. Mail and fax submissions will not be accepted.

Within 48 hours after submitting an electronic application, the applicant should receive two email messages from GRANTS.GOV: (1) Confirmation of successful transmission to GRANTS.GOV; and (2) confirmation of successful validation by GRANTS.GOV.

FTA will then validate the application and will attempt to notify any applicants whose applications could not be validated. If the applicant does not receive confirmation of successful
validation or a notice of failed validation or incomplete materials, the applicant must address the reason for the failed validation, as described in the email notice, and resubmit before the submission deadline. If making a resubmission for any reason, include all original attachments regardless of which attachments were updated and check the box on the supplemental form indicating this is a resubmission. An application that is submitted at the deadline and cannot be validated will be marked as incomplete, and such applicants will not receive additional time to re-submit.

FTA urges applicants to submit their applications at least 96 hours prior to the due date to allow time to receive the validation messages and to correct any problems that may have caused a rejection notification. GRANTS.GOV scheduled maintenance and outage times are announced on the GRANTS.GOV website at http://www.GRANTS.GOV. Deadlines will not be extended due to scheduled maintenance or outages.

Applicants are encouraged to begin the registration process on the GRANTS.GOV site well in advance of the submission deadline. Registration is a multi-step process, which may take several weeks to complete before an application can be submitted. Registered applicants may still be required to take steps to keep their registration up to date before submissions can be made successfully: (1) Registration in SAM is renewed annually and (2) persons making submissions on behalf of the Authorized Organization Representative (AOR) must be authorized in GRANTS.GOV by the AOR to make submissions.

5. Funding Restrictions

See Section C of this NOFO for detailed eligibility requirements. FTA emphasizes that any comprehensive planning projects funded through the TOD Pilot Program must be associated with an eligible transit project, specifically a new fixed guideway project or a core capacity improvement project as defined in Federal transit statute, 49 U.S.C. 5309(a). Projects are not required to be funded through the Capital Investment Grant Program. Funds must be used only for the specific purposes requested in the application. Funds under this NOFO cannot be used to reimburse projects for otherwise eligible expenses incurred prior to an FTA award under this program. Refer to Section C.3., Eligible Projects, for information on activities that are allowable in this grant program. Allowable direct and indirect expenses must be consistent with the Governmentwide Uniform Administrative Requirements and Cost Principles (2 CFR part 200) and FTA Circulars 5010.1E.

6. Other Submission Requirements

Applicants are encouraged to identify scaled funding options in case insufficient funding is available to fund a project at the full requested amount. If an applicant indicates that a project is scalable, the applicant must provide an appropriate minimum funding amount that will fund an eligible project that achieves the objectives of the program and meets all relevant program requirements. The applicant must provide a clear explanation of how the project budget would be affected by a reduced award. FTA may award a lesser amount regardless of whether a scalable option is provided.

All applications must be submitted via the GRANTS.GOV website. FTA does not accept applications on paper, by fax machine, email, or other means. For information on application submission requirements, please see Section D.1., Address to Request Application and Section D.4., Submission Dates and Times.

E. Application Review Information

1. Criteria

Project proposals will be evaluated primarily on the responses provided in the supplemental form. Additional information may be provided to support the responses; however, any additional documentation must be directly referenced on the supplemental form, including the file name where the additional information can be found. Applications will be evaluated based on the quality and extent to which the following evaluation criteria are addressed.

a. Demonstrated Need

FTA will evaluate each project to determine the need for funding based on the following factors:

i. Potential state, local or other impediments to implementation of the products of the comprehensive planning effort, and how the workplan will address them;

ii. How the proposed work will advance TOD implementation in the corridor and region;

iii. Justification as to why Federal funds are needed for the proposed work; and

iv. Extent to which the transit project corridor could benefit from TOD planning;

v. Extent to which TOD planning will address climate change and challenges facing environmental justice populations in the region.

