(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

Abstract: This collection of information enables the BLM to process assignments of record title interest and transfers of operating rights in a lease for oil and gas or geothermal resources. Each assignment or transfer is a contract between private parties but, by law, must be approved by the Secretary. The BLM uses information about assignments and transfers to prevent unlawful extraction of mineral resources, to ensure prompt payment of rentals and royalties for the rights obtained under a Federal lease, and to ensure that leases are not encumbered with agreements that cause the minerals to be uneconomical to produce, resulting in lost revenues to the Federal Government. The information also enables the BLM to ensure the assignee or transferee is in compliance with the bonding requirements, when necessary, before approval of the transfer or assignment. Form 3000-003 is used to transfer record title interest (*i.e.*, primary ownership of a lease or the lessee's interest). Form 3003-003a is used to transfer operating rights interest (*i.e.*, also referred to as working interest or a sublease). This request is to extend for an additional three years OMB's approval for the collections of information under this OMB control number.

There are no changes to the information collections (Forms 3003-003 and 3003-003a) under OMB control number 1004-0034. The only program change to the information collections is due to an increase in cost-recovery fees from \$95 to \$100 per filing. The estimated annual responses have been adjusted downward by 8,808, from 17,626 to 8,818 responses. These adjustments have decreased the hour burden by 4,404, from 8,814 to 4,410 hours. Similarly, the non-hour cost burdens have been adjusted downward by \$792,670, from \$1,674,470 to \$881,800. This downward adjustment in costs is offset by a \$44,090 increase due to an increase in cost recovery fees. The cost recovery fees were increased pursuant to a BLM final rule titled, *Minerals Management: Adjustment of Cost Recovery Fees*, published in the **Federal Register** on October 9, 2020 (85 FR 64056). The itemized changes in burdens are outlined in the information collection request that has been submitted to OMB and is available at <http://www.reginfo.gov/public/do/PRAMain>.

Total Estimated Number of Annual Responses: 8,818.

Total Estimated Number of Annual Responses: 8,818.
