

and all of the legacy support in 2023 and beyond for these purposes.

To address a concern that budgets and deployment plans for 2021 are largely complete, which could make it difficult for some competitive ETCs to achieve the 2021 support usage requirement, the Commission adopted a rule that affords such competitive ETCs the flexibility to use less than one-third of their legacy support in 2021 and make up for any shortfall in 2021 by proportionally increasing the requirement in 2022 (above the two-thirds of its support the competitive ETC is required to spend on 5G in that year). See 47 CFR 54.322(c)(4).

In order to take advantage of this flexibility, a competitive ETC receiving legacy support for mobile wireless services must submit a certification in which it (1) provides information regarding the service area(s) for which it and any affiliated mobile competitive ETC(s) receive legacy support and the annual amount of support they receive in each area; (2) indicates the total amount of legacy high-cost support to be spent on the deployment, maintenance, and operation of mobile networks that provide 5G service in calendar year 2021 across the identified service areas; and (3) certifies that any 2021 spending shortfall will be made up in 2022. Only those competitive ETCs receiving legacy high-cost support for mobile wireless services that wish to avail themselves of the flexibility concerning their 2021 and 2022 legacy high-cost support usage requirements will be required to respond to this information collection.

The certification will be used by the Commission to identify how much a competitive ETC that chooses to avail itself of the flexibility concerning its 2021 and 2022 legacy high-cost support usage requirements will spend on 5G in 2021 and the spending shortfall it must make up in 2022, and to confirm the competitive ETC's commitment to make up its 2021 spending shortfall in 2022 in accordance with its certification and the Commission's rules.

Title: 46 CFR part 565—Controlled Carriers.

OMB Approval Number: 3072-0060 (Expires September 30, 2021).

Abstract: 46 U.S.C. 40701-40706 requires that the Commission monitor the practices of controlled carriers to ensure that they do not maintain rates or charges in their tariffs and service contracts that are below a level that is just and reasonable; nor establish, maintain, or enforce unjust or unreasonable classifications, rules, or regulations in those tariffs or service contracts that result or are likely to result in the carriage or handling of cargo at rates or charges that are below a just and reasonable level. 46 CFR part 565 establishes the method by which the Commission determines whether a particular ocean common carrier is a controlled carrier subject to 46 U.S.C. 40701-40706. When a government acquires a controlling interest in an ocean common carrier, or when a controlled carrier newly enters a United States trade, the Commission's rules require that such a carrier notify the Commission of these events.

Current Actions: There are no changes to this information collection, and it is being submitted for extension purposes only.
