Forest Service

Title: Federal and Non-Federal Financial Assistance Instruments.

OMB Control Number: 0596–0217.

Summary of Collection: In order to carry out specific Forest Service (FS) activities, Congress created several authorities to assist the Agency in carrying out its mission. Authorized by the Federal Grants and Cooperative Agreements Act (FGCAA), the FS issues Federal Financial Assistance awards, (i.e., grants and cooperative agreements). Agency specific authorities and appropriations also support use of Federal Financial Assistance awards. In addition to FFA, Congress created specific authorizations for acts outside the scope of the FGCAA. Appropriations language was developed to convey authority for the Forest Service to enter into relationships that are outside the scope of the FGCAA. Information in this request is collected from individuals; non-profit and for-profit institutions; institutions of higher education and state, local, and Native American tribal governments etc. Multiple options are available for respondents to respond including forms, non-forms, electronically, face-to-face, by telephone and over the internet.

Need and Use of the Information: In addition to Federal Financial Assistance (FFA), Congress created specific authorizations for acts outside the scope of the FGCAA. Appropriations language was developed to convey authority for the Forest Service to enter relationships that are outside the scope of the FGCAA. The Forest Service implements these authorizations using instruments such as collection agreements, FGCAA exempted agreements, memorandums of understanding, and other agreements which mutually benefit participating parties. These instruments fall outside the scope of the Federal Acquisition Regulations (FAR) and often require financial plans and statements of work. Forest Service employees collect information from cooperating parties from the pre-award to the closeout stage via telephone calls, emails, postal mail, and person-to-person meetings to create, develop, and administer these funded and non-funded agreements. The multiple means for respondents to communicate their responses include forms, non-forms, electronic documents,

face-to-face, telephone, and internet. The scope of information collected varies; however, it typically includes the project type, project scope, financial plan, statement of work, and cooperator's business information.

The Forest Service would not be able to create, develop, and administer these funded and non-funded agreements without the collected information. The Agency would also be unable to develop or monitor projects, make or receive payments, or identify financial and accounting errors.

Description of Respondents: Business or other for-profit; Not-for-profit Institutions; State, Local or Tribal Government; Individuals.

Number of Respondents: 4,890.

Frequency of Responses: Recordkeeping; Reporting: Quarterly; On occasion.

Total Burden Hours: 42,445.
