requirements concerning the recall of CSAPR NOX Ozone Season Group 2 allowances allocated for control periods after 2020, recalculation of CSAPR NOX Ozone Season Group 3 allowances will be deferred until the source has fully complied with the recall requirements. EPA notes that an allocation or lack of allocation of emission allowances to a given unit does not constitute a determination that CSAPR does or does not apply to the unit. EPA also notes that allocations are subject to potential termination or correction under the regulations.

Announcing Upcoming Meeting of Mobile Sources Technical Review Subcommittee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Pursuant to the Federal Advisory Committee Act, EPA announces an upcoming meeting of the Mobile Sources Technical Review Subcommittee (MSTRS), which is a subcommittee under the Clean Air Act Advisory Committee (CAAAC). This is a virtual meeting and open to the public. The meeting will include discussion of current topics and presentations about activities being conducted by EPA’s Office of Transportation and Air Quality. MSTRS listserv subscribers will receive notification when the agenda is available on the Subcommittee website. To subscribe to the MSTRS listserv, send an email to MSTRS@epa.gov.

DATES: EPA will hold a virtual public meeting on Tuesday, June 15, 2021 from 9:00 a.m. to 5:00 p.m. Eastern Daylight Time (EDT). Please monitor the website https://www.epa.gov/aaac/mobile-sources-technical-review-committee-mstrs-caaac for any changes to meeting logistics. The final meeting agenda will be posted on the website.

ADDRESS: For information on access or services for individuals with disabilities, please email MSTRS@epa.gov. To request accommodation of a disability, please email MSTRS@epa.gov, preferably at least 10 business days prior to the meeting, to give EPA as much time as possible to process your request.

Julia Burch,
Designated Federal Officer, Mobile Source Technical Review Subcommittee, Office of Transportation and Air Quality.

Administration of Cross-State Air Pollution Rule Trading Program Assurance Provisions for 2020 Control Periods

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of data availability.

SUMMARY: The Environmental Protection Agency (EPA) is providing notice of the availability of data on the administration of the assurance provisions of the Cross-State Air Pollution Rule (CSAPR) trading programs for the control periods in 2020. Total emissions of nitrogen oxides (NOx) reported by Mississippi and Missouri units participating in the CSAPR NOx Ozone Season Group 2 Trading Program during the 2020 control period exceeded the respective states’ assurance levels under the program. Data demonstrating the exceedances and EPA’s preliminary calculations of the amounts of additional allowances that the owners and operators of certain Mississippi and Missouri units must surrender have been posted in a spreadsheet on EPA’s website. EPA will consider timely objections to the data and calculations before making final determinations of the amounts of additional allowances that must be surrendered.

DATES: Objections to the information referenced in this notice must be received on or before June 16, 2021.

ADDRESSES: Submit your objections via email to CSAPR@epa.gov. Include “2020 CSAPR Assurance Provisions” in the email subject line and include your name, title, affiliation, address, phone number, and email address in the body of the email.

FOR FURTHER INFORMATION CONTACT: Questions concerning this action should be addressed to Garrett Powers at (202) 564–2300 or powers.jamesg@epa.gov.

SUPPLEMENTARY INFORMATION: The regulations for each CSAPR trading program contain “assurance provisions” designed to ensure that the emissions reductions required from each state

a See 40 CFR 97.1021(m); see also 40 CFR 97.811(d).
b See 40 CFR 97.1011(a)(1).
c See 40 CFR 97.1011(a)(2) and (c).
Mississippi and Missouri units must notify the preliminary calculations of the amounts of additional allowances that must be surrendered, incorporating any adjustments made in response to objections received, as required under 40 CFR 97.825(b)(2)(ii)(B). Each set of owners and operators identified pursuant to the notice of the final calculations must hold the required additional allowances in an assurance account by November 1, 2021.

The data and preliminary calculations are set forth in an Excel spreadsheet entitled “2020_CSPR_assurance_provision_calculations_prelim.xlsx” available at http://www.epa.gov/caspar/cspar-assurance-provision-nodas. The spreadsheet contains data for the 2020 control period showing, for each Mississippi and Missouri unit identified as affected under the CSAPR NOX Ozone Season Group 2 Trading Program, the amount of NOX emissions reported by the unit and the amount of CSAPR NOX Ozone Season Group 2 allowances allocated to the unit, including any allowances allocated from a new unit set-aside. The spreadsheet also contains calculations for the 2020 control period showing the total NOX emissions reported by all such units in each state and the amounts by which the total reported NOX emissions exceeded the respective states’ assurance levels under the program. Finally, the spreadsheet also includes calculations for the 2020 control period showing, for each common designated representative for a group of such units in each state, the common designated representative’s share of the total reported NOX emissions, the common designated representative’s share of the state’s assurance level, and the amount of additional CSAPR NOX Ozone Season Group 2 allowances that the owners and operators of the units in the group must surrender.

Any objections should be strictly limited to whether EPA has identified the data and performed the calculations in the spreadsheet correctly in accordance with the regulations. Objections must include (1) precise identification of the specific data or calculations the commenter believes are inaccurate, (2) new proposed data or calculations upon which the commenter believes EPA should rely instead, and (3) the reasons why EPA should rely on the commenter’s proposed data or calculations and not the data and calculations referenced in this notice.