b. Strength of the Work Plan, Schedule and Process

FTA will evaluate the strength of the work plan, schedule and process included in an application based on the following factors:

i. Extent to which the schedule contains sufficient detail, identifies all steps needed to implement the work proposed, and is achievable;

ii. The proportion of the project corridor covered by the work plan;

iii. Extent of partnerships, including with non-public sector entities;

iv. The partnerships’ technical capability to develop, adopt and implement the comprehensive plans, based on FTA’s assessment of the applicant’s description of the policy formation, implementation, and financial roles of the partners, and the roles and responsibilities of proposed stakeholders;

v. Extent to which this TOD planning effort increases transit access for environmental justice populations and allows them to participate in this TOD planning effort;

vi. Extent to which this TOD planning effort incorporates equity-focused community outreach and public engagement of underserved communities in the planning process;

vii. Extent to which the comprehensive planning work will yield zoning policies that are supportive of more housing density near transit, easing the pressures that make housing unaffordable or insecure for underserved communities;

viii. Extent to which the comprehensive planning work will reduce greenhouse gas emissions and the effects of climate change;

ix. Whether the performance measures identified in the application relate to the goals of the comprehensive planning work.

c. Funding Commitments

FTA will assess the status of local matching funds for the planning work. Applications demonstrating that matching funds for the proposed comprehensive planning work are already committed will receive higher ratings from FTA on this factor. Proposed comprehensive planning projects for which matching funding sources have been identified, but are not yet committed, will be given lower ratings under this factor by FTA, as will proposed comprehensive planning projects for which in-kind contributions constitute the primary or sole source of matching funds.
2. Review and Selection Process

In addition to other FTA staff that may review the proposals, a technical evaluation committee will verify each proposal’s eligibility and evaluate proposals based on the published evaluation criteria. Members of the technical evaluation committee and other FTA staff may request additional information from applicants, if necessary. Taking into consideration the findings of the technical evaluation committee, the FTA Administrator will determine the final selection of projects for program funding. After applying the above criteria, in support of the President’s January 20, 2021, Executive Order 13900, Protecting Public Health and the Environment and Restoring Science to Tackle the Climate Crisis, the FTA Administrator will consider the extent to which applications may provide other air quality benefits as part of the application review. Applicants should identify any nonattainment or maintenance areas under the Clean Air Act in the proposed service area. Nonattainment or maintenance areas should be limited to the following applicable National Ambient Air Quality Standards criteria pollutants: carbon monoxide, ozone, and particulate matter 2.5 and 10. The U.S. Environmental Protection Agency’s Green Book (available at https://www.epa.gov/green-book) is a publicly-available resource for nonattainment and maintenance area data. This consideration will further the goals of the Executive Order, including the goal to prioritize environmental justice (EJ).

In addition, FTA will consider benefits to EJ communities when reviewing applications received under this program. Applicants should identify any populations located within the proposed service area and describe anticipated benefits to that population(s) should the applicant receive a grant under this program. A formal EJ analysis that is typically included in transportation planning or environmental reviews is not requested.

In support of Executive Order 13985, Advancing Racial Equity and Support for Underserved Communities Through the Federal Government, FTA also will consider the extent to which applications promote racial equity and the removal of barriers to opportunity through such activities as equity-focused community outreach and public engagement of underserved communities in the planning process, and adoption of an equity and inclusion program/plan or equity-focused policies related to TOD.

Among the factors, in determining the allocation of program funds FTA may consider geographic diversity, diversity in the size of the grant recipients receiving funding, or the applicant’s receipt of other competitive awards. Respectively, FTA will evaluate the proposals to determine the extent that the proposed project will address affordable housing needs, provide equitable housing choices for environmental justice populations, and avoid displacement of low-income households.

3. Federal Awardee Performance and Intensity Information System (FAPIIS)

Prior to making an award, FTA is required to review and consider any information about the applicant that is in the FAPIIS database. An applicant may review and comment on information about itself that a Federal awarding agency previously entered. FTA will consider any comments by the applicant, in addition to the other information in the designated integrity and performance system, in making a judgment about the applicant’s integrity, business ethics, and record of performance under Federal awards when completing the review of risk posed by applicants as described in the Office of Management and Budget’s Uniform Requirements for Federal Awards (2 CFR 200.206).

