#### SUPPLEMENTARY INFORMATION:

##### Background

On October 6, 2020, based on a timely request for review, in accordance with 19 CFR 351.221(c)(1)(i), we initiated an administrative review on low melt polyester staple fiber (low melt PSF) from the Republic of Korea (Korea).<sup>1</sup> The review covers one producer and exporter of the subject merchandise, Toray Advanced Materials Korea, Inc. (TAK). For a complete description of the events that followed the initiation of this review, *see* the Preliminary Decision Memorandum.<sup>2</sup>

<sup>1</sup> *See Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 85 FR 63081, 63084 (October 6, 2020).

<sup>2</sup> *See* Memorandum, "Decision Memorandum for the Preliminary Results of the 2019-2020 Administrative Review of the Antidumping Duty Order on Low Melt Polyester Staple Fiber from the Republic of Korea," dated concurrently with, and hereby adopted by, this notice (Preliminary Decision Memorandum).

### Scope of the Order

The merchandise subject to this order is synthetic staple fibers, not carded or combed, specifically bi-component polyester fibers having a polyester fiber component that melts at a lower temperature than the other polyester fiber component (low melt PSF). The scope includes bi-component polyester staple fibers of any denier or cut length. The subject merchandise may be coated, usually with a finish or dye, or not coated.

Low melt PSF is classifiable under the Harmonized Tariff Schedule of the United States (HTSUS) subheading 5503.20.0015. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of the order is dispositive.

### Methodology

Commerce is conducting this review in accordance with sections 751(a)(1)(B) and (2) of the Tariff Act of 1930, as amended (the Act). Export price is calculated in accordance with section 772 of the Act. NV is calculated in accordance with section 773 of the Act.

For a full description of the methodology underlying our conclusions, *see* the Preliminary Decision Memorandum. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <https://enforcement.trade.gov/frn/>. A list of the topics discussed in the Preliminary Decision Memorandum is attached as an appendix to this notice.

### Preliminary Results of the Review

As a result of this review, we preliminarily determine that the following estimated weighted-average dumping margin exists for TAK for the period August 1, 2019, through July 31, 2020:

Exporter/producer	Estimated weighted-average dumping margin (percent)
Toray Advanced Materials Korea, Inc .....	3.00
