This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF ENERGY

10 CFR Part 431

[EEERE–2020–BT–TP–0032]

RIN 1904–AE53

Energy Conservation Program: Test Procedure for Commercial & Industrial Pumps

ACTION: Request for information; extension of public comment period.

SUMMARY: On April 16, 2021, the U.S. Department of Energy (“DOE”) published a request for information (“RFI”) pertaining to the test procedure for commercial and industrial pumps (“pumps”). The notice provided an opportunity for submitting written comments, data, and information by June 1, 2021. On April 19, 2021, DOE received a request from Price Pump Company (“Price Pump”), and on April 20, 2021, DOE received requests from Grundfos and the Hydraulic Institute (“HI”) to extend the public comment period by 90 days. DOE has reviewed these requests and is granting a 30-day extension of the public comment period to allow public comments to be submitted until July 1, 2021.

DATES: The comment period for the RFI published on April 16, 2021 (86 FR 20075) is extended. DOE will accept comments, data, and information regarding this RFI received no later than July 1, 2021.

ADDRESSES: Interested persons are encouraged to submit comments using the Federal eRulemaking Portal at http://www.regulations.gov. Follow the instructions for submitting comments. Alternatively, interested persons may submit comments, identified by docket number EEERE–2020–BT–TP–0032 by any of the following methods:

2. Email: To Pumps2020TP0032@ee.doe.gov. Include docket number EEERE–2020–BT–TP–0032 in the subject line of the message.

No telefacsimiles (“faxes”) will be accepted.

Although DOE has routinely accepted public comment submissions through a variety of mechanisms, including postal mail and hand delivery/courier, the Department has found it necessary to make temporary modifications to the comment submission process in light of the ongoing Covid–19 pandemic. DOE is currently suspending receipt of public comments via postal mail and hand delivery/courier. If a commenter finds that this change poses an undue hardship, please contact Appliance Standards Program staff at (202) 586–1445 to discuss the need for alternative arrangements. Once the Covid–19 pandemic health emergency is resolved, DOE anticipates resuming all of its regular options for public comment submission, including postal mail and hand delivery/courier.

Docket: The docket for this activity, which includes Federal Register notices, comments, and other supporting documents/materials, is available for review at http://www.regulations.gov. All documents in the docket are listed in the http://www.regulations.gov index. However, some documents listed in the index, such as those containing information that is exempt from public disclosure, may not be publicly available.

The docket web page can be found at: http://www.regulations.gov/docket?D=EEERE-2020-BT-TP-0032. The docket web page contains instructions on how to access all documents, including public comments, in the docket.

For further information on how to submit a comment or review other public comments and the docket contact Appliance and Equipment Standards Program staff at (202) 287–1445 or by email: ApplianceStandardsQuestions@ee.doe.gov.

SUPPLEMENTARY INFORMATION: On April 16, 2021, DOE published a RFI seeking data and information regarding whether amended test procedures would more accurately or fully comply with the requirement that the test procedure produces results that measure energy use during a representative average use cycle for pumps without being unduly burdensome to conduct, or that reduce testing burden. 86 FR 20075. Interested parties in the matter, Price Pump (on April 19, 2021), HI (on April 20, 2021), and Grundfos (on April 20, 2021), requested a 90-day extension of the public comment period for the RFI. (Price Pump, No. 10 at p. 1; HI, No. 11 at p. 1; Grundfos, No. 12, at p. 1).1 Grundfos and Price Pump commented that the June 1, 2021 deadline does not provide sufficient time to collect the requested data and information requested in the RFI. (Price Pump, No. 10 at p. 1; Grundfos, No. 12 at p. 1 HI commented that it has developed a committee to review and respond to DOE’s requests for comment, and requires additional time to develop and review member surveys and coordinate a response. (HI, No. 11, p.1)

DOE has reviewed the requests and is extending the comment period to allow additional time for interested parties to submit comments. As noted, the RFI was issued as part of the preliminary stages of rulemaking to consider amendments to the test procedure for pumps. If DOE determines that amended test procedures may be appropriate, additional notices will be published (e.g., a notice of proposed rulemaking) providing interested parties with an additional opportunity to submit comment. As such, DOE has determined that a 30-day extension is sufficient for this preliminary stage. Therefore, DOE is extending the comment period to July 1, 2021.

Notification of Regulatory Review

AGENCY: Office of the Secretary of Transportation (OST); U.S. Department of Transportation (DOT).

ACTION: Regulatory review.

SUMMARY: As directed by Executive Order 13990, “Protecting Public Health and the Environment and Restoring Science to Tackle the Climate Crisis,” and Executive Order 13992, “Revocation of Certain Executive Orders Concerning Federal Regulation,” the U.S. Department of Transportation (Department or DOT) is currently reviewing its existing regulations and other agency actions to determine whether they are consistent with the policies and National objectives set forth in these executive orders. As part of this review, the Department invites the public to provide input on existing rules and other agency actions for the Department’s consideration regarding consistency with the policies and objectives of these executive orders.

DATES: Comments should be received on or before June 4, 2021. Late-filed comments will be considered to the extent practicable.

ADDRESSES: You may file comments identified by the docket number DOT–OST–2021–0036 by any of the following methods:

Federal Register Notification of Regulatory Review

This document of the Department of Transportation was signed on April 27, 2021, by Kelly Speakes-Backman, Principal Deputy Assistant Secretary and Acting Assistant Secretary for Energy Efficiency and Renewable Energy, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the Federal Register.

Signed in Washington, DC, on April 28, 2021.

Treena V. Garrett,
Federal Register Liaison Officer, U.S. Department of Energy.

BILLING CODE 6450–01–P

In E.O. 13990, the President acknowledged the Nation’s “abiding commitment to empower our workers and communities, promote and protect our public health and the environment; and conserve our national treasures and monuments, places that secure our national memory.” The President also set forth the policy of the Administration to “listen to the science; to improve public health and protect our environment; to ensure access to clean air and water; to limit exposure to dangerous chemicals and pesticides; to hold polluters accountable, including those who disproportionately harm communities of color and low-income communities; to reduce greenhouse gas emissions; to bolster resilience to the impacts of climate change; to restore and expand our national treasures and monuments; and to prioritize both environmental justice and the creation of the well-paying union jobs necessary to deliver on these goals.” To that end, the President directed the heads of all executive departments and agencies, including DOT, to immediately review and, as appropriate and consistent with applicable law, address the promulgation of Federal regulations and other actions that conflict with these important national objectives, as well as to immediately commence work to confront the climate crisis.” E.O. 13990 specifically directed the Secretary of Transportation to review and consider publishing for notice and comment a proposed rule suspending, revising, or rescinding: “The Safer Affordable Fuel-Efficient (SAFE) Vehicles Rule Part One: One National Program,” and “The Safer Affordable Fuel-Efficient (SAFE) Vehicles Rule for Model Years 2021–2026 Passenger Cars and Light Trucks.” In a Fact Sheet issued by the President simultaneously with E.O. 13990, the President also directed DOT to review “Hazardous Materials: Liquefied Natural Gas by Rail” (https://www.whitehouse.gov/briefing-room/statements-releases/2021/01/20/fact-sheet-list-of-agency-actions-for-review/).

In E.O. 13992, the President set forth the Administration’s policy “to use available tools to confront the urgent challenges facing the Nation, including the coronavirus disease 2019 (COVID–19) pandemic, economic recovery, racial