F. Federal Award Administration Information

1. Federal Award Notices

(a) The FTA Administrator will announce the final project selections on the FTA website. Project recipients should contact their FTA Regional Offices for additional information regarding allocations for projects under the TOD Pilot Program.

i. Pre-Award Authority

FTA will issue specific guidance to recipients regarding pre-award authority at the time of selection. FTA does not provide pre-award authority for competitive funds until projects are selected and even then, there are Federal requirements that must be met before costs are incurred. Funds under this NOFO cannot be used to reimburse applicants for otherwise eligible expenses incurred prior to FTA award of a Grant Agreement until FTA has issued pre-award authority for selected projects, or unless FTA has issued a “Letter of No Prejudice” for the project before the expenses are incurred. For more information about FTA’s policy on pre-award authority, please see the most recent Apportionment Notice at: https://www.transit.dot.gov.

ii. Grant Requirements

If selected, awardees will apply for a grant through FTA’s Transit Award Management System (TrAMS). Recipients of TOD Pilot Program funds are subject to the grant requirements of the Section 5303 Metropolitan Planning program, including those of FTA Circular 810.1C and Circular 5010.1E. All competitive grants, regardless of award amount, will be subject to the Congressional Notification and release process. Technical assistance regarding these requirements is available from each FTA regional office.

2. Administrative and National Policy Requirements

i. Planning

FTA encourages applicants to notify the appropriate metropolitan planning organizations in areas likely to be served by the funds made available under this program. Selected projects must be incorporated into the unified planning work programs of metropolitan areas before they are eligible for FTA funding or pre-award authority.

ii. Standard Assurances

The applicant assures that it will comply with all applicable Federal statutes, regulations, executive orders, directives, FTA circulars, and other Federal administrative requirements in carrying out any project supported by the FTA grant. The applicant acknowledges that it is under a continuing obligation to comply with the terms and conditions of the grant agreement issued for its project with FTA. The applicant understands that Federal laws, regulations, policies, and administrative practices might be modified from time to time and may affect the implementation of the project. The applicant agrees that the most recent Federal requirements will apply to the project, unless FTA issues a written determination otherwise. The applicant must submit the Certifications and Assurances before receiving a grant if it does not have current certifications on file.

iii. Disadvantaged Business Enterprise

FTA requires that its recipients receiving planning, capital, and/or operating assistance that will award prime contracts exceeding $250,000 in FTA funds in a Federal fiscal year comply with Department of Transportation Disadvantaged Business Enterprise (DBE) program regulations (49 CFR part 26). Applicants should expect to include any funds awarded,
excluding those to be used for vehicle procurements, in setting their overall DBE goal.

3. Reporting

Post-award reporting requirements include submission of Federal Financial Reports and Milestone Progress Reports in FTA’s electronic grants management system on a quarterly basis. Applicant should include any goals, targets, and indicators referenced in their application to the project in the Executive Summary of the TrAMS application. Awardees must also submit copies of the substantial deliverables identified in the work plan to the FTA regional office at the corresponding milestones.

As part of completing the annual certifications and assurances required of FTA grant recipients, a successful applicant must report on the suspension or debarment status of itself and its principals. If the award recipient’s active grants, cooperative agreements, and procurement contracts from all Federal awarding agencies exceeds $10,000,000 for any period of time during the period of performance of an award made pursuant to this Notice, the recipient must comply with the Recipient Integrity and Performance Matters reporting requirements described in Appendix XII to 2 CFR part 200.”

G. Federal Awarding Agency Contacts

For program-specific questions, please contact April McLean-McCoy, Office of Planning and Environment, (202) 366–7429, email: April.McLeanMcCoy@ dot.gov. A TDD is available at 1–800–877–8339 (TDD/FIRS). Any addenda that FTA releases on the application process will be posted at https://www.transit.dot.gov/TODPilot. To ensure applicants receive accurate information about eligibility or the program, the applicant is encouraged to contact FTA directly, rather than through intermediaries or third parties. FTA staff may also conduct briefings on the FY 2021 competitive grants selection and award process upon request. Contact information for FTA’s regional offices can be found on FTA’s website at www.fta.dot.gov.

