[Project No. 4451-024]

**Green Mountain Power Corporation, City of Somersworth, New Hampshire; Notice of Intent To Prepare an Environmental Assessment**

On April 30, 2020, Green Mountain Power Corporation and the City of Somersworth, New Hampshire filed an application for a subsequent license to continue operating the existing 1.28-megawatt Lower Great Falls Hydroelectric Project No. 4451 (Lower Great Falls Project or project). The project is located on the Salmon Falls River in Strafford County, New Hampshire and York County, Maine. The project does not occupy federal land.

In accordance with the Commission's regulations, on February 10, 2021, Commission staff issued a notice that the project was ready for environmental analysis (REA notice). Based on the information in the record, including comments filed on the REA notice, staff

does not anticipate that licensing the project would constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an Environmental Assessment (EA) on the application to license the Lower Great Falls Project.

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's final licensing decision.

The application will be processed according to the following schedule. Revisions to the schedule may be made as appropriate.

Milestone	Target date
Commission issues EA Comments on EA .....	August 2021. <sup>1</sup> September 2021.
