

including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Proposed Collection Title: Generic Clearance to Collect Stakeholder Feedback on the Research Domain Criteria (RDoC) Initiative, 0925–0756, EXTENSION, exp., date 07/31/2021, National Institute of Mental Health (NIMH), National Institutes of Health (NIH).

Need and Use of Information Collection: This request serves as notice that the National Institute of Mental Health (NIMH) plans to collect

stakeholder feedback to assess the strengths and weaknesses of the Research Domain Criteria (RDoC) initiative. NIMH launched RDoC in 2009 to implement Strategy 1.4 of the 2008 NIMH Strategic Plan: “Develop new ways of classifying disorders based on dimensions of observable behaviors and brain functions.” Rather than beginning with a syndrome and then working “down” to clarify mechanisms, the aim of RDoC is to guide research that begins with disruptions in neurobiological and behavioral mechanisms, and then works across systems to clarify connections among such disruptions and clinical symptoms. NIMH has developed social media platforms and tools for the RDoC initiative, including a dedicated RDoC twitter account (https://twitter.com/nimh_rdoc), the RDoC website, which also houses the RDoC matrix (<https://www.nimh.nih.gov/research-priorities/>

[rdoc/index.shtml](https://www.nimh.nih.gov/research-priorities/rdoc/rdoc-educational-and-training-resources.shtml)), and several educational and training resources (including webinars) to educate the field and interface with scientists who may have questions about RDoC (<https://www.nimh.nih.gov/research-priorities/rdoc/rdoc-educational-and-training-resources.shtml>). The evaluation approach will be conducted using surveys centered around current content (i.e., website, twitter, and webinars), as well as open ended surveys that will cover the scientific content of RDoC. The information collected will be used by NIMH staff to determine success of the RDoC initiative, develop future directions and endeavors, and to help guide programmatic priorities for RDoC and the Institute.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 490.

ESTIMATED ANNUALIZED BURDEN HOURS

Instrument type	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total annual burden hours
Workshops	50	1	8	400
Interviews	10	1	30/60	5
Surveys	100	1	30/60	50
Focus Groups	10	1	1	10
Evaluation Forms	100	1	15/60	25
Total	270	270	490

Dated: April 14, 2021.

Andrew A. Hooper,
Project Clearance Liaison, National Institute of Mental Health, National Institutes of Health.

National Institute of Biomedical Imaging and Bioengineering; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, notice is hereby given of a meeting of the National Institute of Biomedical Imaging and Bioengineering Special Emphasis Panel.

The meetings will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose

confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Institute of Biomedical Imaging and Bioengineering Special Emphasis Panel; P41 NCBIB Review D–SEP.

Date: June 29–July 1, 2021.

Time: 09:00 a.m. to 1:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, Democracy II, 707 Democracy Blvd., Bethesda, MD 20892 (Virtual Meeting).

Contact Person: John K. Hayes, Ph.D., Scientific Review Officer, National Institute of Biomedical Imaging and Bioengineering, National Institutes of Health, 6707 Democracy Blvd., Suite 959, Bethesda, MD 20892, (301) 451–3398, hayesj@mail.nih.gov. (Catalogue of Federal Domestic Assistance Program Nos. 93.866, National Institute of Biomedical Imaging and Bioengineering, National Institutes of Health, HHS)

Dated: April 30, 2021.

Ronald J. Livingston, Jr.,
Program Analyst, Office of Federal Advisory Committee Policy.
