tribal implications and will not impose substantial direct costs on tribal governments or preemption tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

Washington’s SIP is approved to apply on non-trust land within the exterior boundaries of the Puyallup Indian Reservation, also known as the 1873 Survey Area. Under the Puyallup Tribe of Indians Settlement Act of 1989, 25 U.S.C. 1773, Congress explicitly provided state and local agencies in Washington authority over activities on non-trust lands within the 1873 Survey Area. Consistent with EPA policy, the EPA provided a consultation opportunity to the Puyallup Tribe, and other tribes located in Washington, in a letter dated September 4, 2020.

The Congressional Review Act, 5 U.S.C. 801 et seq., as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the Federal Register. A major rule cannot take effect until 60 days after it is published in the Federal Register. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by July 6, 2021. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2)).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Lead, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Michelle L. Pirzadeh,
Acting Regional Administrator, Region 10.

For the reasons set forth in the preamble, 40 CFR part 52 is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

1. The authority citation for part 52 continues to read as follows:
Authority: 42 U.S.C. 7401 et seq.

Subpart WW—Washington

2. In §52.2470, amend the table in paragraph (d) by:
   ■ a. Removing the entry “TransAlta Centralia BART”; and
   ■ b. Adding the entry “TransAlta Centralia BART—Second Revision” to the end of the table.

The addition reads as follows:

§52.2470 Identification of plan.

</tbody>
</table>

The EPA does not have the authority to remove these source-specific requirements in the absence of a demonstration that their removal would not interfere with attainment or maintenance of the NAAQS, violate any prevention of significant deterioration increment or result in visibility impairment. Washington Department of Ecology may request removal by submitting such a demonstration to the EPA as a SIP revision.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve a State Implementation Plan (SIP) revision submitted by the State of Missouri on February 15, 2019. This final action will amend the SIP to revise a Missouri regulation which restricts the emissions of volatile organic compounds from wood furniture manufacturing operations in St. Louis City and Jefferson, St. Charles, Franklin, and St. Louis Counties. These revisions do not have an adverse effect on air quality. The EPA’s approval of this rule revision is being done in accordance with the requirements of the Clean Air Act (CAA).

DATES: This final rule is effective on June 7, 2021.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–R07–OAR–2021–0136. All documents in the docket are listed on the https://www.regulations.gov website. Although listed in the index, some information is not publicly available, i.e., confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through https://www.regulations.gov or please contact the person identified in the FOR FURTHER INFORMATION CONTACT section for additional information.

ENVIROMENTAL PROTECTION AGENCY

40 CFR Part 52

Air Plan Approval; Missouri; Control of Volatile Organic Compound Emissions From Wood Furniture Manufacturing Operations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

[FR Doc. 2021–09383 Filed 5–6–21; 8:45 am]
Quality Planning Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219; telephone number: (913) 551–7714; email address: stone.william@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document “we,” “us,” and “our” refer to the EPA.

Table of Contents
I. What is being addressed in this document?
II. Have the requirements for approval of a SIP revision been met?
III. What action is the EPA taking?
IV. Incorporation by Reference
V. Statutory and Executive Order Reviews

I. What is being addressed in this document?

The EPA is approving revisions to the Missouri SIP received on February 15, 2019. The revisions are to Title 10, Division 10 of the Code of State Regulations, 10 CSR 10–5.530 “Control of Volatile Organic Compound Emissions From Wood Furniture Manufacturing Operations”, which restricts the emissions of volatile organic compounds (VOC) from wood furniture manufacturing operations in St. Louis City and Jefferson, St. Charles, Franklin, and St. Louis Counties (hereinafter referred to in this document as the “St. Louis Area”). The revisions to the rule specify that this rule only applies to sources that were existing at the time of the rule’s promulgation, remove restrictive words, update references, and make minor clarifications and grammatical changes. The revisions are described in detail in the technical support document (TSD) included in the docket for this action. The EPA solicited comments on the proposed revision to Missouri’s SIP, and received one comment that was supportive of the proposed action (86 FR 13264, March 8, 2021).

II. Have the requirements for approval of a SIP revision been met?

The State submission has met the public notice requirements for SIP submissions in accordance with 40 CFR 51.102. The submission also satisfied the completeness criteria of 40 CFR part 51, appendix V. The State provided public notice on this SIP revision from June 15, 2018, to September 6, 2018, and held a public hearing on August 30, 2018. The State received and addressed six comments from the EPA. As explained in more detail in the TSD which is included in the docket for this action, the SIP revision submission meets the substantive requirements of the CAA, including section 110 and implementing regulations.

III. What action is the EPA taking?

The EPA is taking final action to amend the Missouri SIP by approving the State’s request to revise 10 CSR 10–5.530 “Control of Volatile Organic Compound Emissions From Wood Furniture Manufacturing Operations.” The submission also satisfied requirements in accordance with 40 CFR 51.102. The submission also satisfied supportive of the proposed action (86 FR 13264, March 8, 2021).

