Abstract: The U.S. Environmental Protection Agency's (EPA) Chesapeake Bay Program (the Program) is interested in tracking its progress at attaining its goals under the 2014 Chesapeake Bay Watershed Agreement (the Agreement). To do this, the Program plans to implement three surveys: The Citizen Stewardship Survey, the Diversity

Profile Survey, and the Local Leadership Survey.

EPA has specified the target audience and the implementation approach for each to maximize the data that can be obtained. The Citizen Stewardship Survey will be implemented as a multi-mode survey that includes phone, web, and mail components and will target residents living in the Chesapeake Bay area, stratified by jurisdiction (states and the District of Columbia). The Diversity Profile Survey will be implemented among people who work on partnership efforts within the Bay area as a web-based survey. The Local Leadership Survey will be implemented among state and local elected officials involved in policy making in the Bay area also as a web-based survey.

The Program will be using the data from these three surveys to track it progress under the Stewardship goal of the 2014 Agreement. The Stewardship goal includes three outcomes: (1) Citizen stewardship, (2) local leadership, and (3) diversity. Three surveys under this ICR each address one of the outcomes and contributes to EPA's Government Performance and Results Act (GPRA) goals (EPA Goal 1, A Cleaner, Healthier Environment; Objective 1.2: Provide for Clean and Safe Water).

Each of the surveys under this ICR were funded and implemented by other partners in the Chesapeake Bay area in prior years. The Program determined that the best approach for continued implementation of these surveys would be for the EPA assume the responsibility for implementing these surveys; thus, EPA is seeking approval for implementing these surveys under this ICR.

Collecting these data and publishing them for public review will allow the public to track how well the Agreement is working to preserve and protect the Chesapeake Bay region from the standpoint of the Stewardship goal outlined in the Agreement. Overall, the Agreement contains 10 goals and their associated outcomes; data for the other nine goals are collected through other means. Combining the data for Stewardship goal outcomes from these surveys with the data for the other nine goals will provide the public will have a comprehensive picture of the progress being made to preserve and protect Chesapeake Bay watershed.

Estimated Time Per Response: 0.50 hours–122 hours.

Frequency of Response: On occasion, one-time, and quarterly reporting requirements; third party disclosure requirements; and recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151, 154 and 276.

Total Annual Burden: 27,064 hours.

Nature and Extent of Confidentiality:

The Commission is not requesting respondents to submit confidential information. Respondents may request confidential treatment of their information that they believe to be confidential pursuant to 47 CFR 0.459 of the Commission’s rules.

Needs and Uses: Section 276 of the Communications Act, as amended (the Act), requires that the Federal Communications Commission (Commission or FCC) establish rules ensuring that payphone service providers or PSPs are “fairly compensated” for each and every completed payphone-originated call. The Commission’s Payphone Compensation Rules satisfy section 276 by identifying the party liable for compensation and establishing a mechanism for PSPs to be paid. A 2003 Report and Order (FCC 03–235) established detailed rules (Payphone Compensation Rules) ensuring that payphone service providers or PSPs are “fairly compensated” for each and every completed payphone-originated call pursuant to section 276 of the Communications Act, as amended (the Act), which the Commission revised in a 2018 Report and Order (FCC 18–21). The Payphone Compensation Rules satisfy section 276 by identifying the party liable for compensation and establishing a mechanism for PSPs to be paid. The Payphone Compensation Rules: (1) Place liability to compensate PSPs for payphone-originated calls on

the facilities-based long distance carriers or switch-based resellers (SBRs) from whose switches such calls are completed; (2) define these responsible carriers as “Completing Carriers” and require them to develop their own system of tracking calls to completion; (3) require Completing Carriers to file with PSPs a quarterly report and also submit an attestation by a company official, including but not limited to the chief financial officer (CFO), that the payment amount for that quarter is accurate and is based on 100% of all completed calls; (4) require quarterly reporting obligations for other facilities-based long distance carriers in the call path, if any, and define these carriers as “Intermediate Carriers;” and (5) give parties flexibility to agree to alternative compensation arrangements (ACA) so that small Completing Carriers may avoid the expense of instituting a tracking system. The revisions adopted in the 2018 Report and Order significantly decreased the paperwork burden on carriers.
