Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purpose of the PBI Program is to strengthen Predominantly Black Institutions (PBIs) to carry out programs in the following areas: science, technology, engineering, or mathematics (STEM); health education; internationalization or globalization; teacher preparation; or improving educational outcomes of African American males.

Background: Recent data suggests that the COVID-19 pandemic has created

mental health and academic challenges for Black or African American students. The psychological impact of an abrupt transition to continuing courses online caused some students to experience levels of stress, thus impacting their ability to perform as well academically. For example, according to a survey of more than 5,000 students conducted by the United Negro College Fund, half of the respondents wanted to return to normal with full on-campus classroom instruction; one third of respondents wanted some in-class instruction with some online courses and 17 percent of respondents thought it was best to have only online courses. Some 37 percent of all students who responded to the survey, and particularly women, said that their mental well-being had declined during the pandemic.¹ According to the "Stay Informed" report published in March 2021 by the National Student Clearinghouse Research Center, Black undergraduate enrollment declined 6 percent from Spring 2020 to Spring 2021 after declining 2 percent in the previous year. Black male enrollment dropped even further, by 9.7 percent from Spring 2020 to Spring 2021 after falling by 3.5 percent the prior year.²

Priorities: This notice contains one absolute priority, one competitive preference priority, and one invitational priority. The competitive preference priority is from the Notice of Final Administrative Priority and Definitions for Discretionary Grant Programs, published in the **Federal Register** on December 30, 2020 (85 FR 86545) (Remote Learning NFP).

Absolute Priority: For FY 2021, and any subsequent year in which we make awards from the list of unfunded applications from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is:
