with a minimum absorbed dose of 150 Gray for fruit flies and follow the requirements of part 305. If the approved irradiation treatment is applied outside the United States, each consignment of fruit must be precleared by APHIS inspectors in Colombia. Treatment must occur in a pest-exclusionary treatment facility or, if irradiation is to be applied upon arrival in the United States, each consignment of fruit must be inspected by the NPPO prior to departure and accompanied by a phytosanitary certificate issued by the NPPO. Mangos intended to be irradiated in the United States must be shipped in APHIS-approved packaging that prevents escape of any Anastrepha spp. or Medfly larvae or adults.

• All hot water or irradiation treatment facilities in Colombia to be used for mangos are subject to APHIS approval. APHIS reserves the right to require oversight visits in the event of pest interceptions or other problems.
• Mango fruit must be safeguarded from exposure to Anastrepha spp. or Medfly from the time of treatment to export. The package containing mango fruit may not contain any other fruit, including mango fruit not qualified for importation into the United States.
• Each consignment must be inspected jointly by inspectors from APHIS and the NPPO and accompanied by a phytosanitary certificate issued by the NPPO.
• If more than one Ceratitis capitata or Anastrepha spp. or one Neosilba glaberrima is detected in a consignment, the consignment may not be exported to the United States.
• Each consignment is subject to inspection at the U.S. ports of entry.

In addition to these specific measures, fresh mango fruit from Colombia would be subject to the general requirements listed in § 319.56–3 that are applicable to the importation of all fruits and vegetables.

Therefore, in accordance with § 319.56–4(c), we are announcing the availability of our PRA and RMD for public review and comment. Those documents, as well as a description of the economic considerations associated with the importation of fresh mango fruit from Colombia, may be viewed on the Regulations.gov website or in our reading room (see ADDRESSES above for a link to Regulations.gov and information on the location and hours of the reading room). You may request paper copies of these documents by calling or writing to the person listed under FOR FURTHER INFORMATION CONTACT. Please refer to the subject of the analysis you wish to review when requesting copies.

After reviewing any comments we receive, we will announce our decision regarding the import status of fresh mango fruit from Colombia in a subsequent notice. If the overall conclusions of our analysis and the Administrator’s determination of risk remain unchanged following our consideration of the comments, then we will authorize the importation of fresh mango fruit from Colombia into the United States subject to the requirements specified in the RMD.

Boltless Steel Shelving Units Prepackaged for Sale From the People’s Republic of China: Continuation of Antidumping Duty Order and Countervailing Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the Department of Commerce (Commerce) and the International Trade Commission (ITC) that revocation of the antidumping duty (AD) and countervailing duty (CVD) orders on boltless steel shelving units prepackaged for sale from the People’s Republic of China (China) would likely lead to continuation or recurrence of dumping, countervailable subsidies, and material injury to an industry in the United States, Commerce is publishing a notice of continuation of the AD and CVD orders.

DATES: Applicable May 12, 2021.

SUPPLEMENTARY INFORMATION:

Background

On October 21, 2015, Commerce published the AD and CVD orders on boltless steel shelving from China.¹ On September 1, 2020, the ITC instituted,² and Commerce initiated, the first sunset review of the Orders, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).³ As a result of its review, Commerce determined that revocation of the Orders would likely lead to continuation or recurrence of dumping and countervailable subsidies and, therefore, notified the ITC of the magnitude of the margins and net countervailable subsidy rates likely to prevail should the Orders be revoked.⁴

On May 5, 2021, the ITC published its determination, pursuant to sections 751(c) and 752(a) of the Act, that revocation of the Orders would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.⁵

Scope of the Orders

The scope of the Orders covers boltless steel shelving units prepackaged for sale, with or without decks (boltless steel shelving). The term “prepackaged for sale” means that, at a minimum, the steel vertical supports (i.e., uprights and posts) and steel horizontal supports (i.e., beams, braces) necessary to assemble a completed shelving unit (with or without decks) are packaged together for ultimate purchase by the end-user. The scope also includes add-on kits. Add-on kits include, but are not limited to, kits that allow the end-user to add an extension shelving unit onto an existing boltless steel shelving unit such that the