IV. Incorporation by Reference

In this document, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the Missouri Regulations described in the amendments to 40 CFR part 52 set forth below. The EPA has made, and will continue to make, these materials generally available through www.regulations.gov and at the EPA Region 7 Office (please contact the person identified in the FOR FURTHER INFORMATION CONTACT section of this preamble for more information).

Therefore, these materials have been approved by the EPA for inclusion in the State Implementation Plan, have been incorporated by reference by EPA into that plan, are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of the EPA’s approval, and will be incorporated by reference in the next update to the SIP compilation.¹

V. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

• Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
• Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
• Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
• Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
• Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
• Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
• Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
• Is not subject to requirements of the National Technology Transfer and Advancement Act (NTTA) because this rulemaking does not involve technical standards; and
• Does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 et seq., as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the Federal Register. A major rule cannot take effect until 60 days after it is published in the Federal Register. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by July 6, 2021. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the
time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements (see section 307(b)(2)).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Reporting and recordkeeping requirements, Volatile organic compounds.

Edward H. Chu,
Acting Regional Administrator, Region 7.

For the reasons stated in the preamble, the EPA amends 40 CFR part 52 as set forth below:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

1. The authority citation for part 52 continues to read as follows:

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Air Plan Approval; Kentucky; Removal of Asbestos Requirements From Jefferson County

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is correcting the erroneous incorporation of the asbestos National Emission Standards for Hazardous Air Pollutants (NESHAP) requirements into the Jefferson County portion of the Kentucky State Implementation Plan (SIP). The continued presence of the asbestos requirements in the Jefferson County portion of the Kentucky SIP is inappropriate and potentially confusing and thus problematic for affected sources, the Commonwealth, local agencies, and EPA. EPA is removing the asbestos requirements because these requirements are not related to the attainment and maintenance of the national ambient air quality standards (NAAQS) and are therefore unrelated to the Clean Air Act (CAA or Act) requirements for SIPs.

DATES: This rule is effective June 7, 2021.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA–R04–OAR–2020–0500. All documents in the docket are listed on the www.regulations.gov website. Although listed in the index, some information may not be publicly available, i.e., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the Air Regulatory Management Section, Air Planning and Implementation Branch, Air and Radiation Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW, Atlanta, Georgia 30303–8960. EPA requests that if at all possible, you contact the person listed in the FOR FURTHER INFORMATION CONTACT section to schedule your inspection. The Regional Office’s official hours of business are Monday through Friday 8:30 a.m. to 4:30 p.m., excluding Federal holidays.

FOR FURTHER INFORMATION CONTACT: D. Brad Akers, Air Regulatory Management Section, Air Planning and Implementation Branch, Air and Radiation Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW, Atlanta, Georgia 30303–8960. Mr. Akers can be reached via electronic mail at akers.brad@epa.gov or via telephone at (404) 562–9089.

SUPPLEMENTARY INFORMATION:

I. Background

Section 110 of the CAA requires states to develop and submit to EPA a SIP to ensure that state air quality meets the NAAQS. These ambient air quality standards currently address six criteria pollutants: Carbon monoxide, nitrogen dioxide, ozone, lead, particulate matter, and sulfur dioxide. Each federally-approved SIP protects air quality primarily by addressing air pollution at its point of origin through air pollution regulations and control strategies. EPA-approved SIP regulations and control strategies are federally enforceable.

On October 23, 2001 (66 FR 53658), EPA approved revisions to the Jefferson County implementation plan for asbestos, removing the asbestos requirements because they were not related to attainment and maintenance of national ambient air quality standards (NAAQS) and were therefore not related to the Clean Air Act (CAA) requirements for SIPs. The EPA removed the asbestos requirements in an effort to correct the erroneous incorporation of asbestos NESHAP requirements into the Jefferson County portion of the Kentucky SIP. The continued presence of the asbestos requirements in the Jefferson County portion of the Kentucky SIP is inappropriate and potentially confusing and thus problematic for affected sources, the Commonwealth, local agencies, and EPA. EPA is removing the asbestos requirements because these requirements are not related to the attainment and maintenance of the national ambient air quality standards (NAAQS) and are therefore unrelated to the Clean Air Act (CAA or Act) requirements for SIPs.

On April 22, 2021, EPA is correcting the erroneous incorporation of asbestos NESHAP requirements into the Jefferson County portion of the Kentucky SIP. The continued presence of the asbestos requirements in the Jefferson County portion of the Kentucky SIP is inappropriate and potentially confusing and thus problematic for affected sources, the Commonwealth, local agencies, and EPA. EPA is removing the asbestos requirements because these requirements are not related to the attainment and maintenance of the national ambient air quality standards (NAAQS) and are therefore unrelated to the Clean Air Act (CAA or Act) requirements for SIPs.

Subpart AA—Missouri

2. In §52.1320, the table in paragraph (c) is amended by revising the entry “10–5.530” to read as follows:

§52.1320 Identification of plan.

* * * * *

(c) * * *