H. Other Program Information

This program is not subject to Executive Order 12372, “Intergovernmental Review of Federal Programs.” FTA will consider applications for funding only from eligible recipients for eligible projects listed in Section C. Complete applications must be submitted through grants.gov by 11:59 p.m. EDT on June 21, 2021.

For issues with grants.gov, please contact grants.gov by phone at 1–800–518–4726 or by email at support@ grants.gov. Contact information for FTA’s regional offices can be found on FTA’s website at www.fta.dot.gov.

Nuria I. Fernandez,
Deputy Administrator.

BILLING CODE P

DEPARTMENT OF TRANSPORTATION
Office of the Secretary
Air Ambulance and Patient Billing Advisory Committee Matters

AGENCY: Office of the Secretary (OST), Department of Transportation (DOT).

ACTION: Notice of public meeting.

SUMMARY: The U.S. Department of Transportation (Department) announces a public meeting of the Air Ambulance and Patient Billing (AAPB) Advisory Committee on May 27–28, 2021. The AAPB Advisory Committee will discuss the reports and recommendations of the Subcommittee on Disclosure and Distinction of Charges and Coverage for Air Ambulance Services, Subcommittee on Prevention of Balance Billing, and Subcommittee on State and DOT Consumer Protection Authorities.

DATES: The AAPB Advisory Committee will hold a virtual meeting on May 27–28, 2021, from 10:00 a.m. to 5:30 p.m., Eastern Daylight Time.

ADDRESSES: The virtual meeting will be open to the public and held via the Zoom Webinar Platform. Virtual attendance information will be provided upon registration. A detailed agenda will be available on the AAPB Advisory Committee website at https://www.transportation.gov/airconsumer/ AAPB at least one week before the meeting, along with copies of the meeting minutes after the meeting.

FOR FURTHER INFORMATION CONTACT: To register and attend this virtual meeting, please contact the Department by email at AAPB@dot.gov. Attendance is open to the public subject to any technical and/or capacity limitations. For further information, contact Robert Gorman, Senior Attorney, at (202) 366–9342 or by email at robert.gorman@dot.gov.

SUPPLEMENTARY INFORMATION:

I. Background

The FAA Reauthorization Act of 2018 requires the Secretary of Transportation, in consultation with the Secretary of Health and Human Services, to establish an advisory committee to review options to improve the disclosure of charges and fees for air medical services, better inform consumers of insurance options for such services, and protect consumers from balance billing. On September 12, 2019, the Department announced the creation of the AAPB Advisory Committee.

The AAPB Advisory Committee held a public meeting on January 15–16, 2020. At that meeting, the AAPB Advisory Committee gathered information about the air ambulance industry, air ambulance costs and billing, and insurance and air ambulance payment systems. The AAPB Advisory Committee also discussed disclosure and separation of charges, cost shifting, and balance billing.

On February 4, 2020, the Department established three Subcommittees: (1) The Subcommittee on Disclosure and Distinction of Charges and Coverage for Air Ambulance Services; (2) the Subcommittee on Prevention of Balance Billing, and (3) the Subcommittee on State and DOT Consumer Protection Authorities. On January 11, 2021, the Subcommittees filed reports and draft recommendations for the full Committee’s review. The reports are available for public review on the AAPB Advisory Committee’s docket, DOT–OST–2018–0206.

II. Summary of the Agenda

During the May 27–28 meeting, AAPB Advisory Committee will deliberate on the Subcommittees’ reports and recommendations. A more detailed agenda will be made available at least one week before the meeting at https://www.transportation.gov/airconsumer/ AAPB.

III. Public Participation

The meeting will be open to the public and attendance may be limited due to virtual meeting constraints. To register, please send an email to the Department as set forth in the FOR FURTHER INFORMATION CONTACT section. The Department is committed to providing equal access to this meeting for all participants. If you need alternative formats or services because of a disability, such as sign language interpreter or other ancillary aids, please contact the person listed in the FOR FURTHER INFORMATION CONTACT section.

Members of the public may also present written comments at any time. The docket number referenced above (DOT–OST–2018–0206) has been established for committee documents,
